The amended bill includes $2,000,000 for the Library of Congress's capital security cost sharing program fees (sec. 634(m)). The Appropriations Committees note that this one time appropriation is a result of an anomaly arising from the fiscal year 2007 continuing resolution.

The Appropriations Committees note that no funding is provided for the 2010 Olympics, as proposed by the Senate.

CAPITAL INVESTMENT FUND

The amended bill provides $60,062,000 for the Capital Investment Fund, instead of $59,062,000 as proposed by the House and $63,743,000 as proposed by the Senate.

The Appropriations Committees support an independent Department of State OIG, which has sufficient resources and authority to properly carry out its duties as set forth in the Inspector General Act of 1978. The Appropriations Committees are supportive of this effort, and will review the new authorities and funding requirements once the program is authorized. The Appropriations Committees support expanding study abroad opportunities for United States students, diversifying the study abroad population, and increasing study in non-traditional countries. Over the past decade study abroad by United States students has increased by 150 percent and funding provided by the Congress has also increased significantly; the amount provided in fiscal year 2008 reflects an 8.4 percent increase in a single year. The Appropriations Committees endorse the report requirement contained in Senate Report 110–128 to expand the capacity of study abroad.

Funding under this heading should be allocated to the following activities in the amounts designated in the table below, subject to the requirements of section 619:

DIVISION K—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Transportation, Housing and Urban Development, and Related Agencies Act, 2008 (H.R. 3074) passed by the House of Representatives and the Senate.

The language and allocations set forth in the House and Senate reports (H. Rept. 110–238 and S. Rept. 110–131) should be complied with unless specifically addressed to the contrary in the amended bill or this explanatory statement. This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

TITLE I—DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

The amended bill provides $91,782,000 for the salaries and expenses of the office of the secretary instead of $90,678,000 as proposed by the House and $95,197,000 as proposed by the Senate. As proposed by both the House and the Senate, bill language is included that specifies funding by office. The amended bill is as follows:

Immediate office of the Secretary	$2,310,000
Immediate office of the Deputy Secretary	730,000
Office of the General Counsel	18,720,000
Office of the Under Secretary for Transportation Policy	9,874,000
Office of the Assistant Secretary for Budget and Programs	9,417,000
Office of the Assistant Secretary for Governmental Affairs	2,383,000
Office of the Assistant Secretary for Administration	23,750,000
Office of Public Affairs	1,986,000
Office of the Executive Secretariat	1,516,000
Office of Small and Disadvantaged Business Utilization	1,335,000
Office of Intelligence, Security and Emergency Response	7,874,000
Office of the Chief Information Officer	11,887,000

The amended bill retains provisions proposed by both the House and the Senate limiting transfers among each office to no more than 5 percent and requiring that any transfer greater than 5 percent must be submitted for approval to the House and Senate Committees on Appropriations. Bill language is also included which allows the Department to spend up to $60,000 within the funds provided for official reception and representation expenses.

The amended bill retains bill language proposed by the House and Senate prohibiting funds from being used for the position of Assistant Secretary for Public Affairs. The amended bill also retains bill language proposed by both the House and the Senate that allows up to $2,500,000 in user fees to be credited to salaries and expenses.

Within the amounts provided to the office of the general counsel, an additional $2,500,000 is provided to increase enforcement activities to better protect air travel consumers as proposed by the Senate.

The Appropriations Committees direct the Department to notify the House and Senate Committees on Appropriations no less than three full business days before any grant totaling $500,000 is announced and further clarify that such notifications shall be based on the grant's full-year funding level, not just the incremental amount being released. In addition, the Appropriations Committees direct the Department to provide three day notice to the Appropriations Committees regarding grants from the Federal Highway Administration's Emergency Relief program, with the exception that notification of "quick releases" from that program can be made concurrently with the grant announcement.

The Appropriations Committees direct the Secretary to submit an operating plan for fiscal year 2008 for the entire Department as described in the House report for approval by the House and Senate Committees on Appropriations within 60 days of enactment of this Act.

Further, the Assistant Secretary for Budget and Programs shall submit a report to both the House and Senate Committees on Appropriations at the beginning of each fiscal quarter on the status of all outstanding reports and reporting requirements, including the deadlines established by Congress for each report and an estimated date for delivery, as directed by the Senate. The Assistant Secretary for Budget and Programs is also directed to submit a quarterly report detailing all funding transfers made between offices within the office of the secretary (OST) pursuant to transfer authority in OST salaries and expenses.

The Appropriations Committees direct the office of the under secretary of transportation for policy to conduct a study of the use of non-hazardous recycled aggregates and other materials in highway projects as proposed by the Senate and to provide a report to the House and Senate Committees on Appropriations by April 1, 2008.

The Appropriations Committees delete language proposed by the House regarding the Department of Defense schools and FAA employees in Puerto Rico and Guam.

Small community air service development program.—The Appropriations Committees strongly disagree with the Department's plan to transfer the administration of the small community air service development program from the OST policy office to the Federal Aviation Administration. In the aftermath of the tragic Valujet crash on May 11, 1996, the Congress eliminated the FAA's dual mission of safety and promotion and established safety as the agency's singular mission through the enactment of section 401 of the Federal Aviation Authorization Act of 1996 (Public Law 104–264). The Appropriations Committees agree that it is inappropriate for the FAA, which is charged with the safety and regulatory oversight of our nation's airports and aviation system, to administer a marketing program designed to attract commercial air service at small airports. The Appropriations Committees direct the Secretary to retain this program within the policy office where it currently resides.

OFFICE OF CIVIL RIGHTS

The amended bill provides $9,140,900 for the office of civil rights as proposed by both the House and the Senate.

TRANSPORTATION PLANNING, RESEARCH AND DEVELOPMENT

The amended bill provides $13,883,900 for transportation planning, research and development instead of $8,515,000 as proposed by the House and $14,115,000 as proposed by the Senate. Adjustments to the budget request are as follows:

Ballast water research, UW-Superior, WI	$980,000
Great Lakes maritime research institute, WI	980,000
Inland Pacific Hub Analysis Project, WA	245,000
National center for manufacturing sciences (NCMS), MI	735,000
SR–520 innovative water quality protection project, WA	343,000
Transportation and public safety traffic information exchange pilot project, DE	328,300
UVM advanced ground penetrating radar systems, VT	656,600
Virtual accident and injury reconstruction center, Mississippi State University, MS	980,000
Washington State University freight transportation policy institute, WA	441,000

WORKING CAPITAL FUND

The amended bill includes a limitation of $128,094,000 for working capital fund activities as proposed by both the House and the Senate.

MINORITY BUSINESS RESOURCE CENTER PROGRAM

The amended bill provides a total appropriation of $893,000 for the costs of guaranteed loans for short-term working capital and the administrative expenses of the minority business resource center program as proposed by the House instead of $891,000 as proposed by the Senate and limits loans made under the program to $18,367,000 as proposed by both the House and the Senate.

MINORITY BUSINESS OUTREACH

The amended bill provides $2,970,000 for minority business outreach as proposed by both the House and the Senate.

PAYMENTS TO AIR CARRIERS

(AIRPORT AND AIRWAY TRUST FUND)

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $60,000,000 for payments to air carriers to be derived from the trust fund as proposed by the House and Senate. In addition to these funds, the program will receive $50,000,000 in mandatory spending pursuant to the Federal Aviation Authorization Act of 1996. In addition, $15,000,000 is made available pursuant to the Deficit Reduction Act of 2005, resulting in a total program budget of $125,000,000.

COMPENSATION TO AIR CARRIERS

(RESCISSION)

The amended bill rescinds $22,000,000 from unobligated funds as proposed by the House and Senate.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION

Section 101 retains a provision allowing the Secretary to transfer unexpended sums from "office of the secretary, salaries and expenses" to "minority business outreach" as proposed by the House and Senate.

Section 102 retains a provision prohibiting the Office of the Secretary of Transportation from approving assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in the Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification as proposed by the House and Senate.

Section 103 retains a provision prohibiting the use of funds to implement an essential air service local cost share participation program as proposed by the House and Senate.

FEDERAL AVIATION ADMINISTRATION

OPERATIONS

The amended bill includes $8,740,000,000 for operations of the Federal Aviation Administration instead of $8,716,606,000 as proposed by the House and $8,761,783,000 as proposed by the Senate. Of the total amount provided, $6,397,060,900 is to be derived from the airport and airway trust fund instead of $6,317,000,000 as proposed by the House and $6,400,580,000 proposed by the Senate. Funds are distributed in the bill by budget activity.

Second career training program.—The amended bill retains language proposed by the House that prohibits funding for the second career training program.

Non-profit standard-setting organization for safety standards.—The amended bill retains language proposed by the House that allows the FAA to enter into an agreement with a nonprofit standard-setting organization to develop safety standards.

Office of Aviation Safety.—The amended bill specifies no less than $6,000,000 for aviation safety for staff increases in the office of flight standards (AFS) and the office of aircraft certification (AIR), instead of $20,000,000 proposed by the Senate. The House did not include a similar provision.

Controller and Safety Staffing Plans.—The amended bill retains language proposed by the Senate that requires FAA to transmit an annual update to the controller workforce plan by March 31, 2008, and reduces the appropriation by $100,000 per day each day the report is late. The amended bill does not retain a legislative provision proposed by the Senate requiring a comprehensive strategy for AFS and AIR staffing by March 31, 2008. This reporting requirement is addressed later in this statement.

The following table compares the amended bill to the President's budget request and the levels proposed in the House and Senate bills by budget activity:

Contract tower program.—The amended bill includes $8,500,000 to continue the contract tower cost-sharing program as proposed by both the House and Senate. In addition, consistent with House proposal, the Appropriations Committees provide $103,000,000 for the contract tower base program, and allow FAA to use unsubscribed funds from the contract tower base line program to avoid elimination of communities from the cost share towers program. The Appropriations Committees allow this flexibility only after all baseline tower obligations are fulfilled. The Senate proposed $99,400,000 for the base program.

Air traffic controller staffing.—The Appropriations Committees provide $15,899,000, equal to the budget request, to hire and train 1,420 new controllers, and recognize that FAA will adjust its hiring target consistent with actual attrition levels.

Diversity plans for controllers and safety staff.—The amended bill retains language proposed by the House directing the FAA to prepare and transmit diversity plans for both controllers and safety staff. The Appropriations Committees amend the submittal date for these plans from January 1, 2008 to April 1, 2008.

Aviation safety (AVS).—The amended bill provides $1,082,653,000 for aviation safety, instead of $1,076,103,000 proposed by the House and $1,092,103,000 proposed by the Senate. This amount includes $16,000,000 as proposed by both the House and Senate to annualize safety personnel in AFS and AIR that are currently on-board. It also includes no less than $6,000,000 to increase AFS and AIR safety staff and $2,000,000 to increase safety staff in other high priority offices within AVS. The Appropriations Committees direct FAA to provide a letter report to the House and Senate Committees on Appropriations indicating how this $2,000,000 was spent.

The Appropriations Committees modify House language that designates AVS funding as a congressional item of interest and continue to prohibit reprogrammings to other offices outside of AVS; however, the legislative prohibition against reprogrammings among AVS offices is deleted.

The Appropriations Committees include Senate language directing the FAA to provide a quarterly report on safety personnel by office in AVS, instead of the annual requirement on safety employment and other data as proposed by the House. The amended bill includes the Senate requirement that FAA submit within 90 days from enactment, a report on its staffing model schedule, and directs FAA to submit an annual safety plan by March 31, 2008, describing FAA's safety needs within AVS, the use of designees and their impact on safety, as proposed by the House. The Appropriations Committees include the direction that this annual safety plan include total number of staff, estimated staff losses, and planned hires for the entire safety staff as well as individually for the flight standards and the aircraft certification offices, as proposed by the Senate.

The amended bill includes in statement language the reporting requirements contained in the Senate bill directing the Government Accountability Office to study the effectiveness of different strategies for reducing flight delays at various airports and transmit the report within 120 days of enactment, and directing the Secretary of Transportation to outline DOT's plan to alleviate air congestion and flight delays in the New York/New Jersey/Philadelphia airspace.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The amended bill includes $2,513,611,000 instead of $2,515,000,000 as proposed by the House and $2,516,920,000 as proposed by the Senate. Of the total amount available, $459,973,000 is available until September 30, 2008, and $2,053,638,000 is available until September 30, 2010. The amended bill includes language proposed by both the House and Senate directing FAA to transmit a detailed five-year capital investment plan to Congress with its fiscal year 2009 budget submission.

Obligation limitation.—The Appropriations Committees agree to an obligation limitation of $3,514,500,000 for the "Grants-in-aid for airports" program as proposed by the Senate, instead of $3,600,000,000 as proposed by the House.

High priority projects.—Of the funds covered by the obligation limitation in this bill, the Appropriations Committees direct FAA to provide the following funding levels, out of available resources, for the following projects, except that the amount for each project and activity shall be reduced by 2 percent. The Appropriations Committees reaffirm that state apportionment funds may be construed as discretionary funds for the purposes of implementing this provision. To the maximum extent possible, the administrator should work to ensure that airport sponsors for these projects first use available entitlement funds to finance the projects. However, the FAA should not require sponsors to apply carryover entitlements to discretionary projects funded in the coming year, but only those entitlements applicable to the fiscal year 2008 obligation limitation. The Appropriations Committees further direct that the specific funding allocated below shall not diminish or prejudice the application of a specific airport or geographic region to receive other AIP discretionary grants or multiyear letters of intent.

Sec. 110 allows 425 technical staff-years at the Center for Advanced Aviation Systems Development as proposed by the House and Senate.

Sec. 111 prohibits funds for adopting guidelines or regulations requiring airport sponsors to provide FAA "without cost" building construction or space, as proposed by the House and Senate.

Sec. 112 retains a provision proposed by the House and Senate that allows the FAA to be reimbursed for amounts made available for 49 U.S.C. 41742(a)(1) as fees are collected and credited under 49 U.S.C. 45303.

Sec. 113 retains a provision proposed by both the House and Senate that allows reimbursement of funds for providing technical assistance to foreign aviation authorities to be credited to the operations account.

Sec. 114 amends a provision proposed by the House and Senate that continues the war risk insurance and the limitation on air carrier liability for third party claims arising out of acts of terrorism until December 31, 2008.

Sec. 115 retains a provision proposed by the House prohibiting funds to change weight restrictions or prior permission rules at Teterboro Airport in New Jersey. The Senate bill contained no similar provision.

Sec. 116 includes a new provision which extends the current rates of excise taxes that finance the Airport and Airway Trust Fund and allows these receipts to be expended.

Sec. 117 includes a new provision that establishes a process for labor contract integration in the event of an air carrier merger or take-over.

Congestion reduction initiative.—The Appropriations Committees direct the Comptroller General to conduct a review of the Department of Transportation's implementation of its Congestion Initiative during fiscal year 2007, and to submit a report on his findings to the House and Senate Committees on Appropriations by March 31, 2008. This review shall consist of the following three elements: (1) an analysis of the process used to select participants in Urban Partnership Agreements, the Corridors of the Future program, and Public-Private Partnerships, including the Department's methodology, outreach, use of funds, and selection criteria; (2) an evaluation of the effectiveness of the initiative in relieving congestion, including a discussion of the Department's efforts at relieving congestion at the country's borders, in aviation, and at vital trade gateways; and (3) an examination of the relationship between the Congestion Initiative and the goals of the programs used to fund it. The Appropriations Committees further direct the Comptroller General to report on any grants awarded to participants in the Congestion Initiative in fiscal year 2008, and to include in his report an assessment of the Department's selection process, outreach, and relevant criteria or benchmarks. (ADDITIONAL OBLIGATION LIMITATION)

(HIGHWAY TRUST FUND)

The amended bill increases the Federal-aid highways obligation limitation by $1,000,000,000, as proposed by the Senate, and directs that this additional limitation be used only for the bridge program and be distributed to the States based on the bridge program formula. The amended bill also specifies that this obligation limitation shall remain available for a period of three fiscal years. The Appropriations Committees also direct the Secretary of Transportation to ensure that the additional limitation supplements each State's planned obligations for the bridge program. The House did not include a similar provision.

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

The amended bill provides a liquidating cash appropriation of $41,955,051,359, which is available until expended, to pay the outstanding obligations of the various highway programs at levels provided in this Act and prior appropriations Acts, instead of $40,955,051,359 as proposed by both the House and the Senate.

(RESCISSION)

(HIGHWAY TRUST FUND)

The amended bill includes a rescission of $3,150,000,000 of the unobligated balances of funds apportioned to the States under chapter 1 of title 23, United States Code, instead of $3,000,000,000 as proposed by the House and $2,890,000,000 as proposed by the Senate. The amended bill also excludes safety programs and funds set aside within the State for population areas from this rescission and directs the FHWA to administer the rescission by allowing each State maximum flexibility in making adjustments among the apportioned highway programs, as proposed by the Senate. The House had proposed to apply the rescission proportionally to each highway program, including funds set aside for transportation enhancements and within the state for population areas.

I-35W BRIDGE REPAIR AND RECONSTRUCTION

The amended bill provides an emergency appropriation of $195,000,000 for the repair and reconstruction of the Interstate 35W bridge located in Minneapolis, MN, that collapsed on August 1, 2007, as authorized under Public Law 110-56, as proposed by the Senate. The House did not include a similar provision.

APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM

DELTA REGIONAL TRANSPORTATION DEVELOPMENT PROGRAM

The amended bill provides $14,014,000 for the Delta Regional Transportation Development Program, instead of $20,000,000 as proposed by the Senate. The House did not include a similar provision. Section 130 includes a provision similar to language proposed by the Senate that provides requirements for any waiver of Buy American requirements. The House did not include a similar provision.

Section 131 includes a new provision that rescinds fiscal year 2008 funding for the highways for LIFE, innovative bridge research and deployment, and truck parking facilities programs.

The amended bill deletes a provision proposed by the Senate that would have permitted funds made available in a prior appropriations act for the construction of the North Shore Road in North Carolina to be available for an alternate purpose. The Appropriations Committees believe that this is an issue that is better suited to be dealt with by the National Park Service within the Department of the Interior.

FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

MOTOR CARRIER SAFETY OPERATIONS AND PROGRAMS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

(INCLUDING RESCISSION)

The amended bill includes a liquidation of contract authorization and a limitation on obligations of $229,654,000 for the operating expenses of and motor carrier safety research by the Federal Motor Carrier Safety Administration (FMCSA), instead of $228,000,000 as proposed by the House and $231,469,553 as proposed by the Senate. The amended bill reduces FMCSA's contract services by $459,000 instead of $3,246,000 as proposed by the House. The amended bill rescinds $1,815,553 in unobligated balances from motor carrier safety operations instead of $3,469,553 as proposed by the House. The amended bill provides funding in the following manner:

	Budget Resources Total
Operating expenses	$172,200,000
Research and technology ...	8,900,000
Information management	33,829,000
Regulatory development ...	10,725,000
Outreach and education	3,000,000
Commercial motor vehicle operators grants	1,000,000

The amended bill also prohibits any funds relating to outreach and education from being transferred to another agency as proposed by the House and the Senate.

High risk carriers.—Within the funds provided for FMCSA's operating expenses, the amended bill includes an additional $1,000,000 as proposed by the Senate to conduct compliance reviews on high risk carriers. In addition, the Appropriations Committees direct FMCSA to provide quarterly reports on the agency's progress in meeting the high risk carrier requirements contained in SAFETEA–LU.

Compliance reviews.—The Appropriations Committees direct FMCSA to prepare a safety oversight action plan and to provide a report to the House and Senate Committees on Appropriations within six months of enactment of this Act which includes a delineation of the number of planned and completed compliance reviews from the previous year. In addition, the report should include the results of the agency's internal review of the fatal accident that occurred on the Capital Beltway (I–495/I–95) on March 19, 2007, and any requisite impact on the compliance review process, particularly as it relates to investigator training.

Motor coach accessibility.—The Appropriations Committees reiterate concerns expressed in both the House and Senate Committee reports regarding DOT's failure to enforce its own regulations requiring accessibility to over-the-road buses for people with disabilities. The U.S. Court of Appeals for the D.C. Circuit rejected FMCSA's assertion that it did not have the authority to deny bus operators registration based on an interstate bus company's unwillingness or inability to comply with DOT's Americans with Disabilities Act (ADA) regulations, and remanded the case to FMCSA for further interpretation. On October 26, 2007, FMCSA responded by reasserting its claim that it lacks the authority to enforce DOT's own ADA regulations. The Appropriations Committees find this interpretation to be mystifying, unacceptable, and deliberately evasive. It certainly calls into question the commitment of both the Secretary and the Administrator to enforcing both the letter and the spirit of Federal laws designed to protect the rights of the disabled. The Appropriations Committees disagree with FMCSA that further statutory language is needed to clarify FMCSA's enforcement role in this area. Even so, given the recalcitrant stance and steadfast refusal of the Secretary and the Administrator to enforce the law on this matter, the Appropriations Committees are supportive of the prompt enactment of H.R. 3985: the Over-the-Road Bus Transportation Accessibility Act of 2007. This bill makes clear, again, that FMCSA has the authority to enforce compliance with DOT's ADA regulations in this area. The Appropriations Committees can only hope that, once this law is enacted, the Secretary and Administrator will not concoct still further evasive strategies to avoid their statutory responsibility.

MOTOR CARRIER SAFETY GRANTS

(LIQUIDATION OF CONTRACT AUTHORIZATION) .

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

(INCLUDING RESCISSION)

The amended bill provides a liquidating cash appropriation and a limitation on obligations of $300,000,000 for motor carrier safety grants as proposed by the House and the Senate.

The amended bill provides funding for motor carrier safety grants as follows:

	Budget Resources Total
Motor carrier safety assistance program	$202,000,000
Commercial driver's license (CDL) program improvement grants	25,000,000
Border enforcement grants	32,000,000
Performance and registration information system management grant program	5,000,000
Commercial vehicle information systems and networks deployment	25,000,000
Safety data improvement grants	3,000,000
CDL information system modernization	8,000,000

The amended bill directs that $29,000,000 of the funds provided for the motor carrier safety assistance program shall be distributed as grants to States and local governments for new entrant motor carrier audits. In addition, the amended bill rescinds $11,260,214 in unobligated balances as proposed by the House and the Senate.

MOTOR CARRIER SAFETY

(HIGHWAY TRUST FUND)

(RESCISSION)

The amended bill rescinds $32,187,720 in unobligated balances from the motor carrier safety program as proposed by the House and the Senate.

NATIONAL MOTOR CARRIER SAFETY PROGRAM

(HIGHWAY TRUST FUND)

(RESCISSION)

The amended bill rescinds $5,212,858 in unobligated balances from the national motor carrier safety program as proposed by the House and the Senate.

ADMINISTRATIVE PROVISIONS—FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

Section 135 retains the provision as proposed by the House and the Senate that subjects funds appropriated in this Act to the terms and conditions of section 350 of Public Law 107-87 and section 6901 of Public Law 110–28, including that the Secretary submit a report on Mexico-domiciled motor carriers.

Section 136 includes a provision as proposed by the Senate prohibiting funds from being used to establish a cross-border motor carrier demonstration program to allow Mexico-domiciled motor carriers to operate beyond the commercial zone in the United States. The House included a similar provision.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

OPERATIONS AND RESEARCH

The amended bill provides $126,572,000 from the general fund for highway and traffic safety activities, instead of $125,000,000 as proposed by the House and $124,406,000 as proposed by the Senate. Of this amount, a total of $26,156,000 shall remain available until September 30, 2010, as proposed by both the House and the Senate.

The amended bill includes language providing that no more than ten percent of the funds available for this program may be used for planning activities that lead directly to the development of a passenger rail corridor investment plan. The amended bill clarifies that in order to be eligible for capital assistance, the specific project must be on the statewide transportation improvement plan. In addition, the Secretary is directed to give priority to capital and planning applications for projects that improve the safety and reliability of intercity service; involve a commitment by the freight railroads to improve on-time performance; improve or extend service on a route that requires minimal or no federal operating assistance; and involve a financial commitment by States to improve highway/rail grade crossings.

The Appropriations Committees delete, without prejudice, a provision regarding Davis-Bacon requirements as proposed by the Senate. It is the understanding of the Appropriations Committees that appropriate current law will apply to capital construction projects.

The amended bill includes bill language as proposed by the House which prohibits Amtrak from discounting tickets at more than 50 percent off the normal, peak fare after March 1, 2006, unless the operating loss due to the discounted fare is covered by a State.

The amended bill provides $18,500,000 for Amtrak's office of inspector general as proposed by the House.

CAPITAL AND DEBT SERVICE GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

Section 151 retains a provision included by the Senate requiring the FRA Administrator to submit quarterly reports to the House and Senate Committees on Appropriations on Amtrak on-time performance.

The amended bill provides FTA's administrative funding in the structure proposed by the House instead of distributing the agency's funding by each individual office. In addition, the amended bill specifies that $20,719,000 shall be provided for the central account and that no more than $1,504,000 shall be provided for travel.

The amended bill retains provisions proposed by both the House and the Senate allowing for the transfer of up to five percent of funds between offices, directing FTA to submit for approval any proposal to transfer funds from the Central Account, prohibiting funds for a permanent office of transit security, directing FTA to reimburse up to $2,000,000 to the Office of the Inspector General, and directing the submission of the annual new starts report. As proposed by the House, funds for the National Transit Database are included under the formula program.

FTA is directed to submit its fiscal year 2009 congressional budget justification for administrative funds itemized by office with material detailing salaries and expenses, staffing increases, and programmatic initiatives of each office. The initiatives for each should be clearly stated, and include a justification for each new position or full-time equivalent, should FTA request additional FTEs next year. In addition, the congressional budget justifications must identify the administrative costs for each new fixed guideway project included in the fiscal year 2009 request.

The amended bill includes $500,000 instead of $1,000,000 as proposed by the House to establish an interagency working group between FTA and the Department of Housing and Urban Development (HUD). The Appropriations Committees direct FTA and HUD to develop a best practices manual which will serve to assist communities as they seek to establish mixed-income transit-oriented development. FTA and HUD should also jointly report back to the House and Senate Committees on Appropriations within six months of enactment, on new ways FTA and HUD can better coordinate transportation and housing programs to promote affordable housing near transit.

The amended bill provides $16,391,000,000 for all tenant-based Section 8 (voucher) activities under the Tenant-Based Rental Assistance Account. The House proposed $16,330,000,000 and the Senate proposed $16,598,694,000 for these activities. Language is included designating funds provided as follows:

Family Self-Sufficiency Coordinators	49,000,000
Working Capital Fund	6,494,000
Total, Tenant Based Rental Assistance	16,391,000,000

Section 8 Voucher Renewals.—The amended bill includes $14,694,506,000, instead of $14,744,506,000 as proposed by the House and

$14,929,200,000, as proposed by the Senate. The amended bill provides that funding for renewals shall be distributed based on VMS data for the most recent Federal fiscal year. The amended bill also provides an exception to this funding formula for PHAs impacted by the 2005 hurricanes, those PHAs that went into receivership within the previous 24 months, and PHAs that overspent their fiscal year 2007 allocation. The House had not proposed to revise the allocation methodology from fiscal year 2007.

The amended bill provides that the amount of calendar year 2008 renewal funding for any agency shall be reduced by the amount of any unusable amount in such agency's net restricted assets account, in accordance with the most recent VMS data for calendar year 2007 that is verifiable and complete, which exceeds 7 percent of the amount of renewal funding allocated to the agency for the calendar year 2007 funding cycle.

The Appropriations Committees instruct the Department that the entire amount for renewals shall be administered through the HUDCAPS system and provided to PHAs in the same manner as in effect in FY06 and prior years. Further, PHAs shall be notified of their allocation within 60 days of enactment of this Act, unless the Secretary requests a waiver from the Committees.

The amended bill provides that $50,000,000 shall be available to adjust the allocations for PHAs that experienced a significant increase in renewal costs due to portability or for PHAs with a higher leasing rate at the end of the Federal fiscal year than the average for the entire year.

Tenant Protection.—The amended bill includes $200,000,000 for rental subsidies for tenant protection activities instead of $150,000,000 as proposed by the House and Senate. HUD is instructed to issue tenant protection vouchers for all units that were occupied within the previous 24 months. The amended bill does not include language proposed by the House concerning recaptures and carryover.

The amended bill does not include language proposed by the House regarding the costs of judgments and settlements.

Administrative Fees.—The amended bill includes $1,351,000,000 for public housing agencies' administrative costs and other expenses, as proposed by the House and Senate. Of these funds, $1,316,000,000 shall be administered as provided in section 8(q) of QHWRA, as proposed by the House and Senate. The amended bill does not include $5,000,000 for an incentive for PHAs to consolidate, as proposed by the House and the Senate.

Family Self Sufficiency Coordinators.—The amended bill includes $49,000,000 for public housing agencies family self-sufficiency coordinator staff, instead of $48,000,000 as proposed by the House and $50,000,000 as proposed by the Senate.

HUD-VASH Vouchers.—The amended bill includes $75,000,000 for incremental voucher assistance for use through a supported housing program administered in conjunction with the Department of Veterans Affairs, as proposed by the Senate. This funding will be made available to PHAs that partner with eligible VA Medical Centers and other entities based on geographic need for such assistance. The Appropriations Committees expect that these vouchers will be made available to all homeless veterans, including recently returning veterans. These vouchers shall remain available for homeless veterans upon turnover.

Nonelderly Disabled Vouchers.—The amended bill provides $30,000,000, as proposed by the House, for incremental assistance to nonelderly disabled families. These vouchers shall remain available, to the extent practicable, for nonelderly disabled persons upon turnover.

Family Unification Vouchers.—The amended bill provides $20,000,000, instead of $30,000,000 as proposed by the Senate, for incremental assistance through the Family Unification Program. These vouchers shall remain available, to the extent practicable, for family unification vouchers upon turnover.

Working Capital Fund.—The amended bill includes up to $6,494,000 that may be transferred to the Working Capital Fund as proposed by the House and Senate.

The Appropriations Committees instruct HUD not to disburse more than 70 percent of the fiscal year 2007 advance prior to halfway through the 2008 calendar year.

HOUSING CERTIFICATE FUND

(RESCISSION)

The amended bill includes a rescission of $1,250,000,000 from unobligated balances and recaptures from prior-year appropriations provided in the tenant-based rental assistance and the project-based rental assistance accounts or any other account within this title. This rescission is to be effected no later than September 30, 2008. The House proposed $1,300,000,000 and the Senate proposed $1,100,000,000.

PROJECT-BASED RENTAL ASSISTANCE

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $6,381,810,000 for project-based rental assistance activities instead of $6,479,810,000 as proposed by the House and $5,813,000,000 as proposed by the Senate. The amended bill provides funds as follows:

Project-Based Contract Renewals	$6,139,122,000

Total, Project-Based Rental Assistance	6,381,810,000

The explanatory statement includes language, as proposed by the House, designating not less than $238,728,000 but not to exceed $286,230,000 for performance-based contract administrators.

The Appropriations Committees note the Department's inability to identify actual funding needs for Project-Based Rental Assistance renewals. The Appropriations Committees also find that the Department has not been aggressive in reducing the impact that its decisions are having on the affordable housing community. In light of what appears to be a severe funding shortage, the Department has taken the drastic step of abandoning its practice of 12-month contracts and has been sending short-term renewal contracts that impact owners, landlords, financial institutions, and, most importantly, tenants of Project-Based housing.

A large part of the problem is that the administration has not determined if 12-month contracts can be conditioned on the availability of funds and can be funded incrementally. The Appropriations Committees instruct HUD and OMB to make a final determination about whether an Anti-Deficiency Act (ADA) violation would exist under those circumstances by January 15, 2008. If no violation would exist, then HUD is instructed to immediately begin issuing 12-month contracts subject to the availability of funds. If a violation would exist or has occurred, the administration must report that violation to the Committees immediately.

The amended bill does not include the report on a project-by-project analysis that verifies the funding request for renewals and amendments as part of the fiscal year 2009 budget justification, as proposed by the House, as this issue is addressed in the general provisions of this title, as proposed by the Senate.

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $2,438,964,000 for the Public Housing Capital Fund as proposed by the House, instead of $2,500,000,000 as proposed by the Senate. The amended bill includes $40,000,000 for the Resident Opportunity Self-Sufficiency (ROSS) program as proposed by the Senate instead of $38,000,000 as proposed by the House.

The amended bill provides that the Secretary shall provide performance bonuses in fiscal year 2008 for PHAs that are high performers.

The Committees on Appropriations instruct HUD to report quarterly to the House and Senate Committees on Appropriations on the status of all PHAs in receivership, the technical assistance provided to these agencies, and the demonstrated achievements of the agencies. This submission shall begin with the transmission of the FY09 budget justification.

The Appropriations Committees direct HUD to perform an updated Capital Needs Assessment (CNA) from funds made available under this account for the public housing portfolio, including the projected annual cost to adequately maintain that portfolio. To conduct the new CNA, HUD shall contract with a nationally recognized research entity with experience in conducting physical needs assessments of a representative sample of public housing or similar development projects. The review shall include a statistical sample for projects of 500 units or less and one-for-one review for projects in excess of 500 units. HUD shall award a contract for the study within 120 days after the enactment of this Act and shall report to the House and Senate Committees on Appropriations on the progress of the study by June 30, 2008. HUD shall submit a final report to the Committees by July 31, 2009, that includes national cost estimates and a comparison of those estimates with capital needs as of 1996, after adjusting for changes in the composition of the public housing stock resulting from HOPE VI funding and other actions. The report shall also discuss whether REAC physical inspection scores can support ongoing national estimates of public housing capital needs.

The amended bill provides $630,000,000 as proposed by the Senate instead of $626,965,000 as proposed by the House.

The amended bill provides that $2,000,000 shall be contracted as technical assistance and capacity building for a national organization representing Native American Housing interests for providing training and technical assistance to Indian Housing authorities and tribally designated housing entities as authorized by NAHASDA, as proposed by the Senate. The House addressed this issue in report language.

The amended bill requires that HUD distribute the needs portion of the formula distribution on the basis of either single race or multi race data whichever is the most advantageous to the grant recipient, as proposed by the House and the Senate.

The amended bill includes $1,980,000 for guaranteed loans to subsidize a total guaranteed loan principal of up to $17,000,000 as proposed by both the House and Senate and does not include a transfer to the Salaries and Expenses account, as proposed by the House.

The Appropriations Committees do not require the two studies proposed by the House on the funding formula for these grants and the housing needs of the Indian community.

NATIVE HAWAIIAN HOUSING BLOCK GRANT

The amended bill provides $9,000,000 for the Native Hawaiian Housing Block Grant, of which $300,000 shall be for training and technical assistance, as proposed by the Senate. The House proposed $8,727,000 and $299,211, respectively.

The Committees on Appropriations direct HUD to award these formula grants promptly in fiscal year 2008, as the Department has been slow to obligate these funds in previous years.

The amended bill provides $50,000,000 for housing counseling, instead of $48,340,000 as proposed by the House and $150,000,000 as proposed by the Senate.

In addition, $12,500,000 is reserved for technical assistance, instead of $9,900,000 as proposed by the House and $15,000,000 as proposed by the Senate. Of amounts made available for technical assistance, $8,500,000 is for qualified non-profit intermediaries to provide technical assistance to CDHOs and $4,000,000 is for intermediaries to provide technical assistance to HOME participating jurisdictions.

The amended bill includes $10,000,000 for the American Dream Downpayment Initiative, instead of $25,000,000 as proposed by the Senate. The House had no similar provision.

Instead, the amended bill provides funding in Title III of this Act through the Neighborhood Reinvestment Corporation for such activities. The Appropriations Committees do not instruct HUD on issuance of a NOFA, as proposed by the Senate.

SELF-HELP AND ASSISTED HOMEOWNERSHIP OPPORTUNITY PROGRAM

The amended bill provides $60,000,000 for this account, as opposed to $59,700,000 proposed by the House and $70,000,000 proposed by the Senate. Of the total, $26,500,000 is provided for the SHOP program as proposed by the Senate, instead of $27,710,000 as proposed by the House. Of the total, $33,500,000 is provided for the first four capacity building activities authorized under section 4(a), of which up to $5,000,000 may be made available for rural capacity building activities, as proposed by the Senate. The amended bill transfers $2,475,000 to the Working Capital Fund as proposed by both the House and the Senate.

The amended bill provides $25,000,000 for the Secretary to conduct a demonstration program on the effectiveness of rapid re-housing programs in reducing the number of homeless families as proposed by the Senate. The Appropriations Committees direct HUD to select a limited number of sites to receive funding for this demonstration program as a part of the Homeless Assistance Grants competition, and should consider the following criteria when selecting sites: proven experience in rapid re-housing, performance of the Continuum of Care, and geographic diversity. Selected programs should provide families with housing placement services, short-term housing assistance, including up to 18 months of rental assistance, and an array of appropriate services for families. The Appropriations Committees have also included language that allows the Secretary to use up to $1,250,000 to conduct an evaluation of the demonstration program. This evaluation should include, but is not limited to, a cost-benefit analysis, including both direct and indirect social benefits of rapid re-housing programs, as well as the success of such programs in keeping families in stable housing.

The amended bill modifies a provision of the Senate that requires HUD to submit the AHAR report by June 21, 2008, as opposed to March 21, 2008.

Further, the Committees on Appropriations note the broad statutory authority of the McKinney-Vento Homeless Assistance Act concerning the use of matching funds from any source other than the specific subtitle from which funds are awarded. The purpose of this broad statutory authority is to ensure the coordinated effort to address the needs of the homeless, which is central to the goal to end homelessness. Homeless housing programs within a community are most effective when a recipient can augment grant amounts with funds from any source, including Federal, State, local and private sources. Any funds, including Federal funds, are and have been eligible to be used as matching funds unless such funds are statutorily prohibited to be used as a match.

TITLE III—RELATED AGENCIES

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

SALARIES AND EXPENSES

The amended bill includes $6,150,000 for the Salaries and Expenses of the Architectural and Transportation Barriers Compliance Board as proposed by both the House and the Senate.

FEDERAL MARITIME COMMISSION

SALARIES AND EXPENSES

The amended bill includes $22,072,000 for the Salaries and Expenses of the Federal Maritime Commission as proposed by the House, instead of $22,322,000 as proposed by the Senate.

NATIONAL TRANSPORTATION SAFETY BOARD

SALARIES AND EXPENSES

The amended bill includes $84,499,000 instead of $85,000,000 as proposed by the House and $84,500,000 as proposed by the Senate. The Appropriations Committees direct that not less than $1,424,000 of the total appropriation shall fund 11 additional critical safety staff, and, consistent with the House language, prohibit these funds from being used for the Academy.

Within the funds provided, the Appropriations Committees direct a total of $74,063 to address the Board's most recent Anti-Deficiency Act violation that occurred from fiscal years 1998 through 2006 related to inappropriate purchase of death and dismemberment insurance for agency employees on official travel. The Appropriations Committees also include language allowing NTSB to continue to make lease payments for the NTSB Academy in fiscal year 2008 as proposed by the House and Senate.

NEIGHBORHOOD REINVESTMENT CORPORATION

PAYMENT TO THE NEIGHBORHOOD REINVESTMENT CORPORATION

The amended bill provides $299,800,000 for the Neighborhood Reinvestment Corporation instead of $119,800,000 as proposed by the House and Senate.

The amended bill includes $180,000,000 to be administered by the Neighborhood Reinvestment Corporation (NRC) to make grants to NRC- or HUD-approved counseling intermediaries (including State housing finance agencies) for mortgage foreclosure mitigation assistance of owner-occupied homes.

NRC is a Congressionally-chartered nonprofit corporation, and since 1978, NRC has been providing quality housing counseling. The Appropriations Committees note that NRC was one of the first organizations to begin responding to the subprime mortgage crisis by establishing its Center for Foreclosure Solutions. NRC will manage a competition for housing counseling organizations with demonstrated experience in this field, and will begin awarding grants within 60 days of enactment of this Act. The NRC can administer this competition rapidly and can thus facilitate help for homeowners almost immediately.

This $180,000,000 is one-time funding to be available until expended by the NRC in response to the ongoing lending and credit crisis. This crisis is fueled by more than 2 million mortgages that now face significant risk of default and foreclosure as the housing markets slow and adverse mortgage terms, such as adjustable rate mortgages, reset.

This program is designed to assist homeowners with subprime or other single-family mortgages that are likely to be in default and/or foreclosure. This is not designed as a bailout for either financial institutions or homeowners with mortgages that are likely to fail. Instead, the goal of the program is to provide counseling assistance that will prevent foreclosure and result in the long-term affordability of the mortgage or another positive outcome for the homeowner. No Federal funds are to be used to directly benefit financial institutions or homeowners.

The Appropriations Committees believe that the funding is needed, will be well-used, and will help stabilize the single-family mortgage marketplace. However, the amended bill notes that $180,000,000 is a rapid expansion of housing counseling assistance. As a result, the Appropriations Committees direct that $50,000,000 will be awarded within 60 days of enactment, which the Appropriations Committees expect will result in a rapid investment of these funds.

Finally, the amended bill directs the NRC to provide a bi-annual report to the House and Senate Committees on Appropriations as well as the House Financial Services Committee and the Senate Banking Committee. These reports will identify the use of funds in the program, models of success and an overall analysis of the program, its strategies for success and its evolution, among other things.

UNITED STATES INTERAGENCY COUNCIL ON HOMELESSNESS

OPERATING EXPENSES

The amended bill provides $2,150,000 instead of $2,000,000 as proposed by the House and $2,300,000 as proposed by the Senate. The amended bill extends the expiration date for the Council until September 30, 2008.

The Appropriations Committees direct the Council to report within 180 days of enactment to the House and Senate Committees on Appropriations on a comprehensive funding strategy to meet the agency's ten-year goal to end chronic homelessness. The report should specify how local and Federal agencies will contribute to the achievement of this goal.

The Appropriations Committees agree to a limit of $50,000 for travel by the Executive Director.

RECOGNIZING AND CELEBRATING THE CENTENNIAL OF OKLAHOMA STATEHOOD

Ms. NORTON. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 254) recognizing and celebrating the centennial of Oklahoma statehood.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 254

Whereas on November 16, 1907, Oklahoma officially became the 46th State of the Union;

Whereas prior to becoming a State, Oklahoma was designated as Indian Territory, providing a vibrant history and culture that continues to enrich the lives of its citizens;

Whereas the State of Oklahoma was shaped by those adventurous and daring individuals who embraced the spirit of this great Nation as they opened the frontier of the American West;

Whereas generations of proud people from all backgrounds have called Oklahoma their home and have contributed to its spirited history;

Whereas these hearty and resilient people have defined what has come to be known as the spirit of Oklahoma through their strength, character, and persistent strides toward a bright future;

Whereas the continued strength, initiative, and pursuit of excellence displayed by the citizens of the State of Oklahoma have produced its vibrant economy and secured it as a place of opportunity and progress now and for future generations;

Whereas the solid foundation of family and community embraced by the citizens of Oklahoma has been a constant guide and source of strength to those citizens throughout its history and will remain so long into its future;

Whereas the natural beauty and abundant resources of the State of Oklahoma support a quality of life for its citizens that is unsurpassed; and

Whereas on November 16, 2007, the State of Oklahoma will begin a new century of statehood: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress recognizes and celebrates the centennial of Oklahoma statehood and wishes its people another hundred years of continued growth, prosperity, and achievement.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, I am pleased to join my colleagues in consideration of H. Con. Res. 254, a resolution recognizing and celebrating the centennial anniversary of Oklahoma statehood.

H. Con. Res. 254 was introduced by Representative MARY FALLIN of Oklahoma on November 13, 2007, and reported from the Oversight Committee on December 12, 2007, by voice vote. This measure, which has been cosponsored by 55 Members, has the support of the entire Oklahoma delegation.

Friday, November 16, 2007, marked Oklahoma's centennial celebration. The Sooner State has played a significant role in the development and history of our Nation and will continue to be a cornerstone of the independent spirit that makes our country great.

Mr. Speaker, please join me in honoring Oklahoma's past achievements, current accomplishments, and the State's goodwill as it continues into the future. I urge swift passage of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. ISSA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H. Con. Res. 254, which recognizes and celebrates the 100th anniversary of Oklahoma statehood.

Mr. Speaker, Oklahoma is a State that takes energy production so seriously that it has oil wells on the grounds of the Governor's mansion. It is a State people were so anxious to move into that they jumped the gun in claiming homesteads and entered sooner. That is where the nickname comes from, the Sooner State.

Mr. Speaker, at a time in which energy independence is talked about but not achieved, in which States like our own, California, are major energy producers but less than half of the oil that it consumes, Oklahoma continues to aggressively find the resources that lie beneath it and to make it available for us.

Additionally, throughout its heartache, Oklahoma has given us Gene Autry. I won't skip over Brad Pitt. It has given us music. It has given us both country and a number of other great venues. But, most of all, it gave us J.C. Watts, the longest winning streak in history in college football, and they are proud of it. And, last but not least, it gave us Will Rogers.

So as we look at Oklahoma, a State that takes oil seriously, that in fact was rushed into because it was such a great place, I also join with my colleagues in supporting this resolution recognizing that, after 100 years, Oklahoma is still a meaningful and important part of this great Nation.

Mr. Speaker, I urge support of this resolution, and I yield back the balance of my time.

Ms. FALLIN. Mr. Speaker, this year, the State of Oklahoma celebrates its centennial anniversary. Today, I join the rest of the Oklahoma delegation in bringing a resolution to the floor that celebrates and honors our state's rich history. Most of all, we honor the people of Oklahoma, whose hard work, decency, perseverance, and pioneer spirit have written a truly unique chapter in America's history.

Oklahoma has always been defined by the adventurous nature of the men and women who settled there.

Prior even to becoming a State, Oklahoma was designated Indian Territory. Native Americans have been a huge part of Oklahoma history and have provided a vibrant culture and long list of traditions that continue to enrich the lives of our citizens.

In the late 19th century, American pioneers arrived in Oklahoma after a series of land runs held by the federal government. They came from every corner of the country looking for their piece of the American dream.

In 1907 we became a State, and it has been a century of both hardships and blessings. But no matter what challenges Oklahoma families face, and we have had our share, the men and women of this great State have always come out stronger.

Today, 100 years after achieving statehood, we have much to offer—a tremendous quality of life, a work ethic second to none, and a pioneer spirit that is just as much alive as it was a century ago.

During Oklahoma's relatively short life, our State has left a significant footprint on American culture. Will Rogers, Woody Guthrie, Ralph Ellison, Thom Stafford, and Jim Thorpe are just a few of the American icons who hail from Oklahoma. No other state has produced more astronauts. We have been on the forefront of energy production and agriculture. If you like country music, Oklahoma has produced the stars: Garth Brooks, Toby Keith, Reba McIntyre, Vince Gill, and Carrie Underwood, just to name a few of our talented musicians. And, oh yes, we've been known to play a little football too.

Of course, there are millions of others whose names will never appear in history books, and we honor them as well. It is those unsung heroes that remind me, as they should remind all of us, that compassion, hard work, and a spirit of adventure can bring both success and happiness. Truly, I can think of no greater honor than to represent them in the United States Congress.

Thank you, and may God bless Oklahoma.

Ms. NORTON. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 254.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. NORTON. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

LANCE CORPORAL DENNIS JAMES VEATER POST OFFICE

Ms. NORTON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3911) to designate the facility of the United States Postal Service located at 95 Church Street in Jessup, Pennsylvania, as the "Lance Corporal Dennis James Veater Post Office".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3911

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LANCE CORPORAL DENNIS JAMES VEATER POST OFFICE.

(a) DESIGNATION.—The facility of the United States Postal Service located at 95 Church Street in Jessup, Pennsylvania, shall be known and designated as the "Lance Corporal Dennis James Veater Post Office".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Lance Corporal Dennis James Veater Post Office".

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

I am pleased to join my colleagues in the consideration of H.R. 3911, a bill to designate the facility of the United States Postal Service located at 95 Church Street in Jessup, Pennsylvania, as the "Lance Corporal Dennis James Veater Post Office."

H.R. 3911 was introduced by Representative CARNEY of Pennsylvania on October 22, was reported from the Oversight Committee on December 12 by voice vote. This measure which has been cosponsored by 18 Members has the support of the entire Pennsylvania congressional delegation. Lance Corporal Veater was wounded in Anbar province, Iraq, and died of his wounds in Fallujah, Iraq. The mission was believed to be his last mission just 2 weeks before returning home.

Mr. Speaker, I urge swift passage of this bill.

I reserve the balance of my time.

Mr. ISSA. Mr. Speaker, I yield myself such time as I may consume.

I join with my colleague from the District of Columbia in supporting the naming of this post office after Lance Corporal Dennis Veater. He was a dedicated marine who enlisted in 2004 upon his high school graduation and entered the Marine Corps Reserve at age 17, following in the footsteps of his marine sergeant major father. Lance Corporal Veater wanted to serve his country, and he wanted to make a difference.

On March 9, 2007, just 2 weeks before his scheduled return to the United States, Lance Corporal Veater was mortally injured while conducting combat operations in Anbar province, Iraq.

He leaves behind his fiancee, whom he planned to marry upon his return, and his 14-month-old son, Dominick.

Lance Corporal Veater did not die in vain. Today Anbar province is safer because of the work he and the other marines did there. I join with my colleagues on the other side of the aisle in thinking it is very important to remember this man and the work he did for his family back home.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I am pleased to yield to the gentleman from Pennsylvania (Mr. CARNEY) such time as he may consume.

Mr. CARNEY. Mr. Speaker, I would like to thank the gentlewoman and appreciate the comments of our friends on the other side.

Dennis Veater is somebody we are very proud of from the 10th District, and I rise in support of my bill, H.R. 3911.

I would like to take a moment to talk about and honor Dennis Veater and those from Pennsylvania's 10th Congressional District. He was born in Quantico. He moved to Pennsylvania where he graduated from Abington Heights High School in 2004. At the age of 17 he enlisted in the Marine Corps Reserves. Dennis proudly followed in the footsteps of his father, a retired marine sergeant major.

Unfortunately, as we have already found out, 2 weeks before his scheduled return, he was mortally injured while conducting combat operations in the Anbar province, Iraq. He died of his wounds in Fallujah. Lance Corporal Veater died fighting for our freedom. He is truly a hero, and he represents what is best about Pennsylvania's 10th Congressional District.

It is my hope by naming the post office at 95 Church Street in Jessup, Pennsylvania, as the Lance Corporal Dennis Veater Post Office, future generations will remember what this brave young man did for them.

I urge all Members of Congress to honor this hero and vote in favor of this legislation.

Mr. ISSA. Mr. Speaker, I yield back the balance of my time.

Ms. NORTON. Mr. Speaker, I commend the gentleman from Pennsylvania for thinking to do something that we rarely see. We see post offices honoring Members of Congress, honoring judges, honoring very honorable people. But in my service on this committee, I have not seen a post office named for a young person who has died recently in battle. I do think it is an important way to indicate, particularly to the family, to what must surely be for many young men, many who knew him and looked forward to his returning in just 2 weeks from the time he died, that his memory will live not only with this Congress and in this resolution but also permanently with a United States Post Office in his honor.

We are pleased we were able to dedicate this resolution before the end of this Congress because this young man died just in March of 2007.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and pass the bill, H.R. 3911.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

PAUL E. GILLMOR POST OFFICE BUILDING

Ms. NORTON. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2174) to designate the facility of the United States Postal Service located at 175 South Monroe Street in Tiffin, Ohio, as the "Paul E. Gillmor Post Office Building".

The Clerk read the title of the Senate bill.

The text of the Senate bill is as follows:

S. 2174

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PAUL E. GILLMOR POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 175 South Monroe Street in Tiffin, Ohio, shall be known and designated as the "Paul E. Gillmor Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Paul E. Gillmor Post Office Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I join my colleagues in consideration of S. 2174, which designates the facility of the United States Postal Service located at 175 South Monroe Street in Tiffin, Ohio, as the "Paul E. Gillmor Post Office Building."

S. 2174 was introduced by Senator VOINOVICH of Ohio on October 17, 2007, and reported by voice vote on December 12, 2007. Congressman Gillmor was serving his 10th term in the United States House of Representatives representing the Fifth Congressional District in Ohio until his untimely death in September 2007.

I know that the entire House grieved and was shocked to learn that Representative Gillmor died right here at his home, the place where he prepared to come to this very House. He is very much missed on both sides of the aisle. This is a very appropriate way to remember this long-time Member of the House of Representatives.

Mr. Speaker, I commend Senator VOINOVICH for seeking to honor the legacy of our late colleague and offer condolences to the family of Representative Gillmor and his colleagues in the Ohio congressional delegation and those in his district. I urge swift passage of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. ISSA. Mr. Speaker, I yield for such time as he may consume to the gentleman who now seeks to fill the shoes left by the passing of our colleague and friend, Mr. Gillmor, Mr. BOB LATTA.

Mr. LATTA. Mr. Speaker, I rise in support of S. 2174 sponsored by Senators VOINOVICH and BROWN to name the United States Post Office in Tiffin, Ohio, after Paul E. Gillmor.

I first met the Congressman when he began his public service career over 40 years ago. Congressman Gillmor admirably served as a State senator, as president of the Ohio senate, and also of course as a United States Congressman since 1989. Congressman Gillmor cared for the people of his district and was dedicated to serving them.

I was taught by my father who served in this Chamber for 30 years that a true public servant is an individual who sees how much they can give of themselves to the people they represent, and I truly believe that Paul did exactly that. I think it is a fitting tribute to name a United States Post Office in Tiffin, Ohio, in his honor.

He unselfishly gave of his time and energy to serve the citizens not only of the Second Senate District but also the Fifth Congressional District for over 40 years.

It is truly an honor for me to follow the Congressman who served in this seat. I ask that this body approve the naming of this post office in the name of Congressman Gillmor.

Ms. NORTON. Mr. Speaker, I express once again the condolences of every Member of this House, and for that matter the commendation to our colleague for offering this commemoration to our colleague.

Mr. Speaker, I yield back the balance of my time.

Mr. ISSA. Mr. Speaker, I join with my colleague in urging support for this bill. I traveled extensively with Paul Gillmor. He was a close friend of Henry Hyde and loved to be an advocate for a better understanding not just of the State of Ohio, but of our Nation abroad. It is very befitting that we do this and do it in a timely fashion. I move support for the bill.

Mr. Speaker, I rise today to urge passage of S. 2174, to designate the U.S. Post Office at 175 South Monroe Street in Tiffin, Ohio, as the "Paul E. Gillmor Post Office Building."

Mr. Speaker, I doubt I've ever had an easier sell when it comes to convincing my colleagues to support legislation.

As was noted repeatedly on this floor when Paul died on Sept. 5 at his home in Arlington, he was a man we all liked, even those of us on the other side of the political aisle.

A small-town banker, a businessman, a Vietnam War vet, a former Judge Advocate General, a husband and father of 5, he was known to all of us as a man who worked hard for and cared deeply about his constituents, who spent most of his life in service to his country and who, just 12 days before his death, was touring flood-ravaged areas of his beloved Ohio and trying to see how he could help.

He was a moderate, an effective legislator and, most importantly and most memorably, a gentleman with all the best that word represents.

I urge my colleagues to bestow this one last honor on our friend from the Buckeye State.

Mr. HOBSON. Mr. Speaker, I rise today to pay tribute to a dear friend and former colleague, Congressman Paul Gillmor, by supporting the designation of the U.S. Postal Service Office located at 175 South Monroe Street in Tiffin, Ohio, as the "Paul E. Gillmor Post Office Building".

While we all miss our friend, this designation will serve to honor him for his distinguished career in public service in both the U.S. House of Representatives and the Ohio Senate, and for living his life as a true gentleman.

The reference to being a "true gentleman" is something that will have a special meaning to members of the Sigma Alpha Epsilon fraternity, and it's something that I would like to enter into the CONGRESSIONAL RECORD as a tribute to Paul Gillmor.

Paul and I were both members of the SAE's during our time at Ohio Wesleyan University, and our fraternity has a motto that describes what it takes to be a true gentleman. I think this passage by John Walter Wayland describes Paul Gillmor and how he lived his life. It reads as follows:

"The True Gentleman is the man whose conduct proceeds from good will and an acute sense of propriety, and whose self-control is equal to all emergencies; who does not make the poor man conscious of his poverty, the obscure man of his obscurity, or any man of his inferiority or deformity; who is himself humbled if necessity compels him to humble another; who does not flatter wealth, cringe before power, or boast of his own possessions or achievements; who speaks with frankness but always with sincerity and sympathy; whose deed follows his word; who thinks of the rights and feelings of others, rather than his own; and who appears well in any company, a man with whom honor is sacred and virtue safe."

Mr. Speaker, I think that my colleagues would agree that Paul Gillmor lived the life of a true gentleman as a father, a husband, a friend and a public servant.

With that said, I appreciate today's effort to move this well-deserved legislation forward, and I urge everyone to honor and remember our friend and colleague, Paul Gillmor.

Mr. ISSA. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and pass the Senate bill, S. 2174.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

CONGRATULATING THE COLORADO ROCKIES ON WINNING THE NATIONAL LEAGUE CHAMPIONSHIP

Ms. NORTON. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 816) congratulating the Colorado Rockies on winning the National League Championship and playing in the 2007 World Series, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 816

Whereas on October 15, 2007, the Colorado Rockies completed a remarkable 21 out of 22 game-winning streak, with a 4-game sweep of the Arizona Diamondbacks, and won the 2007 National League Championship series;

Whereas the Colorado Rockies then played in the franchise's first World Series against the Boston Red Sox;

Whereas the Colorado Rockies demonstrated remarkable team unity, as well as individual initiative and personal determination, and serve as a prime example of good sportsmanship;

Whereas the Colorado Rockies fans demonstrated their passion for their team, their love of baseball, and their character as some of the world's greatest baseball enthusiasts; and

Whereas the city of Denver and the State of Colorado exhibited their ability to host a fantastic Major League Baseball post-season: Now, therefore, be it

Resolved, That the House of Representatives—

(1) congratulates—

(A) the Colorado Rockies on winning the 2007 National League Championship;

(B) the players, manager, coaches, support staff, ownership, and executives whose commitment to the game made all this possible; and

(C) the Boston Red Sox for their extraordinary success in winning the 2007 World Series; and

(2) directs the Enrolling Clerk of the House of Representatives to transmit an enrolled copy of this resolution to—

(A) the 2007 Colorado Rockies and Boston Red Sox baseball teams;

(B) Colorado Rockies manager Clint Hurdle; and

(C) Colorado Baseball Partnership's chief executive officer and chairman Charlie Monfort.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

I am pleased to join my colleagues in consideration of H. Res. 816, as amended, congratulating the Colorado Rockies on winning the National League Championship.

H. Res. 816 was introduced by the gentleman from Colorado (Mr. UDALL) on November 9, 2007, and reported from the Oversight Committee on December 12, 2007, as amended, by voice vote.

This measure has been cosponsored by 54 Members. The Colorado Rockies defied the odds this year, winning the 2007 National League Championship and capturing the best hopes of Coloradans, and giving us all a reason to cheer for their success.

□ 1315

Mr. Speaker, I commend my colleague for the recognition the Rockies' victory affords and urge swift passage of this bill.

Mr. ISSA. Mr. Speaker, I rise in support of this bill. I yield myself such time as I may consume.

Mr. Speaker, I rise today to urge passage of H. Res. 816, congratulating the Colorado Rockies for winning the National League Championship and participating in the World Series.

Mr. Speaker, to go to the World Series is to be special. To win it is a 50-50 chance. So I think it is appropriate when we look at a team that had won 21 of 22 games, defeating the Philadelphia Phillies in the Division Series and the Arizona Diamondbacks for the National League Championship to claim their spot in the World Series that, in fact, we in Congress take a few moments before our colleagues, many of them arriving back from their districts, to add this to what we will celebrate for America tonight, because nothing is greater to celebrate for America than its pastime of baseball, particularly at a time when we are cleaning up baseball.

So with that, there's no asterisk behind this resolution, and I urge its support.

I yield back the balance of my time.

Mr. UDALL of Colorado. Mr. Speaker, I rise today in support of this resolution congratulating the Colorado Rockies on their National League Championship and first-ever franchise appearance in the World Series.

The entire Colorado delegation joined me in introducing the resolution, and it is now cosponsored by more than 50 other Members of Congress. I greatly appreciate their support.

The Rockies defied the odds this year by making it to the World Series, capturing the best hopes of Coloradans and giving us all a reason to cheer for their success. Despite a tough loss to a great team in the Boston Red Sox, we remain proud of the Rockies' efforts and astonished at their historic rise to the top of the National League.

Toward the close of the season, the Rockies were the underdogs in the National League pennant race. The challenge of making the playoffs seemed as large and daunting as the mountain range for which the Rockies were named, but the team maintained an optimism and competitive spirit that kept them alive long after commentators had written them off. Winning 21 of their last 22 games prior to the World Series—an unprecedented feat in baseball history—the Rockies rolled over expectations and swept the Arizona Diamondbacks in the NLCS.

The World Series proved to be a bigger challenge than the Rockies could surmount, and they lost in four games to a very talented Red Sox team. Despite the losses, the Rockies carried themselves with dignity and true sportsmanship, giving Coloradans something to be proud of.

As the father of two young athletes I can say that the way the Rockies carried themselves is a tremendous example for our young people. We would have loved to have seen the Rockies bring home a victory this year, but, as Red Sox outfielder Manny Ramirez said during the ALCS, there's always next year. I know I am not alone in looking forward to watching some great Rockies baseball in the future.

I urge all our colleagues to join me in congratulating the Colorado Rockies on a great season and in thanking them for serving as great examples of professional athletes practicing sportsmanship.

Ms. NORTON. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and agree to the resolution, H. Res. 816, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The title was amended so as to read: A Resolution congratulating the Colorado Rockies on winning the National League Championship.".

A motion to reconsider was laid on the table.

DAN MILLER POST OFFICE BUILDING

Ms. NORTON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4342) to designate the facility of the United States Postal Service located at 824 Manatee Avenue West in Bradenton, Florida, as the "Dan Miller Post Office Building".

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, I am pleased to join my colleagues in consideration of H.R. 4342, designating the facility of the United States Postal Service located at 824 Manatee Avenue West in Bradenton, Florida, as the Dan Miller Post Office Building.

H.R. 4342 was introduced by Representative BUCHANAN of Florida on December 10, 2007, was reported from the Oversight Committee on December 12, 2007, by voice vote. This measure has been cosponsored by the entire Florida delegation.

Representative Dan Miller represented Florida's 13th District in this House from 1992 to 2002. Currently he is teaching at the University of South Florida and is developing the Manasota Institute of Public Policy and Leadership at the Sarasota Campus of the University of South Florida.

Former Representative Miller's efforts in Congress as well as in academia have been greatly appreciated, and I urge swift passage of this bill.

I reserve the balance of my time, Mr. Speaker.

Mr. ISSA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I served with Congressman Dan Miller. He, unlike most Members of Congress, came here, said he would stay for a period of time, as the Founding Fathers thought, and return to his life at home.

He was elected from the 13th District of Florida in 1992, and after 10 years, five terms, retired in 2003. He did so not to seek higher office, not for any reason except that he felt that he came here for a period of time, served for the time he'd promised, and went back. He has, in fact, returned to his life and appropriately has resettled in southwest Florida at the University of South Florida.

I look forward to seeing him up here again some day. I look forward to his continued process of participating here in helping those of us in Congress.

It is unusual for a Member of Congress to come, stay for a period of time, and not return to lobbying, not seek higher office, but in fact to go back to being the citizen that he can be and to give to his community and to be available should we need him.

Mr. Speaker, I join with my colleagues and the Government Reform Committee that unanimously voted this out in urging the passage of the Dan Miller Post Office.

Mr. MICA. Mr. Speaker, it is with great pleasure that I join in recognizing the distinguished career of one of my former colleagues, the Honorable Dan Miller of Bradenton, FL. My friendship with Dan actually dates back more than four decades to 1962, when we were best friends and members of the Delta Chi fraternity at the University of Florida. Throughout my time in college, our post-college years and finally our years serving in the House of Representatives together from the great State of Florida, I have always cherished his friendship, admired his public service and enjoyed knowing his wife Glenda and their wonderful family.

Dan Miller will always be remembered in these Halls for his congenial nature, his leadership on a host of issues, and his commitment to fiscal restraint. When he ran for Congress, he was a staunch advocate of shrinking the size and scope of the Federal Government and reducing the impact of onerous Federal regulation in the lives of average Americans. He remained true to his convictions throughout his 10 years in this institution and would be proud to know that he will be remembered that way. He served as a Member of Congress with an appreciation for the history around him and a passion for the job and the goals he came to Washington to achieve that we would all be well-served to emulate. I know that I join family friends and colleagues in supporting this well-deserved recognition by Congress.

Mr. BUCHANAN. Mr. Speaker, I rise today in support of renaming the Bradenton Main Post Office at 824 Manatee Avenue West as the "Dan Miller Post Office Building" in honor of former Congressman Dan Miller.

I can think of no better way to honor the public service of this former Florida Congressman than to designate the Bradenton Main Post Office in his name.

Dan Miller is a successful Bradenton businessman, educator, and community leader who represented Florida's 13th District in Congress from 1992 to 2003, when he retired from the House.

He is a principled and effective leader who was consistently recognized as one of the top fiscal conservatives in Congress.

Congressman Miller helped balance the Federal budget for the first time in 30 years by using Federal resources wisely—cutting waste, fraud, and abuse while supporting important programs like the National Institutes of Health, where Dan led the effort to double NIH funding.

Dan managed the congressional oversight of the 2000 U.S. Census, the most successful census to date despite many efforts to politicize the process.

Congressman Dan Miller is a statesman who commanded bipartisan respect and befriended lawmakers on both sides of the aisle.

He is a man of integrity who kept his word to term-limit himself and serve only five terms in Congress.

Congressman, successful businessman, respected educator—I am honored to call Dan Miller a friend and advisor.

I am also proud to hold the seat he once held and pleased to pay tribute to him by sponsoring this legislation.

I urge all of my colleagues to support H.R. 4342 in honor of former Congressman Dan Miller.

Mr. ISSA. I yield back the balance of my time.

Ms. NORTON. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and pass the bill, H.R. 4342.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

DOCK M. BROWN POST OFFICE BUILDING

Ms. NORTON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4210) to designate the facility of the United States Postal Service located at 401 Washington Avenue in Weldon, North Carolina, as the "Dock M. Brown Post Office Building".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 4210

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DOCK M. BROWN POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 401 Washington Avenue in Weldon, North Carolina, shall be known and designated as the "Dock M. Brown Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Dock M. Brown Post Office Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, I'm pleased to rise in support of H.R. 4210, a bill designating the facility of the United States Post Office located at 401 Washington Avenue in Weldon, North Carolina, as the Dock M. Brown Post Office Building.

H.R. 4210, which was introduced by Representative G.K. BUTTERFIELD of North Carolina on November 15, 2007, was reported from the Oversight Committee on December 12. This measure has been cosponsored by 12 Members and has the support of the entire North Carolina congressional delegation.

Dock Brown was a dutiful and loyal public servant to the City of Weldon, North Carolina. He was a teacher and served as principal for more than 30 years in the school system. In addition to his dedication to strengthening academia, Dock Brown also served 8 years as a Halifax County Commissioner, 2 years in the North Carolina House of Representatives for District Seven, 8 years as Commissioner on the Weldon town board, and served also on the State Agriculture Committee. The City of Weldon is greatly touched by his good work, his dedication and his efforts to strengthen their community.

Mr. Speaker, I urge swift passage of this bill.

I reserve the balance of my time.

Mr. ISSA. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of the naming of this post office the Dock M. Brown Post Office Building. Dock Brown was a dedicated public servant, a member of the community, and a shining example as a local leader.

A veteran of the Korean war, Mr. BROWN served his community as an educator and a politician. During a more than 30-year tenure as a teacher and principal at Halifax County, North Carolina, he also served on the community health board, chaired the county election board and served 19 years on the mental health board. Truly, this was a community leader and appropriate for naming of a post office in his hometown.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield such time as he may consume to the gentleman from North Carolina (Mr. BUTTERFIELD).

Mr. BUTTERFIELD. Mr. Speaker, I want to thank the gentlelady from the District of Columbia for her friendship and thank her for yielding me this time.

Mr. Speaker, I want to very briefly comment on H.R. 4210. This is a bill that I introduced to name the post office located at 401 Washington Avenue in Weldon, North Carolina, after a very dear friend of many, many years, Mr. Dock M. Brown.

We are seeking to name this post office as the Dock M. Brown Post Office Building. Dock Brown, Mr. Speaker, has been a friend and supporter for many years. He is a pillar of leadership in the Halifax County community and throughout our congressional district. And I might say parenthetically, Mr. Speaker, that the gentlewoman from the District of Columbia also has roots in Halifax County, North Carolina, and it is just ironic that she happens to be on the floor at this very moment.

Mr. Speaker, Dock Brown was born on January 30, 1929, in Halifax County to a wonderful couple, Nelson and Vilvie Brown. Dock Brown's father, as was my father, was a veteran of World War I. Dock would soon follow in his father's footsteps by also serving our country as a sergeant in the United States Army.

Mr. Brown graduated from J.A. Chaloner High School in 1948 and entered historic Shaw University in Raleigh, North Carolina, that fall. In 1951, just 1 year before he was to graduate from that institution, Dock Brown was drafted into the United States Army and was given orders to fight in the Korean War.

Dock Brown served 12 long months in Korea before returning to Fort Bragg, North Carolina, his native home State, to serve out the remainder of his tour. Immediately after his discharge, Dock Brown resumed his education at Shaw University, where he received his undergraduate degree in history.

To fulfill his dream of becoming a school teacher, Dock attended another great institution, which was my alma mater, North Carolina Central University in Durham, North Carolina, where he received a master's degree in sociology and school administration.

Dock Brown is an extraordinary educator. He taught history at Weldon High School and Eastman High School for 24 years and served as principal of Pittman High School for 10 years. His positive impact on the youth in Halifax County cannot be measured. He touched so many young lives, and it was Dock Brown's encouragement that has served as a catalyst and foundation that propelled many of those young people to grow into well-established, productive, progressive citizens.

Dock Brown also served as an appointed official in Halifax County. He served on the County Board of Health. And for 19 years he served on the Board of Mental Health, where he served as chairman for the last 4 years of his tenure. He was honored with the Lifetime Achievement Award from the State Mental Health Association for his tireless dedication to the issue of mental health.

He served 7 years as a trustee at Elizabeth City State University and 2 years as an appointee to the Governor's Commission to evaluate superior court judges.

Mr. Speaker, Dock Brown has also served, as we do, as an elected official. For 8 years he served as a county commissioner in Halifax County; 2 years in the North Carolina House of Representatives, representing District 7; 8 years as a commissioner on the Weldon Town Board.

For his untiring service to the State of North Carolina, Dock Brown was awarded the Order of the Long Leaf Pine by then Governor James B. Hunt, Jr. This is the highest civilian honor granted to a citizen in North Carolina.

Religion has played a major part in the life of Dock Brown. He has been an active member of the First Baptist Church in Roanoke Rapids since the age of 11, where he served in many capacities including that of ordained deacon for more than 50 years.

He has been married to his devoted wife, Helen Brooks Brown, for 54 years. Together they have reared two children: Dock Brown, Jr. and Ivy Brown Singlton. Ivy is married to Lieutenant Colonel Terance Singlton, II, who proudly serves us in the United States Army.

I am so proud, Mr. Speaker, to have authored this legislation to honor this individual. Dock Brown has dedicated his entire life to serving others and has touched entire generations of young people.

This legislation has the entire support, bipartisan support, of my delegation. I urge my colleagues to vote "yes" on H.R. 4210.

Mr. ISSA. Mr. Speaker, I yield back the balance of my time.

Ms. NORTON. Mr. Speaker, I yield the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and pass the bill, H.R. 4210.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

FEDERAL FOOD DONATION ACT OF 2007

Ms. NORTON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4220) to encourage the donation of excess food to nonprofit organizations that provide assistance to food-insecure people in the United States in contracts entered into by executive agencies for the provision, service, or sale of food, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 4220

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Food Donation Act of 2007".

SEC. 2. PURPOSE.

The purpose of this Act is to encourage executive agencies and their contractors, whenever practical and safe, to donate excess, apparently wholesome food to feed food-insecure people in the United States.

SEC. 3. PROMOTING FEDERAL FOOD DONATION.

Not later than 180 days after the date of the enactment of this Act, the Federal Acquisition Regulation shall be revised to provide that each contract in an amount greater than $25,000 for the provision, service, or sale of food, or for the lease or rental of Federal property to a private entity for events at which food is provided, shall include a clause that—

(1) encourages the donation of excess, apparently wholesome food to nonprofit organizations that provide assistance to food-insecure people in the United States;

(2) provides that the head of an executive agency shall not assume responsibility for the costs and logistics of collecting, transporting, maintaining the safety of, or distributing such excess, apparently wholesome food to food-insecure people in the United States; and

(3) states that executive agencies and contractors making donations pursuant to this Act are protected from civil or criminal liability under the Bill Emerson Good Samaritan Food Donation Act (42 U.S.C. 1791).

SEC. 4. DEFINITIONS.

In this Act:

(1) EXCESS.—The term "excess", when applied to food, means food that is not required to meet the needs of executive agencies and would otherwise be discarded.

(2) APPARENTLY WHOLESOME FOOD.—The term "apparently wholesome food" has the meaning provided in section 2(b)(2) of the Bill Emerson Good Samaritan Food Donation Act (42 U.S.C. 1791(b)(2)).

(3) NONPROFIT ORGANIZATION.—The term "nonprofit organization" means any organization that is described in section 501(c) of the Internal Revenue Code of 1986 and is exempt from tax under section 501(a) of such Code.

(4) FOOD INSECURE.—The term "food insecure" means inconsistent access to sufficient, safe, and nutritious food.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

Ms. NORTON. Mr. Speaker, H.R. 4220, the Federal Food Donation Act, as amended, is a modest measure designed to help address the very large problem of hunger in America. In 2005, 25 million people in this country, including 9 million children, had to rely on soup kitchens and other charitable food programs to help meet their nutritional needs.

Introduced by Representative JO ANN EMERSON, H.R. 4220 requires Federal agencies to include in their food service and space rental contracts a provision that would encourage contractors to donate any surplus food to nonprofit organizations that provide assistance to the hungry. This bill builds on the work of some innovative nonprofit organizations that have been conducting similar programs in the private sector.

The bill also includes provisions that will ensure that costs of collecting, transporting and storing donated food would not be borne by the Federal Government and that executive agencies and contractors would be protected from civil or criminal liability.

I urge my colleagues to support this bill. Together we can feed America in this rich country.

Mr. Speaker, I reserve the balance of my time.

Mr. ISSA. Mr. Speaker, I would like to yield such time as she may consume to the gentlelady, Mrs. EMERSON, who, in her own right, is recognized as a leader in service to the hungry and unfortunate.

Mrs. EMERSON. Mr. Speaker, with 35 million individuals, including 12 million children, either experiencing hunger or teetering right on the verge of hunger each year, the American people expect us to take every reasonable action possible to address this crisis.

The American people are generous with their time and with their resources. And particularly, during the Christmas season, they're willing to make the extra effort to donate their time at a soup kitchen or provide groceries to a food pantry. Unfortunately, the need for these donations is real and it's growing.

The Federal Food Donation Act is one small way the Federal Government can mirror the everyday lives of the constituents we serve. This legislation would require executive agencies who serve food on their premises to encourage the donation of excess food to nonprofit organizations. Such food rescue efforts can be particularly useful to the more than 43,000 soup kitchens and food pantries on the front lines battling hunger. Our constituents are willing to search through their pantries to donate excess food, and so should we.

Mr. Speaker, I'd like to thank Chairman WAXMAN and Ranking Member DAVIS for their efforts on behalf of the hungry. The changes to this legislation made during committee markup are an improvement that will enhance the scope and impact this legislation will have.

I'd also like to thank their dedicated staff for their time and counsel in drafting this legislation.

I'd also like to particularly thank the dedicated individuals at Rock It and Wrap It Up for their efforts in conceiving and promoting this concept. This nonprofit organization has specialized in food recovery and has been thinking outside the box in the battle against hunger for years.

Mr. Speaker, the effects of rising food prices have already been felt by our partners who serve the hungry. We learned today from the U.S. Conference of Mayors that their constituents are seeking emergency food aid more frequently and more homeless families are seeking shelter. More resources are clearly needed.

The Federal Food Donation Act may be a small step in the overall battle against hunger, but it is one worth taking.

I urge a "yes" vote on H.R. 4220.

Ms. NORTON. Mr. Speaker, I am pleased to yield 5 minutes to Mr. MCGOVERN, the gentleman from Massachusetts, who led us earlier on this very issue and succeeded in getting increases in food stamps this very year.

□ 1330

Mr. MCGOVERN. Mr. Speaker, I thank my colleague from the District of Columbia for yielding me the time and for her support for this bill and for so many other important issues.

Mr. Speaker, I rise in support of H.R. 4220, the Federal Food Donation Act of 2007.

Let me begin by commending the sponsor of this legislation, Congresswoman JO ANN EMERSON. Congresswoman EMERSON is a true champion for the hungry in this country. She's a friend who doesn't just talk about hunger, but is a leader in the effort to fight to end hunger in this country.

It's not an easy effort, and I know that she has to work to convince people around this country and in this very building that there are people who still go without food in this great Nation of ours. She's a shining example of someone who puts partisanship aside and works towards a goal that should be achievable.

So I want to thank Congresswoman EMERSON for her steadfast leadership on this issue and for introducing this important legislation.

I also want to thank Chairman WAXMAN and Ranking Member DAVIS and the other members of the Oversight and Government Reform Committee for their quick and thorough work on this bill.

Mr. Speaker, hunger is getting worse in America. More than 35.5 million people went hungry in the United States in 2006, an increase of more than 300,000 from 2005. There are many in Congress who talk about the booming economy and economic growth, but it is clear that millions of Americans are not benefiting from this so-called economic expansion.

The costs of living in America are rising. Energy costs are increasing, food prices continue to go up, and the housing crisis is straining the budgets of middle- and lower-income families. The reality is that many Americans are walking a fiscal tightrope where any economic change or family crisis, like an unexpected illness or job loss, could force people to go without food for a period of time.

That we are even talking about any person going hungry in the richest and most prosperous Nation in the world is an embarrassment, and we should all be ashamed for not doing more to combat hunger here at home.

H.R. 4220 is a good step in the fight against hunger. Unfortunately, it's not going to end hunger in America, but it will provide one more way to fight hunger.

As has already been described, the Federal Food Donation Act would require executive agencies who serve food on their premises to encourage the donation of excess food to nonprofit organizations. Such food rescue efforts can be particularly useful to the more than 43,000 soup kitchens and food pantries on the front lines battling hunger. The Oversight and Government Reform Committee broadened the scope of this bill, and I'm especially pleased the bill was expanded to include the Department of Defense.

The reality is that food costs are increasing; and America's food banks, the safety net of our anti-hunger system, is straining to meet this need. According to a new report released today by the U.S. Conference of Mayors, requests for food increased an average of 12 percent over the last year. Yet at the same time, a recent Washington Post article reports that the Capital Area Food Bank, the emergency food system for Washington, DC, had only 230,000 pounds of food on its shelves, down from 570,000 pounds at this time last year. Nationwide, food donations to food banks are expected to fall short of the need by 15 million pounds.

Mr. Speaker, we need to do more to address and ultimately end hunger in America. The Federal safety net developed over the years, the Food Stamp program, Meals on Wheels, school meals and the emergency food system, is working but it is strained. Private organizations like Catholic Charities and the Nation's food banks, just to name two examples, are filling the gaps where they can. It is time we commit to ending hunger once and for all. It's time that we dedicate the resources of our great Nation to ending this scourge. The Federal Food Donation Act is a good first step, and I'm pleased that the House is acting on it today.

Mr. Speaker, I insert into the RECORD at this point two articles documenting the shortage of food for the hungry in this country and one article announcing the U.S. Conference of Mayors report on hunger and homelessness.

BLESSED IS THE FULL PLATE

(By Anna Quindlen)

One of the most majestic dining rooms in New York City is in the Church of the Holy Apostles. After the landmark building was nearly destroyed by fire in 1990, the Episcopal parish made the decision not to replace the pews so that the nave could become a place of various uses. There are traditional Sunday services, of course, and the gay and lesbian synagogue on Friday evenings. And every weekday more than a thousand people eat lunch at round tables beneath 12-foot stained-glass windows and a priceless Dutch pipe organ.

"You can't get more Biblical than feeding the hungry:' says the Rev. William Greenlaw, the rector.

Holy Apostles has fed the hungry for 25 years now without missing a single weekday, including the morning after the fire, when the church lay in ruins, still smoldering, and 943 meals were served by candlelight. There's a queue on Ninth Avenue by midmorning; sometimes tourists think there's a wait for some exclusive New York happening until they notice the shabby clothes, piles of shopping bags and unshaven faces that are the small unmistakable markers of poverty.

The poor could be forgiven for feeling somewhat poorer nowadays. The share of the nation's income going to the top 1 percent of its citizens is at its highest level since 1928, just before the big boom went bust. But poverty is not a subject that's been discussed much by the current administration, who were wild to bring freedom to the Iraqis but not bread to the South Bronx. "Hunger is hard for us as a nation to admit," says Clyde Kuemmerle, who oversees the volunteers at Holy Apostles. "That makes it hard to talk about and impossible to run on."

At Holy Apostles the issue is measured in mouthfuls. Pasta, collard greens, bread, cling peaches. But in this anniversary year the storage shelves are less full, the pipeline less predictable. The worst emergency food shortage in years is plaguing charities from Maine to California, even while the number of those who need help grows. The director of City Harvest in New York, Jilly Stephens, has told her staff they have to find another million pounds of food over the next few months to make up the shortfall. "Half as many pantry bags" is the mantra heard now that the city receives half the amount of emergency food than it once did from the Feds. In Los Angeles 24 million pounds of food in 2002 became 15 million in 2006; in Oregon 13 million pounds dwindled to six. It's a cockamamie new math that denies the reality of hunger amid affluence.

There are many reasons why. An agriculture bill that would have increased aid and the food-stamp allotment has been knocking around Congress, where no one ever goes hungry. Donations from a federal program that buys excess crops from farmers and gives them to food banks has shrunk alarmingly. Even the environment and corporate efficiency have contributed to empty pantries: more farmers are producing corn for ethanol, and more companies have conquered quality control, cutting down on those irregular cans and battered boxes that once went to the needy.

What hasn't shrunk is the size of the human stomach. At lunchtime at Holy Apostles, Ernest is hungry, his hand bandaged because he got in a fight, even though he is sober now and has his own place in the Bronx. Janice is hungry, too, she of the beautiful manners and carefully knotted headscarf, who sleeps on the train on winter nights and walks with a cane since being hit by a car. There are the two veterans, both Marines, with the raddled faces and slightly unfocused eyes of those who sleep outdoors, which means mostly always being half-awake, and that group of Chinese women who don't speak English, and the Muslim couple who sit alone. Mostly it's single men at Holy Apostles. Some are mentally ill, and some are addicts, and to repair their lives would take a lot of help. But at the moment they have an immediate problem with an immediate answer: pasta, collard greens, bread, cling peaches.

This place is a blessing, and an outrage. "We call these people our guests," says the rector. "They are the children of God." That's real God talk. The political arena has been lousy with the talk-show variety in recent years: worrying about whether children could pray in school instead of whether they'd eaten before they got there, obsessing about the beginning of life instead of the end of poverty, concerned with private behavior instead of public generosity.

There's a miracle in which an enormous crowd comes to hear Jesus and he feeds them all by turning a bit of bread and fish into enough to serve the multitudes. The truth is that America is so rich that political leaders could actually produce some variant of that miracle if they had the will. And, I suppose, if they thought there were votes in it. Enough with the pious sanctimony about gay marriage and abortion. If elected officials want to bring God talk into public life, let it be the bedrock stuff, about charity and mercy and the least of our brethren. Instead of the performance art of the presidential debate, the candidates should come to Holy Apostles and do what good people, people of faith, do there every day—feed the hungry, comfort the weary, soothe the afflicted. And wipe down the tables after each seating. Here's a prayer for every politician: pasta, collard greens, bread, cling peaches. Amen.

CUPBOARDS ARE BARE AT FOOD BANKS

(By Philip Rucker)

Area food banks are experiencing a critical shortage of supplies as donations drop dramatically and as demand for free and discounted food continues to soar.

The Capital Area Food Bank, the region's primary distribution center, reported that it had about 230,000 pounds of goods on its shelves this week, down from 570,000 pounds at this time last year, officials said.

The short supplies, which are hitting food banks and soup kitchens across the nation, stem from a combination of factors: Federal supplies of excess farm goods have dropped, in part because of the summer drought and because farmers are selling more of their products internationally. Donations from grocery stores, a major source for food banks, have fallen as supermarket chains consolidate, increase efficiency and tighten inventory controls.

Overall this year, the Capital Area Food Bank is projecting totals to fall roughly 6 percent below last year's total of 19.5 million pounds. The situation has been particularly bad in recent weeks, officials said. At the Northeast Washington warehouse earlier this week, some refrigerated shelves, usually stacked with produce and meats, stood empty.

"We're getting a lot less food donated from companies and individuals," operations director Christopher Leal said. "We have really nothing."

At the same time, economic factors have conspired to force many more people toward the brink of hunger. Calls to the food bank's Hunger Lifeline are up about 37 percent from last year.

And it's not just in the District. The Manna Food Center in Montgomery County served more than 2,200 families last month, about 200 more than the previous November. In Fairfax County, Reston Interfaith's food service has doubled over the past three years.

"Good, working people are having a harder time making ends meet," said Kerrie Wilson, executive director of Reston Interfaith. "So far, we've not had to turn folks away, but we have limited the number of times we'll help someone. . . . You do less for more."

America's Second Harvest, the country's leading hunger-relief charity, is projecting a shortage of 15 million pounds of food this year at its more than 200 network food banks. That would be enough food to serve 11.7 million meals or fill 400 trucks.

At food banks from Maine to Florida to California, "demand is up, and food is flying out the door faster than ever," spokesman Ross Fraser said.

"Our inventories are as depleted as they've ever been before," Fraser said. "Our food banks keep calling here saying, 'My God, you've got to help us. We desperately need help.' "

Edward Cooney, who has been an anti-hunger activist since 1972, said he has never seen food supplies dwindling and demand rising the way they are now.

"I've been in a few food banks, and I've looked at the shelves," said Cooney, executive director of the Washington-based Congressional Hunger Center. "You just see huge warehouses where you see empty shelves. Ain't nothing there."

About 85 percent of food donations to the Capital Area Food Bank come from corporations, including grocery chains, chief operating officer Brian Smith said.

Just 4 percent are from individuals, and 11 percent are from the federal government.

Improvements in inventory controls and store-ordering procedures among supermarket chains have limited the supplies donated to food banks.

"Food retailers are in business to sell food and not to have a lot of discarded food," said Giant spokesman Barry F. Scher, who is also vice chairman of the food bank's board of directors.

Although the quantity of food that Giant donates has dropped, Scher said, proceeds from in-store campaigns in which customers give money for the hungry are increasing. And the Landover-based chain will continue to donate food to charities, he said.

The shortage is exacerbated by a decline in federal assistance. For years, food banks have relied on the U.S. Department of Agriculture's bonus commodity program, which buys surplus crops such as peaches and cranberries, as well as livestock such as turkeys, ducks and bison, from domestic farmers.

But the amounts of bonus commodities have dropped. Five years ago, the department bought more than $200 million worth of surplus products. In 2005, that figure fell to $154 million. This year, the agency is projecting $58 million.

"The reason that they're down, obviously, is that the farm market is doing very well," said Nancy M. Johner, undersecretary for food, nutrition and consumer services.

Johner said farmers are selling more of their products internationally. That trend, coupled with a severe drought that affected much of the country this year, has left farmers with relatively few surplus crops, she said.

This is difficult news for food pantries and soup kitchens in the Washington region, where the Capital Area Food Bank estimates that more than 600,000 residents are at risk of hunger.

Bread for the City, one of the District's largest pantries, has served about 2,000 more families this year than in 2006, executive director George Jones said.

"It's a big jump," he said. "A lot of these families are people that have some resources, are housed, and use our resources to augment their incomes. They really are living on the edge."

With gasoline prices and utility rates rising and the economy softening amid a mortgage crisis, many of the region's working families are struggling to pay their bills and are seeking help at food banks and soup kitchens.

Bertina Fox used to donate clothing to Bread for the City. The 29-year-old from Northwest Washington said she never imagined she would someday come asking for food. But when she quit her job at an AIDS clinic earlier this year, she began coming to Bread for the City each month for a basket of fish and vegetables, as well as frozen pizzas and chicken nuggets for her 5-year-old son.

"When I fell on hard times, I knew of the services there," she said. "A lot of people can't make it day to day without them. I'm certainly one of those people."

Fox was to start a new job at an area hospital yesterday. Once back on her feet, Fox said, she hopes to start donating to the center again.

MORE FAMILIES SEEK AID

(By Wendy Koth)

More people are requesting emergency food aid and more homeless families with children are seeking shelter, concludes a 23-city survey released Monday by the U.S. Conference of Mayors.

Four of five cities say requests for food aid rose an average of 12% from the previous year, according to the survey for the period covering November 2006 through October 2007. Most cities had reported a jump in such requests the prior year as well.

Ten of 14 cities with data on homeless families say more families with children sought emergency shelter and transitional housing. About half of the cities say their overall homeless problem increased. Collectively, the cities report giving shelter to 193,183 people.

"We're heading in the wrong direction because of poverty, unemployment and housing costs," says Trenton Mayor Douglas Palmer, president of the mayors conference. He added that the full effects of record mortgage foreclosures have yet to be seen. The report does cite some progress. Of 11 cities with data on homeless adults seeking shelter, five—Louisville; Nashville; Philadelphia; Portland, Ore., and Seattle—report a decline. Also, the length of stays in shelters and transitional housing for single adults and families shortened.

Last month, the federal government reported a 12% decline in the number of chronically homeless adults who live on the streets or in emergency shelters. The number fell to 155,623 in January 2006 from 175,914 in January 2005, according to the Department of Housing and Urban Development.

HUD Secretary Alphonso Jackson says the numbers "show remarkable progress is being made." He attributed the decline to better reporting and more local and federal resources for permanent housing, health care and other services.

Des Moines Mayor Frank Cownie takes little comfort in HUD's numbers.

He says chronically homeless adults account for only 10% of all homeless people. "There are still more people needing help."

The mayors' report is limited because it surveys only 23 cities, each of which collects data differently, says Mark Nord, lead author of an annual food security report by the U.S. Department of Agriculture.

The USDA's most recent report, released last month, says 4% of households lacked adequate access to food in 2006, about the same as in 2005.

It also found, however, that the number of households obtaining food from community providers rose 26% from 2001 to 2006, and the number of households having the least access to food rose 32%, or 1.3 million, during that time. USDA data do not include the homeless.

Most of the 205 food banks that belong to America's Second Harvest, the nation's largest hunger-relief group, say demand has risen at least 20% this year, according to group spokesman Ross Fraser.

"Even in places like New Hampshire, which you wouldn't think of as needy, the demand is way up," Fraser says. He says financial contributions have held steady but food donations, including those from the USDA, have fallen. At this rate, he says, food banks will fall nearly 12 million meals short this year.

Mr. ISSA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support and join with my colleagues in supporting and sponsoring the gentlelady from Missouri's bill, H.R. 4220, the Federal Food Donation Act of 2007.

As Mrs. EMERSON said so well, the effort to aid nonprofit organizations to serve the hungry will be advanced by this bill and its amendment to the Federal acquisition regulations and to encourage Federal agencies and contractors to donate excessive foods to food pantries, food shelters, and homes for the homeless.

This bill also seeks to protect agencies and contractors from civil or criminal liabilities associated with these types of donations. It is sad but true in this country that often good deeds go punished as a result of the advent of those who would profit by suing over the good deeds of others. This bill tries to balance those two to encourage the good deeds of others and to shelter them from the type of adverse behavior that might cause people to throw away food rather than give it to the poor.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I'm pleased to yield 2 minutes to the gentleman from American Samoa (Mr. FALEOMAVAEGA).

Mr. FALEOMAVAEGA. Mr. Speaker, I want to commend the gentlelady from Missouri for her sponsorship and authorship of this important legislation.

I do want to say that the names of Mickey Leland, Bill Emerson, Tony Hall, I think, stand out in terms of what we did years ago, Mr. Speaker; that perhaps maybe this Congress needs to reestablish a select committee on hunger like we did years ago when it was chaired by Mr. Mickey Leland from Texas and also the gentleman from Missouri, Mr. Bill Emerson, and also the gentleman from Ohio, Mr. Tony Hall.

I believe that as a member of the committee at that time we were very, very much into the concerns that were expressed quite eloquently by my good friend, the gentleman from Massachusetts, the problems that we're dealing with and the subject of hunger.

I think we are moving in the right direction, and I just wanted to note, Mr. Speaker, that this issue of hunger really needs to be addressed seriously. And I want to commend the gentlelady from Missouri for her efforts, not only in continuing the legacy of her husband but the fact that this is a very serious issue, and I wish that perhaps my colleagues and the leadership of the House will reestablish that select committee on hunger like we did years ago so that we will not forget. We're moving in the right direction. We need to do more for the needy and for the poor.

Mr. ISSA. Mr. Speaker, I yield back the balance of my time.

Ms. NORTON. Mr. Speaker, years ago, nonprofits, mostly churches, fed people at Christmas and Thanksgiving. These nonprofits have become life-saving, year-round operations. What has occurred ironically over the past couple of years is a development that none of us anticipated, a shortage of food in these food banks of whatever description, and they come in part because of the efficiency of the food industry itself.

The food industry itself has become increasingly, like many other industries in our country, increasingly efficient so that there is less food to give away. We greet and welcome that efficiency, and we understand the need for it, especially in the food industry where the profit margins are so narrow. At the same time, our agricultural industry has become increasingly efficient, and it is, of course, one of the most efficient industries in the country.

The net effect of this is some food goes abroad. Very importantly is that there is less food that is excess food to give away, so that you have nonprofits throughout the country, some of them have been cited in the remarks of my colleagues because they are well known as having originated here, like the Capital Food Bank; Bread for the City; SOME, So Others May Eat; and not to mention the churches which were the first to step up and perform this service.

We just have got to find a way to get what we know is excess food, that all of us understand, have seen, all of us know exists, to where that food is most needed; and I believe that of the many things we could do, the bill offered by Mrs. EMERSON is certainly one way to begin to draw attention to what contractors may do as an act of goodwill, without incurring any burden on themselves. Indeed, it should be a great burden at a time like this to spoil or throw away any food.

Mr. MORAN of Kansas. Mr. Speaker, today the House of Representatives is considering an important piece of legislation. H.R. 4220, the Federal Food Donation Act of 2007 is a step in the right direction towards feeding the hungry in our nation. It is unacceptable that here in the richest nation in the world American children go to bed hungry while perfectly good food goes to waste. I am proud to be a sponsor of this bill—a bill that will not solve all hunger, but will solve some people's hunger.

I want to thank Mrs. EMERSON for introducing the Federal Food Donation Act. The bill will help the efforts of nonprofit organizations serving the hungry. Agencies and contractors are encouraged to donate safe and wholesome food to nonprofit organizations that provide assistance to food-insecure people, while avoiding another mandate or further layer of bureaucracy. In order to help protect donors, the bill provides that executive agencies and contractors making donations are protected from civil or criminal liability

While donating unused food is a good step in combating hunger in America, the fight is not over.

Mr. SOUDER. Mr. Speaker, I want to express my support for H.R. 4220—The Federal Food Donation Act of 2007. During this holiday season, millions of Americans reach into their pockets and pantries to help those less fortunate in their communities. Many times these donations go to non-for-profits like the Community Harvest Food Bank in northeast Indiana or In-As-Much Ministries in Fort Wayne, Indiana. These organizations then hand-out the food to those in need. While the supply of donations is high this time of year, demand is even higher. This legislation will allow the Federal Government to help increase the supply of wholesome food to organizations by removing red tape and allowing excess food that would otherwise be wasted go to those who need it.

In northeast Indiana demand has increased this year and the community has stepped up its efforts. Millers Poultry in Orland, Indiana has donated thousands of eggs and over 10,000 lbs of chicken to the Community Harvest Food Bank. The local Farmers and Hunters Feeding the Hungry group in northeast Indiana has also donated 15,000 lbs of venison. With help from processors like New Haven's Custom Meats and Lengacher Meats in Grabill, this venison is easily distributed to hungry families in the community.

While 25,000 lbs of meat seems like a lot, local pantries in Fort Wayne are giving out 10,000 lbs of food per day. I would like to thank those who have helped fill local food banks and urge those who have not yet donated to contact their local food bank or charity and give all you can to help those going hungry this Christmas Season.

Ms. NORTON. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and pass the bill, H.R. 4220, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

LOCAL PREPAREDNESS ACQUISITION ACT

Ms. NORTON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3179) to amend title 40, United States Code, to authorize the use of Federal supply schedules for the acquisition of law enforcement, security, and certain other related items by State and local governments.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3179

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Local Preparedness Acquisition Act".

SEC. 2. AUTHORIZATION FOR ACQUISITION OF LAW ENFORCEMENT, SECURITY, AND CERTAIN OTHER RELATED ITEMS BY STATE AND LOCAL GOVERNMENTS THROUGH FEDERAL SUPPLY SCHEDULES.

Paragraph (1) of section 502(c) of title 40, United States Code, is amended—

(1) by striking "for automated" and inserting the following: "for the following:

"(A) Automated"; and

(2) by adding at the end the following new subparagraph:

"(B) Alarm and signal systems, facility management systems, firefighting and rescue equipment, law enforcement and security equipment, marine craft and related equipment, special purpose clothing, and related services (as contained in Federal supply classification code group 84 or any amended or subsequent version of that Federal supply classification group).".

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on this measure and on S. 2174.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, H.R. 3179, sponsored by Chairman ED TOWNS, would permit State and local governments to purchase homeland security and public safety equipment from the Federal supply schedules maintained by the General Services Administration.

Opening the Federal supply schedules to State and local governments has bipartisan support. In past years, contract schedules have been opened up for information technology and goods and services needed to respond or prevent terrorism to State and local governments.

State and local governments should be able to enjoy the price and convenience advantages that the schedules provide. I commend my colleague for his leadership and urge Members to support this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. ISSA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in strong support of H.R. 3179, the Local Preparedness Acquisition Act. Mr. TOWNS and the entire Committee on Oversight and Government Reform recognized that the GSA schedule is more than just a list of things that can be bought at a given price. It is, in fact, the Good Housekeeping Seal of Approval.

GSA goes to great lengths to ensure that products are appropriate for purchase and that they are a good value. Leveraging that capability and the Federal money already spent to allow States and local governments to participate in this acquisition serves two good purposes. It increases the value of seeking a GSA schedule, and in fact, it saves money and overhead for State and local agencies.

I join with my colleague from the District of Columbia and Mr. TOWNS in asking for the swift passage of this bill.

Mr. Speaker, I yield back the balance of my time.

Ms. NORTON. Mr. Speaker, I'm pleased to yield such time as he may consume to my good friend, the gentleman from North Carolina (Mr. BUTTERFIELD).

Mr. BUTTERFIELD. Mr. Speaker, I want to thank the gentlelady from the District of Columbia for her friendship and thank her for yielding me this time.

Mr. Speaker, I come to the floor today to offer my support for H.R. 3179, the matter that has been introduced by Mr. TOWNS of New York, which is entitled the Local Preparedness Acquisition Act. This is a fine piece of legislation, and I urge our colleagues to vote "yes" on this matter.

□ 1345

Ms. NORTON. Mr. Speaker, one word more on this resolution introduced by Mr. TOWNS. I am Chair of the subcommittee with jurisdiction over GSA and, of course, its schedule. Perhaps the average person would believe that States would be in the same position as the United States Government because they buy a great deal of goods and services and the same kinds of costs and scale and efficiency which comes with ordering large amounts at the same time would come to States as well. That's not always the case, and even if it is, there is no State as large or that orders as much as the United States of America. And it does seem to me altogether appropriate that States and localities have the same access to the GSA schedule as the United States and its agencies have.

This ability to use the schedule on which firms have precompeted so as to guarantee the best value hastens what can be an arduous period of competition. In my own district, I see that in an effort to make sure that a competition has properly occurred, there can often be many delays. We cannot, of course, in some respects get around those inherent delays, but with respect to many goods and services that are on the GSA schedule, if the efficiencies that we are able to provide for the government can also be provided to States and localities, the United States and the States together will be in better shape saving taxpayers money.

Therefore, I strongly support this bill and ask other Members of the House to do so as well.

Mr. TOWNS. Mr. Speaker, I rise to support H.R. 3179, the Local Preparedness Acquisition Act. This is a bipartisan, good government bill that will permit state apd local governments to purchase homeland security and public safety equipment using General Services Administration contract schedules.

H.R. 3179 has the support of many state and local governments and the National Association of Counties. It will make it easier for local officials to purchase the items they need to improve safety in their communities, while saving money at the same time.

The GSA Schedules are catalogues of more than 4 million commercial goods and services currently available to federal agencies at negotiated discount prices. Since 2002, Congress has enacted "cooperative purchasing" legislation that authorized state and local governments to purchase IT equipment and disaster recovery items from GSA schedules.

This bill further expands that authority to purchase items such as bomb detection equipment, perimeter security systems, and other homeland security goods and services from GSA Schedule 84.

It is important to note that this bill imposes no federal mandate and requires no new spending. Participation in the cooperative purchasing program is voluntary for both state and local governments and vendors. The analysis prepared by the Congressional Budget Office indicates that the bill has no net impact on federal spending and is the opposite of an unfunded mandate—in fact, it is a benefit to state and local governments.

This bill was developed jointly with the ranking member of the Government Management Subcommittee, Mr. BILBRAY. I thank him for his contribution to this legislation.

I urge all my colleagues to support H.R. 3179.

Mr. BILBRAY. Mr. Speaker, thank you for the opportunity to speak in favor of H.R. 3179, the Local Preparedness Acquisition Act. I am pleased to serve as the original cosponsor of this legislation. I also want thank Congressman TOWNS for his leadership in sponsoring and advancing this important idea.

H.R. 3179 will allow State and local governments to purchase homeland security products and services at more reasonable prices by providing them access to the General Services Administration schedules. Following the attacks on September 11, our local and State governments have taken on more responsibility for emergency preparedness and homeland security. With this added responsibility, these local governments need to purchase a wider array of goods and services.

Under this legislation, these localities will be able to purchase many products such as access control and perimeter security systems, fire detection and suppression equipment, firefighting clothing and marine craft from the GSA schedules. With this option, the cost of many of these products will be less than the cost of purchasing them from State-approved purchasing lists or the open marketplace, saving these local governments valuable tax dollars.

Importantly, this legislation does not impose any requirements on States and localities to utilize the GSA schedules, instead offering an additional voluntary purchasing method.

This legislation has strong bipartisan support and was passed out of the Oversight and Government Reform Committee by voice vote. Additionally, it has gained the endorsement of the National Association of Counties and many other outside organizations.

Mr. Speaker, thank you for the opportunity to speak in favor of this bill. I urge my colleagues to support this commonsense legislation.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today in strong support of H.R. 3179, the Local Preparedness Acquisition Act, introduced by my distinguished colleague from New York, Representative TOWNS. This important legislation amends title 40 of the United States Code to authorize the use of Federal supply schedules for the acquisition of law enforcement, security, and certain other related items by State and local governments.

In the post-September 11 era, with the advances in technology, communication and transportation, the likelihood of a situation escalating from an emergency to a disaster to a catastrophe has increased. This Nation is dependent upon the services of its first responders, and as such we cannot shirk responsibility for their well being when we put them in harm's way. Since the catastrophe of September 11, 2001, the need to anticipate and provide necessary resources to our emergency workers has been brought to Federal attention.

The Federal Government has a responsibility to plan ahead and develop a strategy of what will occur should a catastrophic event ever take place. As can be seen with the World Trade Center Worker and Volunteer Medical Monitoring Program, which was established in 2004 by the National Institute for Occupational Safety and Health, it has been insecure in its funding since its inception and is estimated to be out of outpatient awards by the end of FY 2007. This type of haphazard funding and insecurity about the program's future is not what our first responders risked their lives for.

In order to enact any meaningful change, we must understand and identify the unique situations that face our first responders and then try to address any preventative preemptive actions that are possible. This includes Federal inquiry into the recognition and management of mental health defects, plans for short- and long-term health monitoring, quality of personal protective equipment, proposed research or lack thereof, and the national response plan. The necessity of inquiry into and improvement and solidification of these issues cannot be overstressed in looking to the future and how our Nation will deal with caring for the first responders during a disaster.

Mr. Speaker, as we witnessed in the aftermath of the terrorist attacks of September 11, 2001 and Hurricanes Rita and Katrina, our Nation's first responders were not prepared for the realities of the catastrophes they faced. We can ensure future safety and protection of our first responders by making sure their personal protective equipment is sufficient to handle any future risks. It is our obligation to make sure the funds for the proper equipment is being received through Federal grant programs so that in the case of a catastrophe, they will be able to safely respond to hazardous materials, biological agents, and other harmful materials.

This legislation is important because it amends title 40 of the United States Code to provide necessary equipment to our Nation's first responders. In the wake of the tragedies of September 11 and Hurricanes Katrina and Rita, the necessity for the provision of appropriate technologies, including interoperable communications and the availability of emergency equipment, became painfully apparent. This legislation calls for the availability and provision of alarm and signal systems, facility management systems, firefighting and rescue equipment, law enforcement and security equipment, marine craft and related equipment, special purpose clothing, and related services. By amending title 40 of the United States Code, this legislation is an important step towards ensuring that America's first responders are adequately prepared for any situation that may arise.

Mr. Speaker, I support the passage of H.R. 3179 and call on my colleagues to do likewise because I strongly believe that it will strengthen our Nation's efforts to confront the disasters.

Ms. NORTON. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CARDOZA). The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and pass the bill, H.R. 3179.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. CONYERS. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on this concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. CONYERS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker and Members of the House, this concurrent resolution makes technical and conforming changes to the Second Chance Act, H.R. 1593, to expedite its proper enrollment. The House passed the Second Chance Act in November on suspension by a vote of 347–62. May I note for the RECORD that this is the 10th year during three Congresses that this legislation has been worked on, debated, had witnesses, been voted on; and now we come here today to make some technical changes and, with our holiday wishes, send this measure on its way.

The Second Chance Act strengthens overall crime-fighting efforts by helping give ex-offenders tools for staying out of trouble, support for job skills, stable living arrangements, substance abuse treatment, health services, and other very basic resources to successfully rejoin society and lead productive and law-abiding lives. It enjoys, clearly, wide bipartisan support.

This concurrent resolution expedites the process of finalizing the bill and sending it to the President in this session of Congress by making a few corrections brought to our attention after the bill passed the House last month, such as standardizing certain criteria in the process for three different kinds of grants and clarifying eligibility for a prison pilot program.

It is a good measure. The corrections here are technical only. And I am proud to bring it to the attention of my colleagues for passage as urgently as possible.

Mr. Speaker, I reserve the balance of my time.

Mr. CANNON. Mr. Speaker, I yield myself such time as I may consume.

I would like to start out by thanking Chairman CONYERS, who has worked extraordinarily hard for a very long period of time, as he pointed out, on this bill; and also Mr. DANNY DAVIS, who has been a real brick and worked very hard on this.

I rise in support of this concurrent resolution making corrections to H.R. 1593, the Second Chance Act of 2007.

On November 13, 2007, the House passed the Second Chance Act of 2007. This resolution makes technical changes in three sections of the bill.

First, the resolution modifies sections 111 and 112 to require that States pay no less than 50 percent of grant funds to establish reentry courts and the Prosecution Drug Treatment Alternative program.

Second, the resolution eliminates in section 231(g) the technical requirement that eligible elderly prisoners who qualify for early release also satisfy the existing law for the compassionate release program.

I urge my colleagues to support this resolution.

Mr. Speaker, I yield back the balance of my time.

Mr. CONYERS. I thank my good friend, a ranking member in the Judiciary Committee, for his important work on this measure.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan (Mr. CONYERS) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 270.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Ms. SHEA-PORTER. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New Hampshire?

There was no objection.

Ms. SHEA-PORTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to first start out by thanking my distinguished colleague on the Armed Services Committee, ROBIN HAYES, for his work on this bill and his continued support for the Marine Corps. I would also like to thank Debra Wada and Joe Hicken from the committee staff for their work to bring this to the floor.

Mr. Speaker, this year, the United States Marine Corps celebrated 232 years of devoted service. This year's celebration, like those of years before, commemorates generations of service to our country and reminds us of their commitment to our freedom and their selflessness. This is an enduring trait of their past, present and future.

As soldiers, our marines have fought valiantly to protect democracy and human liberty when those essential freedoms were threatened around the world. In our most dire times, the Marine Corps stepped to the forefront in places like Guadalcanal, Iwo Jima, Okinawa and Guam. For those from that generation who are still with us, this resolution celebrates you.

As peacekeepers, our marines have stood between rebels and refugees, providing safe haven and aid in the Balkans and to nations in Africa, South America, Southeast Asia, and the Middle East. To those brave marines, this resolution is for you.

As preservists of democracy, marines have protected U.S. and foreign diplomats as they sought to restore peace and stability to war-torn nations. In places like Beirut, they often paid the ultimate price. This resolution is for them.

As liberators, Marines were the first conventional U.S. ground forces in Afghanistan, toppling the Taliban government that sheltered al Qaeda and were complicit in the attacks of September 11. Our Marine Corps has lost 40 men and women during Operation Enduring Freedom. This resolution honors them.

As heroes, marines have earned the Medal of Honor 298 times, the Distinguished Service Cross 417 times, and the Navy Cross 2,168 times. But they don't do it for the medals or the ribbons. They do it for the people of the United States. To the more than 219,000 marines in the active duty and Reserves, this resolution is for you. Thank you for your service to our country.

Mr. Speaker, I reserve the balance of my time.

Mr. WILSON of South Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank Representative CAROL SHEA-PORTER for introducing this resolution and my colleagues, led by Representative ROBIN HAYES, on the Armed Services Committee, for bringing it to the floor for our consideration.

As a proud co-sponsor, I am honored to have this opportunity to celebrate the United States Marine Corps and recognize their 232 years of service to our Nation.

On November 10, 1775, the Second Continental Congress passed a resolution that called for two battalions of marines to be raised for use as naval infantrymen. From that day forward, marines have defended this Nation in every American military conflict. They first saw combat in the Bahamas in 1776 under the leadership of Captain Samuel Nicholas, the officer who is considered by most to be the first marine commandant.

Though the Marines were disbanded following the Revolutionary War, they were reestablished on July 11, 1798, and from that day forward have protected and defended Americans and our allies around the world. From Europe to the Philippines, South America to Asia, and the Middle East, marines have fought in every corner of the world.

In addition to traditional military duties, marines protect our embassies and dignitaries around the world. They have served in a humanitarian capacity bringing relief and aid to citizens of other nations as well.

In the global war on terrorism, 76,000 marines have been deployed to Iraq to help establish peace, root out insurgent remnants and al Qaeda terrorists, and bring stability to that young democracy. I am grateful for my son, a naval doctor, who is working with the marines in Iraq today.

As part of Operation Enduring Freedom in Afghanistan, marines have helped topple the repressive Taliban regime and dismantle the al Qaeda network. For their service on these two fronts of the global war on terrorism, marines have been decorated with thousands of honors and medals. These decorations include 7,720 Purple Hearts for wounds suffered during combat, and 866 Bronze Stars with "V" for exceptional valor in a combat situation.

Since the inception of the United States Marine Corps, 298 marines have earned the Congressional Medal of Honor, our Nation's highest military honor. On a personal note, the Second District of South Carolina, which I have the honor of representing, is home to Marine Corps Air Station Beaufort and Parris Island. All marine recruits east of the Mississippi River go through Parris Island.

Marines are the most elite fighting force in our military. Their reputation for professionalism and selfless duty has earned them the thanks of a grateful Nation and the appreciation of millions around the world over two centuries of service and sacrifice. My late father-in-law, Major Julian Dusenbury, and my late brother-in-law, Captain Tim Dusenbury, were proud marines, and our family especially appreciates the service of the Marine Corps.

On behalf of my colleagues in the House of Representatives and the American people, I want to thank the tireless men and women of the United States Marine Corps for their service and sacrifice. Each and every day they are working to protect our Nation and our allies around the world.

I encourage all my colleagues to join me in supporting and expressing our most humble appreciation for the few, the proud, the Marines.

Mr. Speaker, I reserve the balance of my time.

Ms. SHEA-PORTER. At this time, I have no further requests for time, and I reserve the balance of my time.

Mr. WILSON of South Carolina. Having no further speakers, I would like to make one further statement.

Mr. Speaker, I had the opportunity, 2 years ago, of visiting in Muzaffarabad, Pakistan, where the Marine Corps ably served to assist the people of Pakistan in their recovery from the horrific incidents of the earthquake. And it was so reassuring to visit and see the hospital that they set up, with female doctors, due to the cultural concerns of the people in that region. It had just an extraordinary impact.

I had the privilege of meeting with President Musharraf, who indicated that at that time the most famous toy, the most appreciated toy, in all of Pakistan was the Chinook helicopter, representing the deep affection of the people of Pakistan for the Marine Corps and their service.

Mr. Speaker, I yield back the balance of my time.

Ms. SHEA-PORTER. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from New Hampshire (Ms. SHEA-PORTER) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 246.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

EXPRESSING UNCONDITIONAL SUPPORT FOR MEMBERS OF THE NATIONAL GUARD

Ms. SHEA-PORTER. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 542) expressing the unconditional support of the House of Representatives for the members of the National Guard, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 542

Whereas the National Guard has made tremendous contributions in support of United States military operations around the world;

Whereas, between September 11, 2001, and September 30, 2007, 329,962 members of the National Guard have been mobilized to support numerous military operations;

Whereas members of the National Guard typically leave other employment to serve on active duty in the Armed Forces;

Whereas the National Guard has responded admirably in times of domestic emergencies to lead rescue and recovery efforts; and

Whereas many members of the National Guard have made the ultimate sacrifice, giving their lives in service to the United States: Now, therefore, be it

Resolved, That the House of Representatives—

(1) unconditionally supports the members of the National Guard;

(2) recognizes the tremendous sacrifices made by members of the National Guard on behalf of the United States;

(3) will work to ensure that the National Guard receives the resources it needs; and

(4) will support the families of members of the National Guard, especially those who have died while serving on active duty.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from New Hampshire (Ms. SHEA-PORTER) and the gentleman from South Carolina (Mr. WILSON) each will control 20 minutes.

The Chair recognizes the gentlewoman from New Hampshire.

GENERAL LEAVE

Ms. SHEA-PORTER. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New Hampshire?

There was no objection.

Ms. SHEA-PORTER. I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of the National Guard and in celebration of their 371 years of service. I would like to thank my colleague from Florida, GINNY BROWN-WAITE, for bringing this measure to the floor.

In my State of New Hampshire, the first citizen militia formed in 1623 with the settlement of Portsmouth. In 1679, the New Hampshire National Guard was formally established, marking the humble beginnings of my State's storied tradition of service.

Today, nearly 2,700 men and women continue that same tradition of service in the New Hampshire National Guard, and they, too, are distinguishing themselves on the battlefield and at home.

In New Hampshire, our Guardsmen routinely perform search and rescue operations. They respond to floods and to ice storms that threaten the region each year. And the New Hampshire Guard joined many other States that answered the call to aid victims from Hurricane Katrina.

This story of selfless sacrifice is not unique to the members of New Hampshire's National Guard, but it is one example of how all National Guardsmen put others before self, and their service and sacrifice is honored here in this bill.

Today, over 30,000 Guardsmen are serving on the ground and in the skies over Iraq and Afghanistan. As we celebrate the National Guard for its 371 years of service, our thoughts are with those men and women who continue to serve bravely overseas and with their families back home. And our hearts are heavy remembering the 483 Army and Air Guardsmen that have given their last great measure of devotion. For them we vow to care for their families and honor their sacrifice.

Mr. Speaker, I reserve the balance of my time.

Mr. WILSON of South Carolina. Mr. Speaker, I yield so much time as she may consume to the gentlewoman from Florida (Ms. GINNY BROWN-WAITE).

Ms. GINNY BROWN-WAITE of Florida. I thank the gentleman from South Carolina.

Mr. Speaker, I rise today in support of House Resolution 542, which expresses the unconditional support of the House of Representatives for the members of the National Guard. I certainly want to thank the chairman and ranking member of the Armed Services Committee.

As we all know, December 13 was the 371st birthday of the National Guard. I could not think of a better way to celebrate this tremendous milestone than to honor the men and women who serve in the National Guard with the resolution before us today.

The National Guard certainly serves a unique purpose. Its main duty, of course, is to secure and defend our homeland. However, the National Guard also plays a vital role in aiding States when natural disasters strike. Whether it is helping to harness the wildfires that recently raged throughout California, or aiding in the aftermath of hurricanes or tornadoes in Florida and across the Southeast, the National Guard has been there lending a helping hand.

While helping out in times of need across the United States leaves a lasting impact, it is the work that the National Guard does on beyond our borders that truly sets it apart. When National Guard units are called up, the men and women who answer the call leave their careers, families, and loved ones behind. These men and women put their lives on hold to protect this great country, and for that we must be eternally grateful. In fact, over 329,000 members of the National Guard have been mobilized in support of numerous military operations since September 11, 2001.

The National Guard units from my district have played a critical role in many of these operations, and I want to take this opportunity to thank them for everything they do in defense of all of our freedoms. Their contributions have been a tremendous asset, and without the National Guard, the United States Armed Forces would not be able to operate at the high level it currently does.

As many of you know, an issue that is extremely important to me and the people of my district, and most likely your district too, is illegal immigration and the need for greater border security. That's why it is also important to note that the National Guard is playing a vital role in protecting our borders.

There are currently 6,000 National Guardsmen serving along our borders, doing their best to stem the tide of illegal immigration that threatens this country. The National Guard is playing an every-increasing role in the defense of our great country, and I encourage my colleagues to show their support for the sacrifices these men and women make by supporting this resolution.

Ms. SHEA-PORTER. Mr. Speaker, I yield back the balance of my time.

Mr. WILSON of South Carolina. Mr. Speaker, I yield myself such time as I may consume.

I want to thank Representative GINNY BROWN-WAITE for introducing this resolution and my colleagues on the Armed Services Committee for bringing it to the floor for our consideration.

As a proud co-sponsor, I am honored to have this opportunity to recognize the contributions of our citizen soldiers in the United States National Guard.

From the earliest days of our country's founding to today, average Americans have stepped forward to serve their Nation. Soldiers of the National Guard have served in every major combat throughout our great history, and since September the 11th, they have taken a tremendous role in support of the global war on terrorism in Iraq and Afghanistan.

Since these terrible attacks 6 years ago, 329,982 members of the National Guard have been mobilized for military operations around the world. Unlike their traditional military comrades, National Guard members are not career military soldiers. They are most often employed in other careers and serve when called upon to assist with combat operations and as first responders during domestic emergencies and rescue and recovery situations. This unique role underscores an immense dedication to their patriotic duty and to this Nation.

As a 31-year veteran of the Army Reserve and National Guard, I am honored to have known and worked with many of these extraordinary and dedicated individuals.

□ 1415

My former unit, the 218th Mechanized Infantry Brigade of the South Carolina Army National Guard is currently serving in Afghanistan under the leadership of Brigadier General Bob Livingston. Its 1,800 troops are the largest deployment of National Guard since World War II. I have visited the troops in June, August and November, and I know firsthand they are training Afghani police and military forces to help that young democracy stand on its own two feet. The best way to stop terrorism is to deny terrorists safe havens anywhere in the world. Additionally, my son, Alan, was deployed with the South Carolina National Guard to Iraq, along with my son, Julian, with Guard service in Egypt. And my family and I are grateful for their service and the service of their comrades, led by Major General Stan Spears, America's longest serving adjutant general. Our family knows that National Guard membership is rewarding for service for America and for our State while receiving extraordinary opportunities for education, travel and meeting talented people of competence and patriotism. I encourage every American to consider National Guard service.

With this resolution, we recognize the contributions of the Guard, but we also pledge to support their efforts with the necessary resources and express our deepest gratitude to the families whose loved ones serve this Nation. Above all, our deepest sympathies go to the families whose loved ones have been lost.

On behalf of my colleagues in the House of Representatives and the American people, I want to thank the brave men and women of the Guard for their service. In times of peace and times of war, there they are working to protect our Nation and our allies around the world and the citizens here at home. I want to thank Representative GINNY BROWN-WAITE for introducing this resolution. I encourage all of my colleagues to join me in supporting it and expressing our most humble appreciation for the citizen soldiers of the National Guard.

Mrs. CHRISTENSEN. Mr. Speaker, I rise in support of H. Res. 542 which expresses the unconditional support of the House of Representatives for our brave men and women who serve as members of the National Guard.

Over the past several years, the National Guard has confirmed their willingness to serve our country, often giving up their civilian careers to be deployed in Iraq or Afghanistan or other parts of our country where their particular expertise is needed.

The National Guard has done this all the while fulfilling their traditional duties in times of domestic emergencies, leading recovery efforts in case of flood, fire, hurricane, snowstorm, tornado or civil disturbance.

Mr. Speaker, I am especially proud of the Army and Air National Guard units from my district, the U.S. Virgin Islands, who are deployed in Iraq and Afghanistan and at other bases and installations across the country. Our entire territory gives its overwhelming support to the 651st GS Maintenance Company in Iraq, D Company 126th Aviation at Ft. Benning, GA, other individual soldiers stationed in Afghanistan, Iowa, Hawaii and Kuwait.

We also remember that two of our Guard, LTC David Canegata and Staff Sgt. Floyd Lake, made the ultimate sacrifice earlier this year when their Blackhawk helicopter went down in Iraq.

Mr. Speaker, along with my constituents in the territory, I pray for the safe return of all our men and women in the military.

Mr. UDALL of New Mexico. Mr. Speaker, the men and women who put on the uniform of the National Guard have acted with extreme bravery and integrity. Through the wars in Afghanistan and Iraq, these soldiers have fought valiantly, without question and without reservations, and they embody the entire spirit of service.

In New Mexico, the National Guard has played an historic role in defending our Nation. Members of the New Mexico National Guard served as "Rough Riders" on San Juan Hill with Teddy Roosevelt, served as prisoners of war at Bataan for horrendous years during World War II, and were deployed to Operation Desert Shield. Whether fighting during a time of war, assisting local and State law enforcement, or guarding our borders, New Mexico's National Guard stands "ready to fight" and accomplishes every mission it receives with distinction and with pride.

We in the House offer our unconditional support of these men and women, and I strongly support this legislation.

Mr. WILSON of South Carolina. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from New Hampshire (Ms. SHEA-PORTER) that the House suspend the rules and agree to the resolution, H. Res. 542, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. WILSON of South Carolina. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

"(2) MANDATORY PAYMENT OF UNPAID AMOUNTS UNDER CERTAIN CIRCUMSTANCES; NO REPAYMENT OF UNEARNED AMOUNTS.—(A) If a member of the uniformed services dies (other than as a result the member's misconduct) or is retired or separated for disability under chapter 61 of title 10, the Secretary concerned—

"(B) The amount to be paid under subparagraph (A)(ii) shall be equal to the full amount specified by the agreement or contract applicable to the bonus, incentive pay, or similar benefit as if the member continued to be entitled to the bonus, incentive pay, or similar benefit following the death, retirement, or separation.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from New Hampshire (Ms. SHEA-PORTER) and the gentleman from South Carolina (Mr. WILSON) each will control 20 minutes.

The Chair recognizes the gentlewoman from New Hampshire.

GENERAL LEAVE

Ms. SHEA-PORTER. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New Hampshire?

There was no objection.

Ms. SHEA-PORTER. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, today the House has a unique opportunity to clarify the law to protect the financial security of wounded veterans, their families and the families of soldiers who have been killed in the line of duty. As recently as last month, we have heard a number of cases in the media suggesting that the Department of Defense has been requiring soldiers wounded in combat to pay back part of their enlistment bonuses if they hadn't yet served their full term, or even worse, that it would require these benefits to be paid back by the grieving families of soldiers who made the ultimate sacrifice for our country.

Quite simply, this is wrong. If a soldier signed up to serve our country and is unable to serve out the full team of his or her enlistment due to wounds received in the line of duty, this soldier should not then be asked to return any part of their signing bonus. For a soldier who has faced the hardships and battle and is now facing the challenges of recovery, we should not add the additional burden of paying back money that is rightfully theirs.

Mr. Speaker, H.R. 3793, the Veterans Guaranteed Bonus Act of 2007, ends the uncertainty about the policy and makes clear that this Nation will never attempt to recoup bonuses and benefits from wounded veterans or grieving families. It mandates that unpaid bonuses or similar benefits are paid in full, and it requires that this financial protection be provided not later than

90 days after the death of a soldier or the departure from the military due to disability from all active duty and Reserve component members.

Finally, the act establishes firm guidelines to ensure that the military will act with fairness and equity when handling the question of such bonuses for all servicemembers.

Mr. Speaker, I commend the gentleman from Pennsylvania (Mr. ALTMIRE) for his diligence and timely work on this sensitive issue and for his commitment to bring this important legislation to the floor of the House. I strongly support H.R. 3793, the Veterans Guaranteed Bonus Act of 2007, and urge its immediate adoption.

I reserve the balance of my time.

Mr. WILSON of South Carolina. Mr. Speaker, I yield so much time as he may consume to the gentleman from North Carolina (Mr. JONES).

Mr. JONES of North Carolina. I thank the gentleman from South Carolina.

Mr. Speaker, in July, the President's Commission on Care for America's Returning Wounded Warriors reported that the Department of Defense was applying a rule that enlistees who leave the service early cannot receive their full enlistment bonus. The Commission was confident that this rule was not intended to apply to servicemen and women whose combat-related injuries forced them to leave the military. At that point, the Commission received assurances from the Department of Defense that this problem would be addressed. Today, the Congress will ensure that the problem is addressed by passing H.R. 3793, the Veterans Guaranteed Bonus Act of 2007.

As Americans, we should never break our promises to our veterans, especially in time of war. To promise a significant amount of money to a young American and then demand its return or refuse to continue distribution when the man or woman is injured in combat and subsequently discharged is unacceptable. In early October, I joined Congressmen ALTMIRE, STEARNS and MURPHY to remedy this problem.

Today, over 270 of our colleagues and 36 veterans organizations have joined us to advance H.R. 3793, the Veterans Guaranteed Bonus Act of 2007. This legislation guarantees that no servicemember who dies or is retired or separated for disability will be required to repay or forfeit their bonus. We cannot thank our veterans enough for the sacrifices they have made for our country. When our men and women come home from war, the cost of an enlistment bonus is low compared to the sacrifice that is made by our soldiers and Marines.

I am certain this House will pass H.R. 3793, the Veterans Guaranteed Bonus Act of 2007.

Ms. SHEA-PORTER. I yield 5 minutes to my friend and colleague, the original sponsor of this important piece of legislation, the gentleman from Pennsylvania (Mr. ALTMIRE).

Mr. ALTMIRE. Mr. Speaker, I rise today in strong support of the bill we are debating today, H.R. 3793, the Veterans Guaranteed Bonus Act, which I introduced.

This legislation will ensure that from this point forward, every combat-wounded veteran injured in Afghanistan or Iraq receives their full enlistment or reenlistment bonus. No longer will American servicemen and women who have served our country so bravely and honorably and have been injured in service to our country, no longer will they be served with a bill to repay their enlistment bonus, and no longer will those heroic men and women suffer the indignity of having their prorated bonus payments cut off if those payments are to be made in installments.

Instead, my bill, which we are debating today, says that the full amounts due under the agreements and contracts that apply to a service combat disability be paid within 90 days of the separation of the servicemember. This legislation also applies to the family members and estates of servicemen and women who are killed in combat.

This issue first came to my attention over the summer while reviewing the Dole-Shalala Commission Report, an independent panel put into place in the spring to investigate the disgraceful situation at Walter Reed Army Medical Center. The Commission uncovered instances of our wounded warriors being denied their bonuses after being injured in combat. And after studying this issue in more detail and learning of other documented instances of this injustice, on October 10, I introduced a Veterans Guaranteed Bonus Act, which is now before us.

In the weeks after I introduced the bill, we continued to hear multiple reports of cases around the country where servicemen and women had been denied bonuses, including the high-profile case involving Private Jordan Fox from my home area of western Pennsylvania. It has become clear that these were not just isolated examples, but instead, some of the hundreds and perhaps thousands of examples of veterans being asked to return their bonuses or be denied the remaining portion of their bonuses after being injured in service to our country.

And while some have made an issue of the expense of paying back these bonuses, let me be clear: There is no group that should stand ahead of our Nation's veterans when it comes time to making Federal funding decisions. Some may argue that because these servicemen and women were injured that they were unable to fulfill their contractual obligations and therefore should be denied the remainder of their bonuses. I want to be equally clear on this point. Members of our Armed Forces have made every conceivable sacrifice for our country, and those who have been injured in service to our country have more than fulfilled the obligations of their service contract. Paying them the bonuses that they have fought for and that they have earned is the very least we can do to repay them for their bravery and their sacrifice.

Finally, I want to make clear that this is a bipartisan bill with more than 270 cosponsors. I want to thank my colleagues on the other side of the aisle, dozens of which have cosponsored this bill and some of whom will speak in favor of it today. I especially want to thank my colleagues, Mr. STEARNS from Florida and Mr. JONES from North Carolina, the lead Republican sponsors of this bill. They joined me in support of this bill before it became a high-profile issue, and I thank them for their leadership. I also want to single out two of my Democratic colleagues, my lead Democratic cosponsor, Congressman PATRICK MURPHY from my home State of Pennsylvania, an Iraq war veteran himself, and Congressman BART STUPAK of Michigan who has fought as hard as any Member of this House for the right of veterans to keep their enlistment bonus.

Most importantly, I want to thank Chairman IKE SKELTON for his willingness to help bring this bill to the floor. Chairman SKELTON's amendment has made this a better bill, and I thank him for his support and his continued leadership as chairman of the Armed Services Committee.

Mr. Speaker, I ask my colleagues to join me in voting for the Veterans Guaranteed Bonus Act before us today. I am sure that all my colleagues in the House would agree that we in Congress must support our troops with our actions and not just with our words. This bill will ensure that every military veteran gets the bonuses they deserve. During this holiday season when our thoughts and prayers are with the brave servicemen and women serving overseas and their families here at home, I can think of no greater tribute we can provide.

Mr. WILSON of South Carolina. Mr. Speaker, I yield so much time as he may consume to the gentleman from Georgia (Mr. BROUN).

Mr. BROUN of Georgia. I thank the gentleman for yielding. Mr. Speaker, I rise in strong support today of H.R. 3793, the Veterans Guaranteed Bonus Act of 2007.

As a former military officer and an enlisted marine, I take this matter very seriously, and I am a very strong supporter of our troops and their families. As Members of Congress, we have an obligation both to stand up for our troops that have been disabled and have to leave the military, as well as surviving families of soldiers who have made the final sacrifice to protect our Nation and our freedom.

There is no greater insult to our wounded warriors and their families who have sacrificed so much than to deny or revoke their bonus because of a combat-related injury or death. This bill, the Veterans Guaranteed Bonus Act of 2007, would guarantee that no servicemember who dies, other than as a result of a member's misconduct, or is retired or separated for disability will be required to repay any portion of a bonus or similar benefit that they have received.

Mr. Speaker, the Federal Government has broken too many promises to our veterans, and I consider that verging on criminality. We have an opportunity today to support our veterans and to support our troops and to fulfill a promise that was made to these veterans.

I urge all of my colleagues of the House to support this measure and pass H.R. 3793, the Veterans Guaranteed Bonus Act of 2007.

□ 1430

Ms. SHEA-PORTER. Mr. Speaker, I yield 3 minutes to my friend and colleague, the gentleman from Michigan (Mr. STUPAK).

Mr. STUPAK. Mr. Speaker, I thank the gentlewoman for yielding.

I rise in support of the Veterans Guaranteed Bonus Act of 2007. Currently, when a servicemember is wounded in combat and cannot return to duty, the Department of Defense allows each military branch to determine, in their discretion, whether to pay a servicemember any portion of a bonus still due to them. As a result, some members of the Armed Forces, who have served their Nation bravely, sustaining severe injuries, are not receiving their full bonus.

In the last month, I have written to the President on three occasions urging him to immediately terminate this disgraceful policy. In response, I received conflicting information from the Department of Defense regarding this policy. Deputy Under Secretary William Carr wrote me on December 12, in a letter, and he stated: "The Army pays all unpaid enlisted and re-enlistment bonus installments." Not true.

In conversations with the Department of the Army National Guard Bureau, my staff has been told that instead of paying the full bonus due, the Army prorates a soldier's bonus based on the number of months the soldier served before their medical discharge. It's still unclear as to what the policy is with the Army. This is why we need to enact a Veterans Guaranteed Bonus Act. We need to establish a uniform Department of Defense policy to ensure all outstanding bonuses are promptly paid to our deserving heroes. Bonuses should be paid in full, without question.

I was first alerted to this program by an Iraqi war veteran in my district, Derek Gagne, from Wilson, Michigan. Derek, an Army National Guardsman, had been denied the remainder of his bonus after suffering a severe eye injury, losing part of his foot and his leg when his Humvee struck an IED in Iraq. Only after numerous calls and questions from my office is Derek now receiving his bonus. Our veterans should not need to fight so hard for something they are entitled to.

I am pleased to join my colleague from Pennsylvania (Mr. ALTMIRE) in cosponsoring the Veterans Guaranteed Bonus Act. This bipartisan bill, supported by over 200 Members of Congress, would require the Department of Defense to establish a uniform policy which provides veterans who are discharged from the military due to combat-related injuries or service-connected injuries their full payment of any bonuses within 90 days of discharge.

This legislation should not be necessary. As Commander in Chief, the President has the ability to correct this policy by requiring all military branches to provide severely wounded members with their full bonuses. This administration is quick to go to war, but slow to respond to the needs of our veterans.

Our Nation must be committed to caring for and honoring our veterans not just with words, but with deeds. Ensuring that our soldiers receive the bonuses they were promised is the least we can do for those who put their lives on the line to protect our freedoms.

Mr. WILSON of South Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 3793, as amended, a bill to ensure that military personnel who die or who are retired or separated for medical reasons are paid their full enlistment or re-enlistment bonuses and are not subject to repayment of any portion of those bonuses.

Last month, media stories sparked outrage among Members of Congress and citizens alike when they highlighted what appeared to be a potentially widespread practice by the Army and Department of Defense. Media reports stated that wounded servicemembers who could no longer continue on active duty because of those wounds were being required to repay portions of their enlistment or re-enlistment bonuses because they had not fulfilled the terms of their contracts. In some cases, the Army was cited as demanding repayment of thousands of dollars from soldiers who, but for their wound or injuries in combat, continued to serve the Army in this Nation honorably.

What the media failed to report completely was that the Department of Defense and the military services had an active policy in place that addressed this problem. The policy did the following: first, in cases where a servicemember died, not at the result of his or her own misconduct, the unpaid portions of an enlistment or re-enlistment bonus would be paid to the servicemember's survivors, and there would be no requirement to repay already paid bonuses.

Second, when the servicemember was unable to complete an enlistment or re-enlistment due to circumstances reasonably beyond the servicemember's control, no already paid bonus would be recouped. Finally, the Secretaries of the military services had broad discretion, on a case-by-case basis, to forego recoupment and pay out unpaid portions of bonuses.

H.R. 3793, as amended, captures and codifies the most effective parts of the existing DOD policy, and goes beyond that policy. When enacted, H.R. 3793 will guarantee that a servicemember who dies or is retired or separated for medical disability will not be required to pay any portion of a bonus or similar benefit that they had received. It mandates that the full contracted amount of any unpaid bonus or similar benefit be paid, as appropriate, to the estates of servicemembers who die or to servicemembers who are retired or separated due to a disability. And it mandates that payments are to be made not later than 90 days after the death, retirement, or separation of the servicemember.

Additionally, if a service Secretary determines that requiring repayment or withholding payment of the unpaid bonus would be contrary to a personnel policy or management objective, against equity and good conscience, or be contrary to the best interests of the United States, then they would be allowed to waive repayment or to continue payment of unpaid bonuses. Discretion should be allowed for the most beneficial interpretation in favor of our courageous servicemembers.

H.R. 3793 is a good bill, and I urge all my colleagues to join me in supporting it. Our servicemen and -women deserve our most humble thanks, and this bill would ensure that we are honoring their sacrifices by not denying them or their families their due pay.

In conclusion, God bless our troops, and we will never forget September 11th.

Mr. Speaker, I reserve the balance of my time.

Ms. SHEA-PORTER. Mr. Speaker, I yield 2 minutes to my friend and colleague, the gentleman from Massachusetts (Mr. McGOVERN).

Mr. McGOVERN. I want to thank the gentlelady from New Hampshire for yielding me the time, and I appreciate her work on behalf of veterans and their families. I would also like to recognize my colleague from Pennsylvania, Representative ALTMIRE, for championing this important legislation.

Mr. Speaker, a little over a month ago we celebrated Veterans Day and were reminded of the men and women who have served our Nation and continue to wear our country's uniform. These brave men and women have volunteered for service with the assurances of health care and benefits for them and their families. But despite entering into this solemn pledge, far too often our government has unfairly shortchanged our veterans.

With our readiness levels considered to be reaching all-time lows, our military has been attracting recruits via monetary incentives. The Department of Defense has been offering signing bonuses to soldiers in order to entice candidates for longer enlistment periods. But in too many cases, our wounded warriors are having their payments cut short or, in some instances, entirely taken away. Soldiers who sustain a combat-related injury and cannot serve out the entirety of their enlistment period are being forced to return part of or all of their bonuses. That is flat wrong. This is a shameful practice that is unjust and in no way reflects how our Nation's heroes ought to be treated.

H.R. 3793, the Veterans Guaranteed Bonus Act, remedies this unfair practice by requiring the DOD to uphold their part of the deal and fully pay all bonuses to veterans medically discharged due to combat-related wounds. Injuries sustained on the battlefield which prevent a soldier from completing their enlistment period should not be treated like some type of breach of contract. It is reprehensible to ask our wounded warriors to pay back any bonuses afforded them, as they have already sacrificed an amount for which no price can be named.

Mr. Speaker, I stand in strong support of H.R. 3793 and encourage my colleagues to support its passage.

Mr. WILSON of South Carolina. Mr. Speaker, I reserve the balance of my time.

Ms. SHEA-PORTER. Mr. Speaker, I yield 1 minute to my friend and colleague, the gentleman from Pennsylvania (Mr. CARNEY).

Mr. CARNEY. Mr. Speaker, I, too, rise today in strong support of H.R. 3793, the Veterans Guaranteed Bonus Act. As a lieutenant commander still serving in the U.S. Navy Reserve, I know full well the hardships and dangers our troops face.

Our country has made a promise to these brave men and women; and this promise simply states that if you protect us and defend our freedom, we will provide you with the benefits you have earned. Unfortunately, that is not happening right now. These brave men and women and their families deserve their bonuses, especially if they were killed or wounded in action.

The Veterans Guarantee Bonus Act ensures our soldiers will get the money they deserve and earned, and it does so in a timely manner. I applaud Congressman ALTMIRE's leadership on this issue, and I urge all Members of Congress who care about our troops and the sacrifices they make to vote in favor of this legislation.

Mr. WILSON of South Carolina. Mr. Speaker, I reserve the balance of my time.

Ms. SHEA-PORTER. Mr. Speaker, I yield 1 minute to my friend and colleague, the gentleman from Kentucky (Mr. YARMUTH).

Mr. YARMUTH. Mr. Speaker, we have spent much of this year uncovering and correcting shortfalls in this country's treatment of our uniformed heroes. Reversing negligence is one thing, but today we address the reprehensible and willful act of docking a soldier's pay for being injured while answering the call of duty. This literally is our government adding insult to injury.

These men and women left their homes and families, they paid with their time, bodies, and health for the security of our fellow citizens. Without them, we are defenseless. Thanks to them, we are the most powerful Nation in the world.

To save the injured, that is not enough, and to ask them to pay once more is shameful at best. They volunteered to become part-time and full-time professional soldiers out of love of this country, and it is high time our leaders started to show some gratitude. We owe them the best medical care, respect, honor, forthrightness, and, at the very least, we owe them the payment they were promised.

I urge my colleagues to restore honor to our injured heroes and, in so doing, restore honor to the Nation they fight for by supporting the Veterans Guaranteed Bonus Act.

Mrs. TAUSCHER. Mr. Speaker, I rise in strong support of H.R. 3792, introduced by my good friend, Representative ALTMIRE. This bill ensures that we keep our promises to our wounded soldiers who are injured in the line of duty by guaranteeing they receive full payment of their bonuses. Department of Defense rules deny enlistees their full enlistment bonus if they don't fulfill their entire military obligation. Members who were injured in combat and forced to retire or separate from the Armed Services before the end of their service commitment are forced to pay back the Department of Defense or do not receive the remaining portion of the bonus owed to them. This important legislation corrects this injustice and ensures that service members are not being financially penalized for their injuries after their patriotic duty to and sacrifice for their country. It comforts me knowing that Democrats are being elected to Congress who know and understand the problems that their constituents face and that they aren't wasting any time introducing bills that correct them. For that I commend Representative ALTMIRE and his leadership in Congress on veterans' health care.

Ms. SCHAKOWSKY. Mr. Speaker, I rise in support of H.R. 3793, the Veterans Guaranteed Bonus Act. I am proud to cosponsor this important, bipartisan legislation which will ensure that members of the Armed Services who are discharged as a result of combat-related wounds receive the full compensation to which they are entitled.

H.R. 3793 was prompted by the recommendations of the Commission on Care for America's Returning Wounded Warriors, co-chaired by former Senator Bob Dole and former Secretary of Health and Human Services Donna Shalala. It will reverse a Department of Defense rule that unfairly penalizes wounded soldiers and prohibits them from receiving their full enlistment bonuses.

While facing the threat of a hostile enemy, our veterans have too often returned home to find more trouble: gaps in health care services, limited educational assistance, problems finding employment and a lack of support for their families. Too often, our brave military men and women find that while they have been willing to serve their country, their country is not ready to serve them. We can take an important step in reversing that trend by ensuring that veterans receive all the pay for which they are entitled.

According to Department of Defense rules, enlistees cannot receive their full enlistment bonus unless they fulfill their entire military obligation. Unfortunately, members of the Armed Services who are wounded while on active duty are not receiving their full bonuses because their service was prematurely cut short. The Veterans Guaranteed Bonus Act will correct this problem by requiring the Department of Defense to provide veterans who have been discharged due to combat-related wounds with full payment of remaining bonuses within 30 days of discharge. This will ensure that America's wounded warriors receive the full compensation promised to them.

These wounded veterans have earned their bonuses by answering the call to service. Now is the time to heed the recommendation of the Dole-Shalala Commission and fix this problem.

I would like to thank Congressman JASON ALTMIRE for introducing this legislation and Chairman BOB FILNER for prioritizing the health and well-being of the Nation's veterans.

Mr. STEARNS. Mr. Speaker, I rise today in support of this bill that corrects a desperately ill-advised regulation hurting our Nation's heroic men and women in uniform. This Defense Department policy has resulted in several veterans being denied their full bonuses or being asked to repay funds they are entitled to, simply because their injuries prevented them from serving out their full term of service.

Unfortunately, this is not a new problem. Back in October of 2004, Brian Ross of ABC News reported that Army Specialist Tyson Johnson, who was injured by an exploding mortar round in Iraq, later received a letter demanding repayment of his enlistment bonus while he was still recuperating in the hospital.

Two months ago, National Public Radio highlighted the story of Army Specialist Ronald Hinkle, who suffered a traumatic brain injury after an IED explosion cut short his military career. Not only was Specialist Hinkle owed $2,500 in back salary, but two months after NPR's story aired, he was notified that a

$3,000 enlistment bonus would not be paid because he "failed to fulfill his contract."

In yet another case, Tommy Guinn, who is a respected 14-year Army veteran, ended his term of service early when a helicopter accident in Pakistan left him paralyzed. Thank God he made it home safely to his family, but the military kept $1,000 out of his re-enlistment bonus.

This is not the treatment our returning warriors deserve. I am proud to support this bill that finally changes this flawed policy. The Veterans Guaranteed Bonus Act makes the bonus payments automatic and requires the Secretary to pay any remaining portion of bonus payments within 90 days of medical discharge. During this season of Peace on Earth and goodwill towards men, let us show goodwill to those on the frontlines protecting our peace. I urge my colleagues to support this bill.

Mr. DINGELL. Mr. Speaker, I rise today in support of H.R. 3793, the Veterans Guaranteed Bonus Act of 2007. I am proud to be a cosponsor of this legislation because I believe the men and women who bravely serve our country deserve everything they are promised when they sign up for the military. This bill ensures those forced to leave military service because of a combat injury will receive the bonuses they are entitled to. Moreover, this bill recognizes that the men and women injured in battle, in Iraq and Afghanistan, would much rather be with their brothers and sisters in the field than in a hospital nursing their wounds. The least we can do is afford them with the benefits, pay, and assistance to which they are already entitled.

I would like to thank Congressman ALTMIRE for his tireless work on this legislation. It is a fine example of how the Democratic Congress is keeping its promises to our dedicated men and women valiantly fighting on behalf of our country. I ask my colleagues to join me in supporting the Veterans Guaranteed Bonus Act.

Mr. WILSON of South Carolina. Mr. Speaker, I yield back the balance of my time.

Ms. SHEA-PORTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from New Hampshire (Ms. SHEA-PORTER) that the House suspend the rules and pass the bill, H.R. 3793, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. SHEA-PORTER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. CROWLEY. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on this legislation and to insert extraneous material thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. CROWLEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of awarding Aung San Suu Kyi the Congressional Gold Medal.

Mr. Speaker, since the founding of our country, this Congress has awarded more than 300 people and organizations the Congressional Gold Medal. We have bestowed this honor on those who have performed outstanding deeds and acts of service. Past recipients include the Dalai Lama, for his contributions to peace, nonviolence, human rights and religious understanding; Elie Wiesel, one of the foremost spokesmen of the victims of the Holocaust; the Reverend Francis X. Quinn, pastor of the Church of the Guardian Angel in New York City, who risked his own life in persuading an armed gunman to surrender to police and free an elderly couple he was holding hostage; Mother Teresa of Calcutta; and Nelson Mandela of South Africa.

□ 1445

Like those who have received this award before, Aung San Suu Kyi embodies the spirit of the Congressional

Gold Medal, dedicating her life to the cause of freedom and democracy by fighting to establish peace in her home country of Burma.

Aung San Suu Kyi was born in Burma in 1945, and 2 years after her birth her father negotiated Burma's independence from the United Kingdom and was then assassinated by his rivals that very same year.

Like father, like daughter, Ms. Suu Kyi has spent most of her life working to better her native country. Although Burma established democratic rule after becoming an independent republic in 1947, a military coup toppled the government in 1962, and since then the government has been effectively under military control.

For more than 20 years, Ms. Suu Kyi has led the effort to end military rule in her country. In 1988, she helped form the National League for Democracy, also known as the NLD, which advocates nonviolence. She is currently the NLD's general secretary. In 1990, despite being under house arrest, she led her political party to a landslide victory in parliamentary elections, gaining 82 percent of the seats in Parliament. The military junta snubbed the will of the Burmese people by nullifying the results of the election and, subsequently, ruling with an iron fist.

Throughout her political career, Aung San Suu Kyi has been in and out of house arrest, but this has only solidified her determination to secure democracy for the people of Burma. And, when offered the chance to leave the country and live in exile, she said "no," choosing instead to stand with her fellow citizens of Burma.

In August, her struggles and the struggles of the Burmese people were thrust onto the international stage when pictures of monks protesting the military junta were shown all over the world. Despite the junta's violent crackdown on dissidents, protesters have remained committed to peaceful protests, inspired by their rightful leader, Aung San Suu Kyi, who met with foreign leaders and junta officials from her home to work for a peaceful way forward after the bloody nationwide crackdown.

Their efforts prompted new calls for democracy within the global community. The United Nations' Secretary was outspoken in calling on the junta to allow for democracy to take place in Burma. And First Lady Laura Bush continues to make public statements in support of the democratic movement in Burma, and we are all grateful to the First Lady's efforts in trying to bring about democratization within Burma; yet, the nation is still under military control and Aung San Suu Kyi's fight for democratic rule continues.

Burma is a nation in the heart of southeast Asia. It is bordered by China, Laos, Thailand, Bangladesh, and India. In a region that is working to establish firm stability, Burma is a cancer whose main exports are illegal drugs, diseases like HIV and AIDS, and refugees pouring into neighboring countries.

The people of Burma and Southeast Asia deserve to live in a stable and thriving region. That is why the United States must continue to support efforts to establish peace and democratic rule in Burma. And it is my hope that by honoring Aung San Suu Kyi with the Congressional Gold Medal, we will continue to pressure the junta to release her and bring freedom and democracy to the people of Burma.

Aung San Suu Kyi's work on behalf of the Burmese people has already been recognized by many on the international stage. She has won over 60 international awards, including the Sakharov Prize for Freedom of Thought from the European Union, the Presidential Medal of Freedom in the United States, and the Nobel Peace Prize. She is also the world's only imprisoned Nobel Peace Prize recipient, spending more than 12 of the last 17 years under house arrest.

Aung San Suu Kyi and the people of Burma are leading a courageous nonviolent struggle for human rights and democracy, values we share as Americans. Her passionate, nonviolent approach and commitment to a free democratic Burma has won the hearts and minds of the people of Burma and, I dare say, the rest of the free world. Today I believe we should show her and the rest of the world that she is also in the hearts and minds of the Members of the U.S. Congress.

A number of my colleagues deserve special thanks for helping me bring this message to the floor today, including my good friend from Illinois (Mr. MANZULLO) for working with me to make this a bipartisan measure. Also, Majority Leader STENY HOYER and Financial Services Committee Chairman BARNEY FRANK and Ranking Member BACHUS deserve my thanks and our thanks in helping to ensure speedy consideration of the bill. Additionally, at the staff level, I want to thank Nien Su, Joe Pinder, Jonathan Obee and Greg Sheiowitz from my staff for their help.

Mr. Speaker, I reserve the balance of my time.

Mr. MANZULLO. Mr. Speaker, I rise today to urge my colleagues to support this very important effort to award the Congressional Gold Medal to Aung San Suu Kyi. She is one of the most honorable advocates for democracy and human rights the world will ever know. Ms. Suu Kyi is the world's only Nobel Peace Prize winner to remain a political prisoner. Ironically, the daughter of Burma's revolutionary hero is herself a captive in the very country that her father freed from colonial rule.

I want to take this opportunity to thank my colleague and good friend from New York (Mr. CROWLEY) for being a leader on such an important matter. His drive and commitment to awarding the Congressional Gold Medal to Ms. Suu Kyi is not only impressive, but it is a true testament to his character. I am honored that he reached out to me to help drive this measure.

Mr. Speaker, Burma's military junta has held Aung San Suu Kyi captive for most of the 18 years she has spent inside that country. In fact, she was placed under house arrest in 1989, after she formed the National League for Democracy. And even after that party won the decisive election in 1990, with Ms. Suu Kyi elected as Prime Minister, the junta continues to not recognize the election results and the fact that the people have spoken. Except for brief occasions, Ms. Suu Kyi has remained a prisoner. She even was not allowed to attend her husband's funeral and remains separated from her children.

In September of this year, the Burmese people held the largest peaceful protests that country has seen in the past 20 years. They protested the poor economic decisions of the junta as well as the continued denial of democratic and human rights of the Burmese people. An estimated 100,000 people marched through Rangoon, peacefully demanding the release of Aung San Suu Kyi. The world watched and hoped that this time the Saffron Revolution would lead to meaningful change. But, rather than listening to its people, the regime of Than Shwe turned its guns against the people, as they did in 1988. The U.N. Special Envoy for Human Rights reported recently that at least 31 people were killed in September and over 1,000 people remain incarcerated.

Last week, we gathered here in this House to pass a bill sponsored by two champions of freedom, my good friends Mr. LANTOS, chairman, and Ms. ROS-LEHTINEN, ranking member of the House Foreign Affairs Committee. The Block Burmese JADE Act of 2007 can be an important tool to add even more pressure to the regime to change its ways, particularly if our government encourages more countries to adopt similar economic sanctions. I note that the European Union is following a similar approach in response to the killings. Even Burma's immediate neighbors have issued strong statements condemning the massacre.

Mr. Speaker, the American people are outraged and disgusted by the severe use of force on the protestors and the continued detention of Aung San Suu Kyi. Shortly after the protest, the Subcommittee on Asia, Pacific, and Global Environment, on which I serve as ranking Republican member, with Congressman ENI FALEOMAVAEGA as chairman, held a hearing on the situation in Burma. We heard dramatic testimony from experts within the administration and from nongovernmental organizations. All the witnesses agree that Burma's fall from a prosperous country to pariah state was a direct consequence of the dictatorship.

So that is why we are here today, to state for the record that it is time the military junta recognize the will of the Burmese people, and of most countries of the world, and open the door for true reconciliation. By awarding Ms. Suu Kyi the Congressional Gold Medal, we Americans send a strong message that totalitarianism in Burma needs to come to an end.

I urge all Members to support H.R. 4286 so that we can voice our full support for Burma's first daughter and for all the people of Burma. This will remind the military junta of the American people's unwavering support for Aung San Suu Kyi. We need to pass the bill so there can be no mistaking our support.

Mr. Speaker, I reserve the balance of my time.

Mr. CROWLEY. Mr. Speaker, I yield such time as the gentleman may consume to my good friend, ENI FALEOMAVAEGA.

Mr. FALEOMAVAEGA. Mr. Speaker, I want to commend and thank the gentleman from New York for his sponsorship of this important legislation. I also want to commend my good friend, the ranking member of our Asia, Pacific Subcommittee, the gentleman from Illinois (Mr. MANZULLO) for allowing bipartisanship of this bill.

Mr. Speaker, I rise in full support of H.R. 4286, a bill to award Ms. Daw Aung San Suu Kyi the Congressional Gold Medal for her dedication, her service, and unwavering commitment and courage to stand up against the forces of military rule on the people of Burma. For over 10 years now, Ms. Daw Aung San Suu Kyi has been placed under house arrest by the military regime of Burma.

Mr. Speaker, I will submit that there are a lot of complications here on the situation with Burma. Burma continues to exist under very difficult conditions whereby seven to eight ethnic factions are constantly competing for the control of that country. In fact, it was even so bad that even the British could not control them under their colonial rule. As such, the military organization now claims, and continues to claim, that it is the only group or organization that is keeping the country together and, without the military, Burma would be in a state of civil war.

Mr. Speaker, I want to say that that is the very heart and problem that we face with Burma today; the fact that there are about seven to eight different ethnic groups within the country that could never be controlled by one group. And I want to say that, as the recipient of the Nobel Peace Prize, Ms. Daw Aung San Suu Kyi continues to make every effort to work with the military regime to see the possibility of democracy ever to return to Burma.

It is my sincere hope that, in the coming weeks and months, Ms. Daw Aung San Suu Kyi and her military counterparts will work out a compromise solution, hopefully, to establish a democratic form of government for the people of Burma.

Mr. Speaker, I want to again commend my good friend, the gentleman from New York, for his authorship of this bill and, most appropriately, to honor this great leader Ms. Daw Aung San Suu Kyi with the Congressional Gold Medal. I urge my colleagues to support this legislation.

Mr. MANZULLO. Mr. Speaker, I yield back the balance of my time.

Mr. CROWLEY. I thank once again Mr. MANZULLO for his support and efforts in helping to bring this legislation in a bipartisan spirit to the floor today. I want to thank my friend again Mr. FALEOMAVAEGA for his comments and work as well.

There is no question that the situation in Burma is complex. One only needs to read today's Washington Post to understand again the complexity of this in terms of the ethnic diversity within Burma. Also, in reading that article today, one could also understand that there's incredible turmoil within that country where there are more child soldiers than any other country today; where every day, daily, young boys are coerced and enslaved by conditions into becoming soldiers as young boys and children. There are over 2,000 political prisoners that we know of today in Burma. And that same article today alluded to the destruction of villages in Burma. Let me just point out that over 200 ethnic minority villages have been destroyed by the military junta, forcing 1.5 million people to flee their homes, some to flee the country, in a country where rape is used as a weapon by the military regime against the ethnic minorities within that country, documented and well known.

Aung San Suu Kyi, if she receives this award this year, will receive the award the same year that we just gave this to the Dalai Lama, the same award, the Gold Medal. She is known in Burma and throughout the world as the Nelson Mandela of Burma. She is known as the Gandhi of Burma.

□ 1500

I think it is appropriate that this year she share the limelight in some way with the Dalai Lama who himself has brought attention to the cause of the people of his own land.

Let me close by saying just one other point about Aung San Suu Kyi and the sacrifices she has had to make, giving up of her personal freedom and opportunity to live in Great Britain, India or elsewhere. She has turned that down to be with her own people who are suffering to the point where she is not permitted to see her family members because of her involvement in human rights activities.

In 1999, when her husband was dying, the military regime refused to allow him to live with her during that time. She had to spend those terrible days in isolation from the person she loved more than anyone else, her dying husband.

It is also important to note that Aung San Suu Kyi received the Nobel Peace Prize. But quite frankly, that was done in 1991, a very long time ago; some 16 years ago she received that award. So I believe that the work that the administration is doing, the work that the First Lady, and again I want to congratulate First Lady Laura Bush for her continued effort to bringing light and attention to this particular issue, I think it is having an effect on the world. I think more of the world is interested in what is happening in Burma and paying attention to it.

I would also like to take this time to ask our friends in India to play more of an active role in bringing about a constructive solution to the issues of Burma. And again to China, a country that I believe has continued to turn its face away from atrocities, no longer should China turn her face away from what is happening in Burma. China, India, Bangladesh, all of the countries in the region need to be concerned about what is happening in Burma today. Again, it is about what makes America America, standing up for those countries that stand up for democracy and human rights.

Mr. Speaker, I am pleased to present this legislation to the House floor and hope my colleagues support it.

Ms. SCHAKOWSKY. Mr. Speaker, today we award a Congressional Gold Medal to Daw Aung San Suu Kyi, in recognition of her courageous commitment to peace, nonviolence, human rights, and democracy in Burma.

Mr. Speaker, the images we have seen from Burma over the past year have been nothing short of horrifying. Soldiers firing automatic weapons into unarmed crowds and the charred body of a Buddhist monk, slain, lying face down in a pool of water stained with blood, are just two examples of the oppression that continues to plague Burma.

In the face of this horror, a hero has emerged. For close to 20 years, Nobel Laureate Aung San Suu Kyi has continued to fight for freedom and equality in Burma in the face of tremendous adversity. She has been arrested on numerous occasions, held under house arrest, and even had an attempt made on her life. In spite of this, Suu Kyi continues to speak out and to urge democracies throughout the world to come to Burma's aid. Her message is a simple one: "Use your liberty to promote ours."

Today, as we award the Congressional Gold Medal to Suu Kyi, we stand with her to demand democratic change in Burma.

I believe that while change will not come overnight to Burma, it will come. And when it does, it will be my great pleasure to join my colleagues in welcoming Aung San Suu Kyi to Washington so that we can thank her in person for her historic and courageous stand for liberty.

Mr. SMITH of New Jersey. Mr. Speaker, like so many of my colleagues, I am proud to be an original cosponsor of H.R. 4286, to award a Congressional Gold Medal to that heroine of the Burmese people and the world, Daw Aung San Suu Kyi.

It is fitting for Ms. Suu Kyi to receive this, the highest and most distinguished civilian award we have to offer. She is a courageous leader, a former Nobel Peace Prize recipient who has spent 12 of the past 18 years behind bars. For what? For daring to advocate for a peaceful, democratic system for Burma, instead of violent, military rule.

The military refuses to recognize the will of the Burmese people—made exceedingly clear in past elections, and most recently in the demonstrations we all saw this Fall. The people plead for human rights and an end to the junta's power. Instead, these thugs have cracked down even harder with their customary persecution and bloodshed.

The Congressional Medal of Honor was originally awarded to military leaders for achievement in battle. Ms. Suu Kyi and the Burmese people are currently waging their own battle—a peaceful one—based on democratic ideals that all Americans share with them. Let's honor Ms. Suu Kyi for this peaceful struggle, and send a message to her brutal captors and to the world, that we stand with her and her people.

Mr. CROWLEY. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. YARMUTH). The question is on the motion offered by the gentleman from New York (Mr. CROWLEY) that the House suspend the rules and pass the bill, H.R. 4286.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. CROWLEY. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

EUNICE KENNEDY SHRIVER NATIONAL INSTITUTE OF CHILD HEALTH AND HUMAN DEVELOPMENT

Mr. BUTTERFIELD. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2484) to rename the National Institute of Child Health and Human Development as the Eunice Kennedy Shriver National Institute of Child Health and Human Development.

(2) The National Institute of Child Health and Human Development has made unparalleled contributions to the advancement of child health and human development, including significant efforts to—

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from North Carolina (Mr. BUTTERFIELD) and the gentleman from Nebraska (Mr. TERRY) each will control 20 minutes.

The Chair recognizes the gentleman from North Carolina.

GENERAL LEAVE

Mr. BUTTERFIELD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend and extend their remarks and include extraneous material on the Senate bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

Mr. BUTTERFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I come to the floor today to express my strong support for S. 2484, a bill to rename the National Institute of Child Health and Human Development as the Eunice Kennedy Shriver National Institute of Child Health and Human Development. I am proud to lend my support to a bill aimed at honoring such a compassionate and wonderful human being.

Often we miss out on the opportunity to honor people while they are with us. Today, I hope my colleagues on both sides of the aisle will join with me in seizing the moment and commemorating Eunice Kennedy Shriver, a tireless advocate for children. While Eunice Kennedy Shriver is perhaps best known for her efforts on behalf of those affected by mental retardation and for the creation of the Special Olympics, she has also been a leader on many other fronts. In particular, it is wholly appropriate that we name the National Institute of Child Health and Human Development after Eunice Kennedy Shriver, as she was instrumental in establishing the institute just over 45 years ago during the administration of her brother, John Fitzgerald Kennedy.

In the nearly half a century since its founding, the institute has helped make great strides in the advancement of child health and human development, including dramatically reducing sudden infant death syndrome and infant mortality.

One of the goals of the institute is to ensure that children have the opportunity to reach their full potential and live healthy and productive lives. Her commitment and dedication to helping children meet these goals has been unwavering.

Therefore, Mr. Speaker, it is important that we, before it is too late, that we honor this great American, Eunice Kennedy Shriver, today by renaming the National Institute of Child Health and Human Development after her. I support this good bill and urge all of my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Mr. TERRY. Mr. Speaker, I yield myself such time as I may consume.

Today I rise in support of Senate 2484, an act to rename the National Institute of Child Health and Human Development as the Eunice Kennedy Shriver National Institute of Child Health and Human Development.

Ms. Shriver, along with her husband Sargent, was and is a champion for young people who suffer and strive under the extra load of developmental disabilities. Prior to the creation of the NICHD more than 40 years ago, many scientists were of the mind that money would be better off spent studying adult diseases, effectively shortchanging the younger populations with these conditions.

NICHD was established in 1962 under the Kennedy administration and many credit Ms. Shriver's tenacity. Ms. Shriver never stopped being a spokesperson and advocate, and the institute she helped found has never stopped benefiting from her determination and her spirit.

I would like to confer with my colleagues on the other side of the aisle to determine if it is their understanding as well that nothing in this bill will change any of the authorities that the NIH Reform Act of 2006 provided the NIH and the director of the NIH. Specifically, nothing in this act will change any authorities of the Scientific Management Review Board or any other provisions provided in section 401 of that act. Is that your understanding as well?

I yield to the gentleman from North Carolina.

Mr. BUTTERFIELD. I want to thank the distinguished gentleman from Nebraska (Mr. TERRY). You are absolutely correct. This legislation is only meant to change the name of the single institute within NIH and to have no other effect, no other effect on the NIH or its organization. We do not intend to change or even signal any other change at the NIH.

Mr. TERRY. Well, I thank the gentleman from North Carolina for that.

Mr. Speaker, I yield back the balance of my time.

Mr. BUTTERFIELD. Mr. Speaker, I urge my colleagues to vote "yes" on this legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from North Carolina (Mr. BUTTERFIELD) that the House suspend the rules and pass the Senate bill, S. 2484.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

GRANTING CONSENT TO INTERNATIONAL EMERGENCY MANAGEMENT ASSISTANCE MEMORANDUM OF UNDERSTANDING

Mr. CROWLEY. Mr. Speaker, I move to suspend the rules and pass the Senate joint resolution (S.J. Res. 13) granting the consent of Congress to the International Emergency Management Assistance Memorandum of Understanding.

The Clerk read the title of the Senate joint resolution.

The text of the Senate joint resolution is as follows:

S.J. RES. 13

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONGRESSIONAL CONSENT.

Congress consents to the International Emergency Management Assistance Memorandum of Understanding entered into between the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut and the Provinces of Quebec, New Brunswick, Prince Edward Island, Nova Scotia and Newfoundland. The compact is substantially as follows:

"Article I—International Emergency Management Assistance Memorandum of Understanding Purpose and Authorities

"The International Emergency Management Assistance Memorandum of Understanding, hereinafter referred to as the 'compact,' is made and entered into by and among such of the jurisdictions as shall enact or adopt this compact, hereinafter referred to as 'party jurisdictions.' For the purposes of this agreement, the term 'jurisdictions' may include any or all of the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut and the Provinces of Quebec, New Brunswick, Prince Edward Island, Nova Scotia and Newfoundland, and such other states and provinces as may hereafter become a party to this compact.

"The purpose of this compact is to provide for the possibility of mutual assistance among the jurisdictions entering into this compact in managing any emergency or disaster when the affected jurisdiction or jurisdictions ask for assistance, whether arising from natural disaster, technological hazard, manmade disaster or civil emergency aspects of resources shortages.

"This compact also provides for the process of planning mechanisms among the agencies responsible and for mutual cooperation, including, if need be, emergency-related exercises, testing, or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party jurisdictions or subdivisions of party jurisdictions during emergencies, with such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of emergency forces by mutual agreement among party jurisdictions.

"Article II—General Implementation

"Each party jurisdiction entering into this compact recognizes that many emergencies may exceed the capabilities of a party jurisdiction and that intergovernmental cooperation is essential in such circumstances. Each jurisdiction further recognizes that there will be emergencies that may require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency because few, if any, individual jurisdictions have all the resources they need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

"The prompt, full, and effective utilization of resources of the participating jurisdictions, including any resources on hand or available from any other source that are essential to the safety, care, and welfare of the people in the event of any emergency or disaster, shall be the underlying principle on which all articles of this compact are understood.

“On behalf of the party jurisdictions participating in the compact, the legally designated official who is assigned responsibility for emergency management is responsible for formulation of the appropriate inter-jurisdictional mutual aid plans and procedures necessary to implement this compact, and for recommendations to the jurisdiction concerned with respect to the amendment of any statutes, regulations, or ordinances required for that purpose.

“Article III—Party Jurisdiction Responsibilities

“(a) Formulate Plans and Programs.—It is the responsibility of each party jurisdiction to formulate procedural plans and programs for inter-jurisdictional cooperation in the performance of the responsibilities listed in this section. In formulating and implementing such plans and programs the party jurisdictions, to the extent practical, shall—

“(1) review individual jurisdiction hazards analyses that are available and, to the extent reasonably possible, determine all those potential emergencies the party jurisdictions might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster or emergency aspects of resource shortages;

“(2) initiate a process to review party jurisdictions' individual emergency plans and develop a plan that will determine the mechanism for the inter-jurisdictional cooperation;

“(3) develop inter-jurisdictional procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans;

“(4) assist in warning communities adjacent to or crossing jurisdictional boundaries;

“(5) protect and ensure delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services and resources, both human and material to the extent authorized by law;

“(6) inventory and agree upon procedures for the inter-jurisdictional loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness; and

“(7) provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances, over which the province or state has jurisdiction, that impede the implementation of the responsibilities described in this subsection.

“(b) Request Assistance.—The authorized representative of a party jurisdiction may request assistance of another party jurisdiction by contacting the authorized representative of that jurisdiction. These provisions only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request must be confirmed in writing within 15 days of the verbal request. Requests must provide the following information:

“(1) A description of the emergency service function for which assistance is needed and of the mission or missions, including but not limited to fire services, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue.

“(2) The amount and type of personnel, equipment, materials, and supplies needed and a reasonable estimate of the length of time they will be needed.

“(3) The specific place and time for staging of the assisting party's response and a point of contact at the location.

“(c) Consultation Among Party Jurisdiction Officials.—There shall be frequent consultation among the party jurisdiction officials who have assigned emergency management responsibilities, such officials collectively known hereinafter as the International Emergency Management Group, and other appropriate representatives of the party jurisdictions with free exchange of information, plans, and resource records relating to emergency capabilities to the extent authorized by law.

“Article IV—Limitation

“Any party jurisdiction requested to render mutual aid or conduct exercises and training for mutual aid shall undertake to respond as soon as possible, except that it is understood that the jurisdiction rendering aid may withhold or recall resources to the extent necessary to provide reasonable protection for that jurisdiction. Each party jurisdiction shall afford to the personnel of the emergency forces of any party jurisdiction, while operating within its jurisdictional limits under the terms and conditions of this compact and under the operational control of an officer of the requesting party, the same powers, duties, rights, privileges, and immunities as are afforded similar or like forces of the jurisdiction in which they are performing emergency services. Emergency forces continue under the command and control of their regular leaders, but the organizational units come under the operational control of the emergency services authorities of the jurisdiction receiving assistance. These conditions may be activated, as needed, by the jurisdiction that is to receive assistance or upon commencement of exercises or training for mutual aid and continue as long as the exercises or training for mutual aid are in progress, the emergency or disaster remains in effect or loaned resources remain in the receiving jurisdiction or jurisdictions, whichever is longer. The receiving jurisdiction is responsible for informing the assisting jurisdictions of the specific moment when services will no longer be required.

“Article V—Licenses and Permits

“Whenever a person holds a license, certificate, or other permit issued by any jurisdiction party to the compact evidencing the meeting of qualifications for professional, mechanical, or other skills, and when such assistance is requested by the receiving party jurisdiction, such person is deemed to be licensed, certified, or permitted by the jurisdiction requesting assistance to render aid involving such skill to meet an emergency or disaster, subject to such limitations and conditions as the requesting jurisdiction prescribes by Executive order or otherwise.

“Article VI—Liability

“Any person or entity of a party jurisdiction rendering aid in another jurisdiction pursuant to this compact are considered agents of the requesting jurisdiction for tort liability and immunity purposes. Any person or entity rendering aid in another jurisdiction pursuant to this compact are not liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article does not include willful misconduct, gross negligence, or recklessness.

“Article VII—Supplementary Agreements

“Because it is probable that the pattern and detail of the machinery for mutual aid among 2 or more jurisdictions may differ from that among the jurisdictions that are party to this compact, this compact contains elements of a broad base common to all jurisdictions, and nothing in this compact precludes any jurisdiction from entering into supplementary agreements with another jurisdiction or affects any other agreements already in force among jurisdictions. Supplementary agreements may include, but are not limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, public utility, reconnaissance, welfare, transportation and communications personnel, equipment, and supplies.

“Article VIII—Workers' Compensation and Death Benefits

“Each party jurisdiction shall provide, in accordance with its own laws, for the payment of workers' compensation and death benefits to injured members of the emergency forces of that jurisdiction and to representatives of deceased members of those forces if the members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own jurisdiction.

“Article IX—Reimbursement

“Any party jurisdiction rendering aid in another jurisdiction pursuant to this compact shall, if requested, be reimbursed by the party jurisdiction receiving such aid for any loss or damage to, or expense incurred in, the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with those requests. An aiding party jurisdiction may assume in whole or in part any such loss, damage, expense, or other cost or may loan such equipment or donate such services to the receiving party jurisdiction without charge or cost. Any 2 or more party jurisdictions may enter into supplementary agreements establishing a different allocation of costs among those jurisdictions. Expenses under article VIII are not reimbursable under this section.

“Article X—Evacuation

“Each party jurisdiction shall initiate a process to prepare and maintain plans to facilitate the movement of and reception of evacuees into its territory or across its territory, according to its capabilities and powers. The party jurisdiction from which the evacuees came shall assume the ultimate responsibility for the support of the evacuees, and after the termination of the emergency or disaster, for the repatriation of such evacuees.

“Article XI—Implementation

“(a) This compact is effective upon its execution or adoption by any 2 jurisdictions, and is effective as to any other jurisdiction upon its execution or adoption thereby: subject to approval or authorization by the United States Congress, if required, and subject to enactment of provincial or State legislation that may be required for the effectiveness of the Memorandum of Understanding.

“(b) Any party jurisdiction may withdraw from this compact, but the withdrawal does not take effect until 30 days after the governor or premier of the withdrawing jurisdiction has given notice in writing of such withdrawal to the governors or premiers of all other party jurisdictions. The action does not relieve the withdrawing jurisdiction from obligations assumed under this compact prior to the effective date of withdrawal.

"(c) Duly authenticated copies of this compact in the French and English languages and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party jurisdictions.

"Article XII—Severability

"This compact is construed to effectuate the purposes stated in Article I. If any provision of this compact is declared unconstitutional or the applicability of the compact to any person or circumstances is held invalid, the validity of the remainder of this compact and the applicability of the compact to other persons and circumstances are not affected.

"Article XIII—Consistency of Language

"The validity of the arrangements and agreements consented to in this compact shall not be affected by any insubstantial difference in their form or language as may be adopted by the various states and provinces.

"Article XIV—Amendment

"This compact may be amended by agreement of the party jurisdictions.".

SEC. 2. INCONSISTENCY OF LANGUAGE.

The validity of the arrangements consented to by this Act shall not be affected by any insubstantial difference in their form or language as adopted by the States and provinces.

SEC. 3. RIGHT TO ALTER, AMEND, OR REPEAL.

The right to alter, amend, or repeal this Act is hereby expressly reserved.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. CROWLEY) and the gentleman from Texas (Mr. POE) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. CROWLEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the joint resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. CROWLEY. Mr. Speaker, I rise in strong support of this resolution, and I yield myself such time as I may consume.

Mr. Speaker, in January 1998 a devastating ice storm struck the northern New England border region. Damage to the region's infrastructure was considerable, and millions spent days in the dark on both sides of the border between the U.S. and Canada. When the lights came back on, there were over 30 dead.

This tragedy resulted in an effort in cross-border cooperation that has yielded the mutual assistance compact we have before us today. The International Emergency Management Assistance Memorandum of Understanding provides a legal framework for cooperation between the States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont, with the Canadian Provinces of Quebec, New Brunswick, Prince Edward Island, Nova Scotia, and Newfoundland and Labrador.

The compact allows for management of any emergency or disaster arising from natural disaster, technological disaster, man-made disaster, or civil emergency. It seeks to regularize plan and program formulation; assist in warning communities adjacent to or crossing jurisdictional boundaries; ensure critical delivery of services as well as medicines, water, food, energy and fuel; and to clarify search and rescue protocols and issues related to evacuation.

The Senate has already passed their version of the resolution; and passage today in the House, as required by the Constitution, will permit this compact to come into effect.

It is worth noting, as well, that several years ago the Senate passed a similar resolution, but the House failed to act and the moment faded. We must not let this happen again. This is the kind of international cooperation that makes it safer and stronger.

I thank the gentleman from Vermont (Mr. WELCH), particularly, for his strong leadership on this important compact and for his diligence in trying to ensure greater cooperation with Canada on emergency issues. This resolution deserves our support, and I urge all of my colleagues to join me in doing so.

Mr. Speaker, I reserve the balance of my time.

Mr. POE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to join my colleagues today in support of Senate Joint Resolution 13. The States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut have negotiated an International Management Emergency Assistance Memorandum of Understanding with the Canadian provinces of Quebec, New Brunswick, Prince Edward Island, Nova Scotia, and Newfoundland.

This MOU creates a framework for cooperation among the participating jurisdictions when they face natural disasters or other emergencies that they have in common. Article I, section 10 of our Constitution requires that any agreement between States and foreign powers obtain the consent of Congress. That is what this legislation will grant.

All of us know too well the significant resources needed to overcome a disaster, whether natural or man-made.

I applaud the initiative taken by these States and their Canadian neighbors to proactively plan for the resource management and mutual assistance that may become necessary in unexpected times of crisis.

As confirmed by the Congressional Budget Office, this resolution will not result in any cost to the Federal Government or impose any costs on State or local governments. I support this measure and urge adoption thereof.

Mr. Speaker, I reserve the balance of my time.

Mr. CROWLEY. Mr. Speaker, I am delighted to yield such time as he may consume to the gentleman from Vermont and the sponsor of this legislation, PETER WELCH.

Mr. WELCH of Vermont. I thank the gentleman from New York.

There is a reason, Mr. Speaker, that all of the Senators from the New England States, all of the Members of Congress from the New England States join in support of this resolution. Their legislatures and their governors all support this, as well as the legislatures and the premiers in the provinces of Canada that have been mentioned. That is because we need each other in a moment of weather disaster.

As the gentleman from New York (Mr. CROWLEY) referred to, there was a severe ice storm in 1998 and this response that we had in those New England States, with the help of the provinces, was helpful to alleviate some of the suffering, but not all. This is fundamentally important in order that we be able to cooperate to the mutual benefit of folks in the New England region and in the Canadian provinces. I want to express my gratitude to the Foreign Affairs Committee, my gratitude to my friend from Texas. I am sorry that Texas isn't part of this because then we would really be in good shape.

☐ 1515

And I want to thank Mr. CROWLEY and the members of the leadership staff and the staff of the Foreign Relations Committee for moving this forward on such an expedited basis.

The more we can cooperate to help each other, the better all of us are going to be. And as my friend from Texas would say, "That's just the way it is."

We must all do our best to prepare for the most serious emergencies that can harm our communities. As those who live in the Northeast know, extreme weather is not uncommon in New England, or in the eastern provinces of Canada. Together with our Canadian neighbors, we have endured catastrophic blizzards and ice storms over the years that have closed roads and highways, shut down power for extended periods, and stranded travelers and rural residents for days, or longer. During these events, we turn to our first responders and our emergency management professionals to provide assistance and secure public safety no matter how grave the danger, and no matter how challenging the task.

The IEMAMOU compact was created in response to the devastating ice storm of 1998. In January of that year, an unprecedented 3-day ice storm paralyzed portions of the northern New England States and the adjacent Canadian provinces, causing massive damage to the electrical and transportation infrastructure. Millions were left in the dark for days and even weeks, leaving more than 30 dead and shutting down normal activities in large cities like Montreal and Ottawa. Following this devastation, the governors and premiers of those regions affected recognized the need for greater cross-border emergency cooperation, and they directed their emergency management leaders to develop and create a memorandum of understanding on these issues that benefit all parties north and south of the border. The IEMAMOU compact was the result of this collaborative, international process, and now stands as a model compact for cross-border mutual emergency assistance.

The compact allows for international sharing of resources and expertise in times of extreme emergency or disaster. The IEMAMOU compact meets these needs with a thoughtful and forward-looking outline of how to address issues that face first responders and their managers in times of cross-border emergency.

This international compact provides a legal framework for cooperation and mutual assistance between the States of Vermont, New Hampshire, Maine, Massachusetts, Rhode Island, and Connecticut, and the Canadian provinces of Quebec, New Brunswick, Prince Edward Island, Nova Scotia, and Newfoundland and Labrador. The compact requires each participating member, whether State or province, to formulate plans and programs to facilitate international and interstate or provincial cooperation in case of natural or manmade disaster, technological hazard, or civil emergency.

All members of this compact have agreed to its terms and join in requesting Congress's consent for the agreement. Vermont, New Hampshire, Maine, Massachusetts, Rhode Island, and Connecticut have joined the IEMAMOU compact, and many of these States have passed legislation adopting the compact under State law. The premiers of Quebec, Prince Edward Island, Labrador, Nova Scotia, and New Brunswick have similarly approved of the compact. The IEMAMOU compact has been functioning in principle for more than 5 years, as the emergency management leaders from each member State and province meet twice a year. Planning among the constituent members of the compact is also ongoing. This compact works well and should be supported by Congress.

The IEMAMOU compact is an international agreement between States and a foreign power, and it cannot have the full force of law without the formal approval of Congress. The U.S. Constitution requires that "[n]o state shall . . . enter into any Agreement or Compact with another State, or with a foreign Power" unless with the "consent of Congress." U.S. Const. Art. 1, §10, cl. 3. The joint resolution introduced today provides this necessary consent, and would give legal force to the compact. Congressional approval of this compact would also provide jurisdiction for Federal courts to resolve any disputes under the agreement.

This joint resolution is vitally important to the New England States and our Canadian provinces to the north. Congress should support their cooperative, international leadership in creating and implementing this unique emergency management compact. The Governor of Vermont supports this joint resolution as do the leaders of the North East States Emergency Consortium, which represents each of the New England States in the compact.

It is time to take action and pass this joint resolution without further delay. The IEMAMOU compact provides invaluable international cooperation and mutual assistance in times of natural disaster and extreme emergency. This compact works well for New England and the eastern Canadian provinces, and it stands as a model for emergency management planning and cooperation across this country.

Mr. POE. Mr. Speaker, I want to commend my friend PETER WELCH from Vermont for his comments, and mainly for sponsoring this cross-border initiative showing that the New England States and some provinces in Canada can get along together for cooperation of mutual concern. And I, too, am sorry that Texas is not a part of this initiative as well.

Mr. Speaker, I yield back the balance of my time.

Mr. CROWLEY. Mr. Speaker, I want to thank my colleague as well, Mr. WELCH from Vermont, for sponsoring this.

Two hundred thirty-two years ago, during the battle of Quebec, there was hostility between the residents of Quebec and the struggling colonists that were striving for their freedom from Great Britain. We've come a long way in 232 years. It's about time we get a protocol in place that ensures that lives are saved during times of disaster, whether manmade or natural. I commend my friend again for sponsoring this legislation, and I urge its adoption.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. CROWLEY) that the House suspend the rules and pass the Senate joint resolution, S.J. Res. 13.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate joint resolution was passed.

A motion to reconsider was laid on the table.

MOURNING THE PASSING OF CONGRESSMAN HENRY J. HYDE

Mr. CROWLEY. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 843) mourning the passing of Congressman Henry J. Hyde and celebrating his leadership and service to the people of Illinois and the United States of America, as amended.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. CROWLEY. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks on the subject matter of this resolution, H. Res. 843.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. CROWLEY. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I'd like to recognize the service of our former colleague, a Member of the House of Representatives, Mr. Hyde, who served in the House of Representatives from January 3, 1975, to January 3, 2007, and served as chairman of the Judiciary Committee, as well as chairman of the International Relations Committee.

Mr. Hyde's life was a good, long life and a complex life as well. Mr. Hyde graduated from high school and earned a scholarship to play basketball at Georgetown University. He participated in the 1942 NCAA basketball tournament. As a college basketball fan, I think that may be the height of his career. But that was only the beginning.

He went on to serve valorously in the United States Navy from 1944 to 1946 in the South Pacific, New Guinea, the Guinean Gulf, and continued in the Reserves well into the 1960s.

Mr. Hyde was elected to serve his constituents in Illinois' Sixth Congressional District, I think where he certainly contributed mightily and tremendously to the advancement of the Congress, as well as our country.

I had the great opportunity to serve with Henry Hyde as a member of the International Relations Committee, a somewhat junior member, then a mid bench member. I always enjoyed the banter with the chairman; quick-witted, and incredibly intelligent, steeped in history, understood every bill that was before him, and understood where he stood on those issues.

And although Mr. Hyde and I did not agree on every political issue, I admired his tenacity. I admired his demeanor. I admired the way in which he handled himself, both in committee, on the floor, and as a person.

I also had the opportunity to travel with Mr. Hyde on a trip to a country that is near and dear to both himself and myself, the country of our ancestry, Ireland. I know that he was proud of the work of the advancement of peace and justice in Ireland, in all of Ireland, and worked mightily towards that end.

But Mr. Hyde had numerous accomplishments. And I'll leave that to my colleagues on the other side of the aisle to advance today. But I would urge the adoption of this resolution, as amended.

Mr. Speaker, I reserve the balance of my time.

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, I rise in support of H. Res. 843, mourning the passage of Congressman Henry Hyde and celebrating his leadership and service to the people of Illinois and the United States of America.

And at this time I would like to recognize for 5 minutes the gentleman from Illinois (Mr. ROSKAM), who is the prime sponsor of this legislation, and the successor to Henry Hyde in that seat from the great State of Illinois.

Mr. ROSKAM. Mr. Speaker, a special word of thanks to the majority leader, who worked hard to get this resolution on the floor, and to him I'm deeply grateful.

You know, there's been a lot said about Henry Hyde over the past several weeks, particularly since his passing and in the weeks prior to that when he received the Medal of Freedom from President Bush in a White House ceremony that he was unable to attend due to his illness.

And we've often focused in those comments on his conduct here in the House of Representatives, Mr. Speaker, but I would like to give just a little bit of a glimpse of what he was like back at home, because the same shadow that was cast here in the Capitol was similarly cast in the Sixth District of Illinois, which is the west and northwest suburbs of Chicago. There, he was Henry Hyde who would be routinely introduced at various gatherings, and in partisan gatherings he would oftentimes get a standing ovation from a very grateful group of Republicans. But all across the aisle, both sides of the aisle, people were able to approach him, and they would often think of him, really, as an alderman for that area, or almost a city councilman. And by that I don't mean anything to negate his status, but simply, his accessibility as a Member of Congress, which was something really to behold. You could routinely find him in his district. He would fly back and forth every week into O'Hare Airport, which was right in the middle of his Sixth District of Illinois.

And I think that he was one of those people that, when you think about Congressmen, you think about the very best and the very brightest. And I would submit that when, from 1974 all the way up through his retirement, when people contemplated Henry Hyde, he was contemplated in a way that was a positive reflection on this institution. When people thought of him, they thought, You know what? That's the way a congressman is supposed to be. That's the way a congressman is supposed to handle himself. That's the way a congressman is supposed to interact with people on his own side of the aisle and, even more importantly, with people on the other side of the aisle.

His legacy is one, and his name will inextricably be linked with the pro-life movement. He was a passionate advocate, as we all know, for the unborn.

He did his duty in the impeachment of President Clinton. But those things, while they're formative, and they're very interesting, and they are who he was, sort of the lead gets buried if you stop the Henry Hyde story there, because he was someone who was also very active and a partner in trying to reach out to come up with the funds and the support to take on HIV/AIDS globally.

And he was far ahead of his time. He was one who broke from his ranks and voted in favor of the Family and Medical Leave Act, much to the chagrin, at the time, of many in his party who subsequently have come to see the light of that courage of his convictions.

And so, Mr. Speaker, in closing, this is a time of reflection and it's a time of honoring the legacy of a great man. And I think the words of Paul Johnson, a great British historian, come to mind when he wrote a history of the American people. And the British historian Johnson said, to paraphrase, he said this: All kinds of factors go into how history comes out. Just all kinds of things. But without question, the single most important factor are the people who are in charge at the time.

And I think all of us today rise and acknowledge that Henry J. Hyde and the oath that he took and the way in which he carried himself in office was a great credit, not only to this institution, but a great credit to our country.

Mr. CROWLEY. Mr. Speaker, I'm pleased to yield once again to my good friend from the territory of Samoa, Representative ENI FALEOMAVAEGA, for as much time as he may consume.

Mr. FALEOMAVAEGA. Mr. Speaker, again I want to thank my good friend from New York for yielding me such time to say a few words in honoring this gentleman.

As I'm sure that I did not want to miss this opportunity to stand here on the floor and to express my feelings of this great American, as I'm sure there may have been a Special Order already taken where Members could speak and giving their sense of tribute to Congressman Henry Hyde.

I thank the gentleman from Illinois for his sponsorship of this bill, and want to thank the members of the Illinois delegation for their sponsorship of this legislation to honor my good friend and dear colleague, the late Congressman Henry J. Hyde, whom I've had the distinct privilege of serving with him when he served as chairman of the House Committee on International Relations.

Mr. Speaker, Chairman Hyde and I did not always agree on the issues and bills that were brought before our committee, but one thing that I valued tremendously concerning the character of this great leader, and that is he respected the opinions of others, even though they may differ from his.

Chairman Hyde was a great leader, a man of principle, and a true patriot and a statesman. And above all, Mr. Speaker, he was my friend.

I'm reminded of a Chinese proverb, Mr. Speaker, and the proverb states, "There are many acquaintances but very few friends."

Congressman Henry Hyde was my friend. Have a good journey, Henry.

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, one of the most fortunate things I've had happen in my life is that I was able to serve for 12 years with Henry Hyde; 10 years during the first period of time I served, and then the first 2 years of my return to the Congress. For 10 of those years, well, all 12 of those years, I served on the Judiciary Committee with him, and he was, in my mind, a great man.

We all have our heroes, I suppose, in life. My dad's a hero of mine. Ronald Reagan was a hero of mine. Mother Theresa is a hero of mine. And in this House, Henry Hyde was and continues to be a hero of mine.

Recently, we have had a lot of debate and discussion in the national press about the appropriate place for religion and religious values in public debate. The speech given by the former Governor of Massachusetts, Governor Romney, has been called the speech reminding people of the speech given by another gentleman from Massachusetts some 40 years ago, President John F. Kennedy. And in their own way, they were both outstanding speeches.

But one of the speeches I recall on the same subject was given by Henry Hyde. It was the speech he gave at my alma matter, the University of Notre Dame, in the same year that Governor Cuomo gave a speech to the university, attempting to the address the question of what the proper role was of religious values in public life.

Now, it was particularized in the fact that both Governor Cuomo and Henry Hyde were Roman Catholics. But what they said there and what Henry said there is not limited merely to a Catholic in public service, but goes to the question of what someone who has deeply held religious values should do when confronted with the great ideas of their time.

☐ 1530

Perhaps the greatest example in political history is that of Sir Thomas Moore, also known as St. Thomas Moore, immortalized in the great play, "A Man for All Seasons," when he attempted to try and deal with the tremendous disconnect at times between what in the secular world appears to be an obvious conflict between deeply held values and your responsibility as an elected or appointed figure.

Similarly, in a closer period of time in our history, a work that influenced the speech of John Kennedy was a great writing by John Courtney Murray called, "We Hold These Truths." John Courtney Murray was a tremendous Jesuit priest and political theorist whose work probably was the greatest influence in the Catholic Church during the Second Vatican Council in understanding what political liberty was all about. And I have used both of those writings in trying to understand what my obligation in life is.

But ranking alongside both of those works is this work by Henry Hyde called, "For Every Idle Silence." He took that from a statement by St. Ambrose. He said, Not only for every idle word but for every silence must man render an account. Henry Hyde believed that.

In the speech at my alma mater, Henry Hyde said in 1984, "This must be an election year. Everyone is talking about theology." The reason I mention that is here we are 20-some years past that time, and there are those that believe that this issue is arising for the first time, and somehow we have some difficulty in understanding what it's all about.

So I would just like to reflect on a few words of Henry Hyde in that speech which perhaps would give us some direction as we approach that same issue this year. He said, "First and hopefully most obviously, we are not arguing about the creation of a theocracy or anything remotely approaching it. We're not talking about declaring ourselves a Christian Nation or a Nation under any religion."

But he said, "We are, as our coinage and our Pledge of Allegiance asserts, a Nation 'under God': that means a Nation under God's judgment, constantly reminded by our smallest coin that the true measure of ourselves comes from beyond ourselves. Again, for the church as well as for democracy, let us preserve the integrity of both the political process and the church."

And he went on to say, "In the second place, we are not arguing about whether 'religion and politics should mix.' This formula, so simple, is also deceptive and disorienting. Religion, the expression of what theologian Paul Tillich called our 'ultimate concern,' and politics have 'mixed,' intermingled, shaped and influenced each other centuries before the conversion of Constantine."

And Henry goes on to say, "And this has been true of our American experiment as well. The claim that American religion has always been 'intensely private between the individual and God' would surely have come as news to John Winthrop and the Pilgrims, to Jonathan Edwards, to the Abolitionists, to Lincoln, to 15 generations of the black church, and not least to American Catholics taught by the magisterial John Courtney Murray, architect of the Vatican Council's 'Declaration on Religious Liberty.' Throughout our history, religious values have always been a part of the public policy debate. Religious values, particularly the Judeo-Christian tradition's insistence on the inherent dignity and inviolable worth of each individual human life, lie at the root of what Murray called the 'American Proposition.'"

"Yes," Henry says, "other influences shaped the Founders of our Republic. Enlightenment modes of political philosophy play their important role, too. But to borrow a phrase momentarily from the Marxists, 'it is no accident' that Benjamin Franklin, one of the deistic Founders, proposed as a device on the Great Seal of the United States a picture of Moses lifting up his staff and dividing the Red Sea while the Pharaoh was overwhelmed in its waters, with the motto 'Rebellion to tyrants is obedience to God.'

"Jefferson, often considered the most implacable foe of 'mixing' religion and politics, countered with the suggestion that the Great Seal depict the children of Israel in the wilderness, led by a cloud by day and a pillar of fire by night."

Henry Hyde understood that we are influenced and informed by our most deeply held beliefs and that it is not un-American to bring those to the debate. He also suggested that what we also understood was that we should not establish any particular religion or demand the American people bow to any particular religion.

Henry Hyde gave us tremendous guidance, and for those in the debate involved today, I would suggest they might want to look at Henry's book, "For Every Idle Silence," including that speech at Notre Dame which he entitled, with his usual good sense and humor, "Keeping God in the Closet, Some Thoughts on the Exorcism of Religious Values from Public Life."

Henry Hyde was a remarkable man. He had a great wit about him. You could argue on the floor with him as strongly as possible, and he would come over across the aisle, punch you in the arm and tell you a joke. He took what he did seriously, but he never took himself too seriously. He was an inspiration to me and many others around the world.

I remember one time I asked Henry, do you ever get tired being involved in the debate on the right-to-life, and he said to me, you know, I do, but as I get older and think of my mortality, I think about the possibility of entering the gates of heaven, and I think of the faces of those children whose lives I've saved, standing there saying to me, Welcome, Henry, welcome.

Ultimately, I think Henry's life can be summed up in the last words that he gave to the students and faculty of the University of Notre Dame in 1984. He said this to those students: "And so I ask again, do you change the world or does the world change you?

"There was a 'Just Man' many centuries ago who tried to save Sodom from destruction. Ignoring his warning, mocking him with silence, the inhabitants shielded themselves with indifference. But still he persisted, and taking pity on him, a child asked, 'Why do you go on?' The Just Man replied that in the beginning, he thought he could change man. 'Today,' he said, 'I know I cannot. If I still shout and scream, it's to prevent them from changing me!"

As Henry said to those students that day: "I hope you go out and change the world!"

Mr. Speaker, Henry Hyde was the just man. Henry Hyde did work. Henry Hyde changed the world. I am thankful for his leadership. I'm thankful for him being a colleague. I'm thankful to be able to call him friend, and I rise in strong support of H. Res. 843.

Mr. Speaker, I yield back the balance of my time.

Mr. CROWLEY. Mr. Speaker, I have no other speakers on our side and will close, and I will just say that it's been noted to me that it's highly unusual for us to have a House resolution honoring a former Member but maybe appropriate in this particular case because Henry Hyde was an unusual person, and I will just go back again to my experience with him on the committee.

I found him to be very fair, very just, a very abiding chairman, and was concerned as much about the decorum of the committee and how we conducted the business of our committee as well would be done in a fair and just way. That's something that I will certainly remember Henry Hyde for.

I hope as we move forward, not only today or next year, but in Congresses to come, that that rapport between Members of both sides, regardless as to where we find ourselves on issues, can conduct ourselves in a way which would make Chairman Hyde proud.

The last time I saw Chairman Hyde was where I more often saw him sitting, next to the portrait of Lafayette here in the House of Representatives in a wheelchair and remarking to him, as always I did, Mr. Chairman, how are you, even though he was no longer chairman of a standing committee here in the House. For many of us on our side, as well as yours, he was always the Chairman, and we say to Chairman Hyde, God bless and Godspeed.

Mr. JACKSON of Illinois. Mr. Speaker, I was deeply saddened to learn that Henry J. Hyde passed away on Thursday, November 29, 2007. I know I join my colleagues both past and present in thanking this truly remarkable man for his contribution to this country.

Former Representative Henry Hyde served his country honorably both in the U.S. Navy during World War II and later as a Member of the U.S. House of Representatives. Representative Hyde was first elected to the House of Representatives in 1975, where he later served as chairman of the House Judiciary Committee and the House International Relations Committee.

During his tenure in Congress, Henry Hyde will most be remembered for leading the impeachment proceedings against former President Bill Clinton and for his staunch opposition to abortion rights, both issues on which he and I strongly differed. Despite my opposition, Henry Hyde always took principled stands on issues and legislation and personified what it means to be called "The Honorable."

Henry Hyde had always been considerate to me, generous with his time and extremely helpful to me as a legislator. Not long after I was sworn in as a new Member, he acted as a mentor and we became close friends despite our political and ideological differences. I was pleased to work with Henry on "The Hyde-Jackson Partnership," the effort to bring a third airport to the Chicagoland region. On this specific issue, I owe Congressman Hyde a debt of gratitude for his leadership, public service, experience and wisdom.

I will miss my good friend and trusted mentor and my deepest condolences go out to his family.

Mr. LANTOS. Mr. Speaker, I rise today to join this commemoration of the extraordinary life of Henry Hyde, the late, able chairman of the House International Relations Committee. The United States House of Representatives lost an institutional legend this year, and those of us lucky enough to have served with Henry Hyde lost a treasured friend. Although Henry and I did not always agree on matters of policy, I have a deep and lasting respect for his service to this country.

Mr. Speaker, Henry Hyde was a giant. His integrity, intelligence and patriotism were of towering proportions. Our friendship always transcended partisan political considerations and was reminiscent of an era of congressional collegiality. Henry's passionate commitment to public service and to the American people will serve as a beacon for generations.

Henry Hyde had a wide variety of legislative feathers in his cap, but I wish today to speak about two particularly notable accomplishments. The first rightfully bears his name—the Henry J. Hyde United States-India Peaceful Atomic Energy Cooperation Act. This bipartisan agreement was done with cooperation in both Chambers. It represents the right way of legislating—ample preparation, consideration of all ideas, bipartisan cooperation, cordial relations with the other body, and keen attention to institutional prerogatives.

Also under Henry's leadership, Congress approved groundbreaking, bipartisan legislation to fund the global battle against the scourge of HIV/AIDS. The U.S. Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003 would not have happened without Henry's strength and persistence, and it stands as a testament to his life and work. Henry memorably—and astutely—compared the scourge of HIV/AIDS to the bubonic plague in its tragic scope. We are now in the midst of renewing the mandate of this vital legislation, and Henry's leading role in it will be very much on his colleagues' minds.

A member of the International Relations Committee since 1982, Henry was a key figure in debates and decisions about war and peace, international arms control, the expansion of NATO, and United Nations reform. He also served with distinction on the Judiciary and Intelligence Committees, but I will let others speak to his achievements there. And of course, the continued, devoted support by his constituents through 16 terms in Congress speaks volumes about his work on behalf of his district.

Mr. Speaker, Henry chaired the International Relations Committee for 6 years, through some of the most pivotal and riveting challenges of our times. He wielded his gavel with fairness, intellectual honesty and no small amount of wit. Some of us may disagree with some of his policies, but he was a true gentleman of the House, and he will be deeply and sincerely missed.

Mr. TIAHRT. Mr. Speaker, I join my colleagues today to honor a great American. Henry Hyde was a true gentleman and a greatly respected Member of Congress. Many words come to mind when I think of Mr. Hyde: leadership, aggressiveness, determination, dignity. Many sought counsel from him, including me. He was a tremendous orator, with a keen mind and a silver tongue. Members of both parties liked and respected him, because they knew that, regardless of party or ideology, they would be treated fairly, with dignity and respect.

Unfortunately, Henry Hyde has been criticized in the press for leading the impeachment proceedings against President Bill Clinton, but the most important cause he led was to protect life. His political career was comprehensive, but it is his work to protect and promote the dignity of human life that has had the greatest impact. His efforts in this body are unmatched, and he leaves a profound legacy of challenges met, obstacles overcome, and grace in tumultuous times. He will be deeply missed, and our prayers go out to the entire Hyde family during this difficult time.

I join many of my colleagues in praising the life and work of Henry Hyde. The greatest tribute we can give him is to carry on his efforts to acknowledge the worth of every single human being, born and unborn. I encourage members of this body and our constituents to follow Henry's lead and make sure that we honor the value of life.

Mr. BUYER. Mr. Speaker, with the passing of Congressman Hyde, the country lost a true patriot who was deeply dedicated to the American people. He had a distinguished career in public service, beginning with his time in the Navy during World War II, followed by his service in the Illinois General Assembly, and then in the House of Representatives. Henry's leadership and steadfastness to principle quickly became apparent in the House. He always was a stalwart defender of the rights of the unborn, and pushed the Congress to see clearly the impact of its decisions on the defenseless.

I was honored to serve with Henry while he was Chairman of the Judiciary Committee, enduring long markups to move the Contract with America legislation, equipping our law enforcement with the tools to fight terrorism, and combating the scourge of drugs in our society. His amiable personality hid an individual who did not shy from a fight, especially when it came to upholding the Constitution, the rule of law, and other interests of the United States. As a fellow House Impeachment manager, and as one of the "band of brothers," I am truly honored to call him my brother and I will miss him.

Mr. CROWLEY. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. CROWLEY) that the House suspend the rules and agree to the resolution, H. Res. 843, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 5:45 p.m. today.

Accordingly (at 3 o'clock and 40 minutes p.m.), the House stood in recess until approximately 5:45 p.m.

□ 1749

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. JONES of Ohio) at 5 o'clock and 49 minutes p.m.

WAIVING REQUIREMENT OF CLAUSE 6(a) OF RULE XIII WITH RESPECT TO CONSIDERATION OF CERTAIN RESOLUTIONS

Mr. McGOVERN. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 873 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 873

Resolved, That the requirement of clause 6(a) of rule XIII for a two-thirds vote to consider a report from the Committee on Rules on the same day it is presented to the House is waived with respect to any resolution reported on the legislative day of December 17, 2007, providing for consideration of any of the following measures:

(1) The Senate amendment to the bill (H.R. 2764) making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes.

(2) The Senate amendments to the bill (H.R. 6) to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

The SPEAKER pro tempore. The gentleman from Massachusetts is recognized for 1 hour.

Mr. McGOVERN. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. LINCOLN DIAZ-BALART). All time yielded during consideration of the rule is for debate only.

GENERAL LEAVE

Mr. McGOVERN. Madam Speaker, I ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 873.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. McGOVERN. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H. Res. 873 waives clause 6(a) of rule XIII, which requires a two-thirds vote to consider a rule on the same day it is reported from the Rules Committee. This waiver would apply to any rule reported on December 17 that provides for consideration of the omnibus appropriations bill or the Senate-amended energy bill. Madam Speaker, the Rules Committee has reported a separate rule for the energy bill, but the House is not expected to take up the Senate-amended energy bill tonight.

With passage of this rule, the House will move one step closer to passing the omnibus appropriations bill that will fund the government outside of the Department of Defense, which we have already funded. It's an important bill, and although it is not everything I wanted, I believe it deserves to be approved in its current form.

Madam Speaker, Democrats took over the majority in the House and the Senate with a promise of a new direction for America. The House moved an aggressive and positive agenda forward, including the timely consideration and passage of the fiscal year 2008 appropriations bills. Unfortunately, the President and the Republican leadership of the House and the Senate are still stuck in the past. Instead of working with Democrats in moving towards a new direction, the Republican leaders in the House and Senate did everything they possibly could to delay and obstruct the process until we had no option but to bring an omnibus appropriations bill to the floor.

In fact, the Senate minority leader, Senator MCCONNELL, actively blocked consideration of these appropriations bills. Why would the Republican leadership block these bills from even being considered in the Senate? The answer, Madam Speaker, is that they were playing politics. Instead of allowing important funding for our roads and bridges, funding for the sick and the hungry, funding to protect our food system and funding for homeland security, the Republican leadership decided to block these funds to try to score political points.

So when my friends on the other side of the aisle complain that we are not considering these bills individually, remember that they were the ones that prevented us from doing just that. That's unfortunate but it's reality. The reality is that because of Senate rules, it takes 60 votes to order pizza, let alone to consider and vote on important pieces of legislation.

All told, the Democratic majority wanted to pass appropriations bills that were fully paid for and that increased spending by $22 billion over the President's request. The President and his allies here in Congress said, No, no, that's too much. That's too much for education, too much for health care, too much for medical research, too much for veterans. The irony, of course, is that the President continues to ask for hundreds of billions of dollars for the war in Iraq, none of it paid for. Billions to patch the alternative minimum tax, none of it paid for.

Some of my Republican friends, as I read in the press, are now proclaiming a great "victory" because the omnibus bill meets the President's top-line number. Let's take a look at that.

Because of the Republicans, there will be fewer medical research grants at NIH than Democrats would have liked. "Congratulations," I guess.

Because of Republicans, there will be fewer cops on the beat than Democrats would have liked. "Job well done," I suppose.

Because of the Republicans, there is less funding for important education programs that Democrats would have liked. "Mission accomplished," my Republican friends.

The fact is that this Republican so-called "victory" is hollow at best. And I've been wracking my brain all day, but I just can't remember the Republican campaign commercial from last fall that said, "Vote for me and I'll follow the President off the cliff and spend billions more in Iraq while I cut domestic priorities." Maybe that commercial did exist and it just didn't run in Massachusetts.

Despite all of that and despite the Republican obstruction, Chairman OBEY has put together a bill that makes important new investments in our national priorities. More money than the President wanted for medical research and rural health. More money than the President wanted for K–12 education. More money than the President wanted for renewable energy and energy efficiency. More money than the President wanted for homeland security, for local law enforcement, for our crumbling infrastructure. And perhaps most importantly, more money than the President wanted and requested for our veterans. All of that changed, all of that progress because of this new Democratic majority.

Madam Speaker, unlike last year, we are getting our work done. We are completing our appropriations bills, not kicking the can down the road with another continuing resolution, which is what the Republicans did last year when they controlled both Houses of Congress and the White House, I should add. And the same-day rule before us takes us one step closer to making that happen.

Madam Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, I would like to thank the gentleman from Massachusetts for the time, and I yield myself such time as I may consume.

Madam Speaker, "I rise in strong opposition to this martial law rule and in opposition to the outrageous process that continues to plague this House. We have before us a martial law rule that allows the leadership to once again ignore the rules of the House and the procedures and the traditions of this House. Martial law is no way to run a democracy no matter what your ideology, no matter what your party affiliation."

Madam Speaker, those are not my words; those are the words of the gentleman from Massachusetts. He spoke those words on the floor on several occasions last year regarding what he eloquently called a "martial law rule."

So, although they are not my words, they are quite relevant to this debate. Since I have already used some of the gentleman's words, I will continue to point out one more comment that the gentleman made on martial law rules. I think this one quote is particularly interesting because it was given on December 7, 2006, just a month before the Democrats took control of the House of Representatives. It speaks about how the Democrats proposed to run the House, and it is in sharp contrast to how they are actually running the House. This is what the gentleman said:

"There is a better way to run this body. The truth is that the American people expect and deserve better. That is why the 110th Congress must be different. I believe we need to rediscover openness and fairness in this House. We must insist on full and fair debates on the issues that come before this body."

Now, I ask, Madam Speaker, where is that openness and fairness my colleague spoke about? Where is the openness on the energy bill rule, where over 90 amendments were closed out, including a Republican substitute? Where was that openness when we considered SCHIP reauthorization under two closed rules, shutting out all amendments? Where is that openness today when we are asked to consider a 3,000-page omnibus appropriations bill with less than 24 hours to review the legislation?

□ 1800

I know where it is, Madam Speaker. They left it on the campaign trail. It was an empty promise, and it became evident that it was a false, hollow promise on the opening day of their new majority, when the Democrats wrote into the rules of the House closed rules for the consideration of the first six bills that they were to take up, in effect discharging the Rules Committee from its duties for the first six bills they were to bring to the floor.

So their remedy for examples of unfairness they had criticized in the Rules Committee was: No Rules Committee. And that trend, started, sadly, that day, continues to this day.

As my colleague has said, yes, and I quote, "There is a better way to run this body. The truth is that the American people expect and deserve better. That is why the 110th Congress must be different. I believe we need to rediscover openness and fairness in this House. We must insist on full and fair debates on the issues that come before this body." How right my colleague was.

With that, Madam Speaker, I reserve the balance of my time.

Mr. McGOVERN. Madam Speaker, I would just like to respond to the gentleman.

He talks about process. Let's compare where we are this year compared to where we were last year, when the Republicans had the majority in this Congress. What they did is they avoided doing their work and, instead, they passed a continuing resolution that took us into the following year, and they ran out of town. They left Washington before they had finished their job for the year. That is the process that they had.

What we are doing right now is trying to bring up the omnibus bill today, and we would have liked to have done it differently, but unfortunately there are Republicans in the House and there are Republicans especially in the Senate who chose to be obstructionists rather than to be partners in trying to get something done. And so here we are.

And so I would say that we're not leaving here until we get our job done. And that's very, very different from the way they conducted business.

Madam Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, at this time I yield as much time as he may consume to the distinguished ranking member of the Rules Committee.

Mr. DREIER. Madam Speaker, I rise in strong opposition to this rule. And I want to begin by complimenting my friend from Miami for very cogently pointing to the December 6, 2006, words of our friend from Worcester who has, once again, stood before us and tried to make an argument for completely rebuffing all of the promises that were made in 2006 and the years before that.

Now, my friend has just referred to the fact that we had a continuing resolution a year ago right now when we were considering this. The fact is, in the last Congress, while it wasn't a model by any means, there were more appropriations bills passed through both Houses of Congress than has been the case in this year, the first year of the Democratic majority's control of this place.

Now, when we think back to those promises that were outlined so well when my friend from Miami was carrying forth the arguments propounded by Mr. McGOVERN, I think about what we've gotten this year compared to last year. In fact, this year, there have been more bills rewritten in the Rules Committee than in any other Congress we've had before. Eleven of the appropriations bills last year were passed, and only one this year, the Defense appropriations bill. And so as I listen to my friend malign the record of the last Congress, we have to remember the fact that 11 of the bills were passed last year.

But let me further add that in this calendar year there have been more bills rewritten by the Rules Committee than ever before in any Congress. Madam Speaker, in this Congress there have been more closed rules preventing any Member, Democratic or Republican, from having the opportunity to offer an amendment than in any Congress in our history.

And one of the other things that I remember, as we consider this bill, Madam Speaker, is the fact that we were promised a 24-hour period to look at measures. In fact, I remember the Speaker, in "A New Direction for America," said that we would do this. And my friend, in his December 6, 2006, statement, talked about a new sense of fairness and openness. He said that twice in his statement, Madam Speaker. And yet it was 12:55 this morning when the Rules Committee received this 3,000-page omnibus appropriations bill. And here we are, at now 5 minutes past 6 in the evening, having gone through the Rules Committee and brought it to the floor. It is, again, 180 degrees from what was promised by this new majority.

Now, Madam Speaker, I will say that my friend and I are the two Members of the minority who are here on the floor, we have consistently stood, as have all of our colleagues, prepared to work in a bipartisan way to deal with these issues.

And I was really somewhat surprised when I heard my friend mention the issue of veterans benefits, making sure that we have the resources needed for our Nation's veterans. Well, Madam Speaker, last summer, we could have gotten a bill to the President's desk with bipartisan support, Democrats and Republicans, again, coming together, which is what we want to do, we want to work together. And that's what the American people regularly say is, yes, you've got different visions, but can't you deal with areas of agreement and, in fact, pass Public Law on that.

Well, Madam Speaker, I will tell you that I believe the Democrats and Republicans in this House, at least from everything I've heard, want to provide much-needed assistance to our Nation's veterans. Democrats and Republicans want to provide assistance to our Nation's veterans. And, Madam Speaker, last summer we had an opportunity to do that. Our colleagues in the Senate, the other body, they appointed the conferees so that we could report, it was a bipartisan agreement, to report out and get the much-needed veterans relief to the President's desk for a signature. We could have done that last summer. And yet, Madam Speaker, unfortunately, there was never, by the Speaker of the House, an appointment of those conferees. So we've gone for half a year at a cost of, it's been as high as 13 or $18 million a day, if I remember the numbers, that it has cost with this constant delay.

And so I was really shocked that my friend from Worcester would raise the issue of veterans benefits when we could have, again, with Democrats and Republicans alike agreeing, we could have gotten that bill to the President's desk and signed last summer; 6 months ago it could have been done.

So I've got to say again, Madam Speaker, that we were promised this great new sense of openness. I was encouraged by that. And I will admit, in the position that I held in the last Congress as chairman of the Rules Committee, I didn't do it perfectly. I made mistakes. I know my friend from Miami would acknowledge the same thing. We never held ourselves up as a perfect model, but we were constantly criticized. And I know that regularly our friends on the other side of the aisle will say, well, you did this, so that means we should do this. No, Madam Speaker, it wasn't about what we did. It was about what this new majority promised they were going to do.

Twenty-four hours to look at legislation, and yet this 3,000-page omnibus appropriations bill was made available at 12:55 this morning. A new sense of openness and fairness. More closed rules in the first session of the 110th Congress than in any Congress in our Nation's history, and more bills rewritten in the Committee on Rules than we've ever seen happen before.

Madam Speaker, I believe that those of us in the minority have a responsibility to hold this new majority accountable to those promises that were made, not to us, I mean, I'm not complaining about us, it's the American people. It's our constituents, Democrats and Republicans, who have been denied this opportunity.

And so it is sad that we are beginning to wind down the first session of the 110th Congress in the way that we are when, again, we would very much like to work in a bipartisan way. We're going through this measure now, Madam Speaker, that the President has said he would veto in its current form. We know that the Senate is going to end up doing the right thing, ensuring that we have the necessary funds to support our troops as they seek to prosecute this war against radical extremism, and yet we deny it in this measure.

So I, of course, will be voting against this bill as it now is. And I guess it gives some Members cover. They get an opportunity to say that they're voting against the war in Iraq, which some people want to do. I mean, we all want this war to come to an end. As I just said upstairs in the Rules Committee a few minutes ago, the President of the United States stood here last January, nearly a year ago, and he said, I wish this war were over and that we had won. This is not an endless war. We've been getting positive reports from a wide range of sources, even some of the harshest critics, including one particularly prominent Member of this institution, who was a very harsh critic, has acknowledged that the surge has worked and that we are seeing signs of improvement.

Now, I don't know if that's going to bring the war to an end. No one knows. I don't know if it's just a lull. It may be. But I do know this, these are positive signs that need to be recognized. And it would be a horrible mistake for us to pass this omnibus appropriations bill which would deny the needed resources.

Whether you supported our going into Iraq or not, we are where we are, and I think Members of this body need to recognize that. Unfortunately, this omnibus appropriations bill fails to do that.

And I know I've offered this quote on numerous occasions here on the House floor, Madam Speaker, but my constituent, Ed Blecksmith, a very proud former marine, lost his son, his son that was in the battle of Fallujah in November of 2004. And his father said to me, Ed Blecksmith said to me, "If you don't complete our mission in Iraq, my son, J.P., will have died in vain." And that's why I believe that it is critically important, as unpopular as this is, for us to make sure that we complete our mission, which means ensuring that the Iraqi security forces can defend the country and that the government can govern. It took us 13 years, from July 4, 1776 until April of 1789, nearly 13 years for us to put our government into place.

We have challenging and difficult days ahead in both Iraq and Afghanistan, but this measure would be an absolutely horrible, horrible signal to send to our troops and to those who are so courageously, Iraqis, people of Afghanistan, who are fighting on behalf of this cause for freedom.

And so, Madam Speaker, I will say again, it's a process that is not what was promised to the American people, and it is a product which is clearly flawed. So I urge my colleagues to vote against this rule and against the underlying resolution.

Mr. McGOVERN. Madam Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, the gentleman from Massachusetts spoke earlier about the fact that my previous comments were focused upon process; and that is correct, they were, because process is a fundamental aspect of a representative democracy.

The legislation that the majority made available early this morning, this bill, Madam Speaker, I was in the district today and I had the opportunity and privilege of having various meetings with constituents, and I have arrived here this evening, and I must admit, Madam Speaker, that I have not had the time to absorb this bill.

□ 1815

Now, process is important because it is our responsibility, Madam Speaker, to represent the American people in a responsible way. Now, the rules of the House call for, and it is true, and the former chairman mentioned it, and I admit, I have made mistakes, as well, the rules of the House call for 3 days for Members to be able to review bills.

Mr. DREIER. Madam Speaker, will the gentleman yield?

Mr. LINCOLN DIAZ-BALART of Florida. I yield to the gentleman from California.

Mr. DREIER. I thank my friend for yielding. I simply would like to congratulate my friend from Miami for having the ability to, as he has just shown, on three occasions lift up all 3,000 pages of this bill which we are expected to vote on which obviously virtually no one has reviewed.

Mr. LINCOLN DIAZ-BALART of Florida. I may have been able to lift it up, but I have not had the opportunity to absorb the legislation, as I think as important a bit of legislation needs to be reviewed.

Now, as I was saying, Madam Speaker, that rule, the requirement of 3 days for Members of this House to review legislation, is often waived by the Rules Committee. That is why the new majority made a promise during the campaign to at least provide 24 hours so that Members could review, study, attempt to absorb legislation at least with 24 hours. So that is why it is most sad, most unfortunate that the new majority is not living up to its own promises. Because I think there is a legitimate, it is a legitimate point of concern when the 3-day rule is waived. And that is why the promise was made.

So I think it is most unfortunate that the promise of the new majority to at least allow the House 24 hours to review legislation, especially as important a piece of legislation as this omnibus appropriations legislation is, that promise is not kept.

Madam Speaker, I will be asking for a "no" vote on the previous question so that we can amend this rule and allow the House to consider a change to the rules of the House to restore accountability and enforceability to the earmark rule while closing loopholes that we have found over the last few months, that under the current rule, so long as the chairman of a committee of jurisdiction includes either a list of earmarks contained in the bill or report or a statement that there are no earmarks, no point of order lies against the bill. This is the same as the rule in the last Congress. However, under the rule as is it functioned under the Republican majority in the 109th Congress, even if the point of order was not available on the bill, it was always available on the rule as a question of consideration. But because the Democratic Rules Committee specifically exempts earmarks from the waiver of all points of order, they deprive Members of the ability to raise the question of earmarks on the rule or on the bill.

The earmark rule is also not applicable when the majority uses a procedure to accept amendments between Houses, such as they plan to do with this omnibus appropriations bill. Because the omnibus appropriations bill is not a conference report, it will fall squarely within one of the loopholes to the earmark rule, and the rules of the House will not require any disclosure of earmarks that are contained in this legislation.

I would like to direct all Members to a letter that House Parliamentarian John Sullivan recently sent to Rules Chairwoman SLAUGHTER which confirms what we have been saying since January that the Democratic earmark rule contains loopholes. In his letter to Chairwoman SLAUGHTER, the Parliamentarian states that the Democratic earmark rule "does not comprehensively apply to all legislative propositions at all stages of the legislative process."

HOUSE OF REPRESENTATIVES,
OFFICE OF THE PARLIAMENTARIAN,
Washington, DC, October 2, 2007.

Hon. LOUISE MCINTOSH SLAUGHTER,
Committee on Rules, House of Representatives,
Washington, DC.

DEAR CHAIRWOMAN SLAUGHTER: Thank you for your letter of October 2, 2007, asking for an elucidation of our advice on how best to word a special rule. As you also know, we have advised the committee that language waiving all points of order "except those arising under clause 9 of rule XXI" should not be adopted as boilerplate for all special rules, notwithstanding that the committee may be resolved not to recommend that the House waive the earmark-disclosure requirements of clause 9.

In rule XXI, clause 9(a) establishes a point of order against undisclosed earmarks in certain measures and clause 9(b) establishes a point of order against a special rule that waives the application of clause 9(a). As illuminated in the rulings of September 25 and 27, 2007, clause 9(a) of rule XXI does not comprehensively apply to all legislative propositions at all stages of the legislative process.

Clause 9(a) addresses the disclosure of earmarks in a bill or joint resolution, in a conference report on a bill or joint resolution, or in a so-called "manager's amendment" to a bill or joint resolution. Other forms of amendment—whether they be floor amendments during initial House consideration or later amendments between the Houses—are not covered. (One might surmise that those who developed the rule felt that proposals to amend are naturally subject to immediate peer review, though they harbored reservations about the so-called "manager's amendment," i.e., one offered at the outset of consideration for amendment by a member of a committee of initial referral under the terms of a special rule.)

The question of order on September 25 involved a special rule providing for a motion to dispose of an amendment between the Houses. As such, clause 9(a) was inapposite. It had no application to the motion in the first instance. Accordingly, Speaker pro tempore Holden held that the special rule had no tendency to waive any application of clause 9(a). The question of order on September 27 involved a special rule providing (in pertinent part) that an amendment be considered as adopted. Speaker pro tempore Blumenauer employed the same rationale to hold that, because clause 9(a) had no application to the amendment in the first instance, the special rule had no tendency to waive any application of clause 9(a).

The same would be true in the more common case of a committee amendment in the nature of a substitute made in order as original text for the purpose of further amendment. Clause 9(a) of rule XXI is inapposite to such an amendment.

In none of these scenarios would a ruling by a presiding officer hold that earmarks are or are not included in a particular measure or proposition. Under clause 9(b) of rule XXI, the threshold question for the Chair—the cognizability of a point of order—turns on whether the earmark-disclosure requirements of clause 9(a) of rule XXI apply to the object of the special rule in the first place. Embedded in the question whether a special rule waives the application of clause 9(a) is the question whether clause 9(a) has any application.

In these cases to which clause 9 of rule XXI has no application in the first instance, stating a waiver of all points of order except those arising under that rule—when none can so arise—would be, at best, gratuitous. Its negative implication would be that such a point of order might lie. That would be as confusing as a waiver of all points of order against provisions of an authorization bill except those that can only arise in the case of a general appropriation bill (e.g., clause 2 of rule XXI). Both in this area and as a general principle, we try hard not to use language that yields a misleading implication.

I appreciate your consideration and trust that this response is to be shared among all members of the committee. Our office will share it with all inquiring parties.

Sincerely,

JOHN V. SULLIVAN.

This amendment will restore the accountability and enforceability of the earmark rule. And so, accordingly, I urge my colleagues to close this loophole in the earmark rule by opposing the previous question.

Madam Speaker, I ask unanimous consent to insert the text of the amendment and extraneous materials immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. LINCOLN DIAZ-BALART of Florida. I yield back the balance of my time.

Mr. MCGOVERN. Madam Speaker, the gentleman from Florida has a flair for the dramatic and held up the omnibus appropriations bill that is before us and says he doesn't know what is in it. Let me just highlight a few of the things that are in it that I think people need to know. In that bill there is more money than the President and the Republicans wanted for medical research and for rural health care. And I am grateful for that. And the American people are grateful for that.

In that bill, there is more money than the President and the Republicans wanted for K-12 education. All throughout this country, we hear from teachers, principals and superintendents about how No Child Left Behind is not funded. We hear about the need for more funding for special education. There is more money in this bill for K-12 education than the Republicans and the President of the United States wanted, and I am grateful for that.

There is more money than the President and Republicans wanted for renewable energy and energy efficiency. We need to get serious about dealing with global warming. We need to get serious about energy independence, but to do so requires that we fund it. For years, we have heard the Republicans talk the talk but not walk the walk. There is more money in this bill than the Republicans and the President wanted.

There is more money in this bill than the Republicans and the President wanted for homeland security, for local law enforcement. I mean, if the Republicans had their way, they would be cutting the COPS programs. The fact of the matter is, homeland security also means homeland security, and it means making sure that our cities and our towns have the law enforcement necessary to protect the people who live there.

There is more money in this bill than the President wanted and the Republicans wanted for our crumbling infrastructure. Our roads and our bridges are falling apart all across the country. I come from Massachusetts. We have bridges that are older than some of the other States in this country. Our aging infrastructure is in deep need of repair, and it requires funding to repair that infrastructure. There is more money than the Republicans and the President wanted for our infrastructure.

There is more money than the President wanted for our veterans. In fact, there is the largest increase in veterans health benefits in the history of the Veterans Administration in this bill. My friends say, Whoa, that's a bipartisan issue, the Republicans wanted it too. Where have you been for 12 years when you were in the majority? It has taken a Democratic majority to pass a bill that provides the largest single-year increase in veterans health benefits in the 77-year history of the VA.

There is more money here to help deal with the fact that so many of our people in our country are food insecure, are hungry. Higher food costs mean we need to help those who need help. There is more money for the supplemental nutrition program for women, infants and children, the WIC program. More money than the Republicans and the President wanted. There is more money for the commodities supplemental food program which is important to improving nutrition, more money than the President and the Republicans wanted.

Madam Speaker, let me also say, let me remind people why we are where we are at. This House did all of what was required of it to do. We passed all of our appropriations bills.

The problem is that we had to fight tooth and nail to pass them in the House here because of Republican obstructionism in the House. But Republican obstructionism in the Senate reached a new level where they actually blocked not only bringing appropriations bills to the floor, but actually moving to conference on a number of occasions. So here we are not content to do what the Republicans did last year, which is to do nothing, to kick the ball down the court, dump all their problems on another Congress and go home. We are going to finish this year's business. And we are going to do so in a way that maybe is not everything that I would have liked to have seen done, but nonetheless represents a dramatic departure from the priorities of the previous Congress.

Madam Speaker, I urge a "yes" vote on the previous question and on the rule.

The material referred to previously by Mr. LINCOLN DIAZ-BALART of Florida is as follows:

AMENDMENT TO H. RES. 873

OFFERED BY MR. LINCOLN DIAZ-BALART OF FLORIDA

At the end of the resolution, add the following:

SEC. 2. That immediately upon the adoption of this resolution the House shall, without intervention of any point of order, consider the resolution (H. Res. 479) to amend the Rules of the House of Representatives to provide for enforcement of clause 9 of rule XXI of the Rules of the House of Representatives. The resolution shall be considered as read. The previous question shall be considered as ordered on the resolution and any amendment thereto to final adoption without intervening motion or demand for division of the question except: (1) one hour of debate equally divided and controlled by the chairman and ranking minority member of the Committee on Rules; (2) the amendment printed in section 3, if offered by Representative Boehner of Ohio or his designee, which shall be in order without intervention of any point of order or demand for division of the question, shall be considered as read and shall be separately debatable for forty minutes equally divided and controlled by the proponent and an opponent; and (3) one motion to recommit with or without instructions.

SEC. 3. The amendment referred to in section 2 is as follows:

Strike all after "That" and insert the following:

(1) Clause 9(a) of rule XXI is amended by striking "or" at the end of subparagraph (3), striking the period at the end of subparagraph (4) and inserting "; or", and adding the following at the end:

"(5) a Senate bill held at the desk, an amendment between the Houses, or an amendment considered as adopted pursuant to an order of the House, unless the Majority Leader or his designee has caused a list of congressional earmarks, limited tax benefits, and limited tariff benefits in the bill and amendments (and the name of any Member, Delegate, or Resident Commissioner who submitted the request for each respective item in such list) or a statement that the proposition contains no congressional earmarks, limited tax benefits, or limited tariff benefits to be printed in the Congressional Record prior to its consideration.".

(2) Clause 9(c) of rule XXI is amended to read as follows:

"(c) As disposition of a point of order under paragraph (a), the Chair shall put the question of consideration with respect to the proposition. The question of consideration shall be debatable for 10 minutes by the Member initiation the point of order and for 10 minutes by an opponent, but shall otherwise be decided without intervening motion except one that the House adjourn.".

(The information contained herein was provided by Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote; the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives, (VI, 308–311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Democratic majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the definition of the previous question used in the Floor Procedures Manual published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information from Congressional Quarterly's "American Congressional Dictionary": "If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business."

Deschler's Procedure in the U.S. House of Representatives, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Mr. McGOVERN. I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are advised there are less than 2 minutes remaining on this vote.

□ 1900

So (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. SAM JOHNSON of Texas. Madam Speaker, on rollcall Nos. 1163 and 1164, I was unable to vote. Had I been present, I would have voted "yea."

PERSONAL EXPLANATION

Mr. JOHNSON of Illinois. Madam Speaker, on rollcall Nos. 1163 and 1164, had I been present, I would have voted "yea."

MOMENT OF SILENCE IN MEMORY OF THE HONORABLE JULIA CARSON, MEMBER OF CONGRESS

(Mr. BURTON of Indiana asked and was given permission to address the House for 1 minute.)

Mr. BURTON of Indiana. I yield to my colleague from Indiana (Mr. VISCLOSKY).

Mr. VISCLOSKY. I appreciate my good friend and the dean of the Indiana delegation for the recognition, and I have the sad duty, along with Mr. BURTON, in representing every member of the Indiana delegation, to inform the House of the passing of our good friend and colleague, JULIA CARSON from Indianapolis.

I would simply point out, under the auspices of Mr. BURTON and the Congressional Black Caucus and myself, to truly honor JULIA's life and her good work, we will have a Special Order for 1 hour tomorrow. I note this happens to be the darkest time of year as far as the winter solstice upon us, but it causes one to think about the light that JULIA CARSON has cast throughout her life. Whether it was the twinkle of her eye, that I think we are all very familiar with, or the fire that burned brightly in JULIA, compelling her every hour of every day to help those most in need, and the light of her shining example which should lead all of us to lead better lives and to do our best, her constituents, her State, this House, and this country have suffered a very great loss of a very good friend who has enlightened all of us and who has enriched ours and everyone's life she has touched. And again I very deeply appreciate the courtesy of Mr. BURTON for asking for this period of time.

Mr. BURTON of Indiana. Let me just say that JULIA CARSON was a friend of mine. I have known JULIA for a long, long time. She worked for our former colleague Andy Jacobs when he was in the House, and she did a tremendous job for him.

She started out politically in Indiana as a State representative and became a State senator. And when Andy retired, she ran for and was elected to the Congress of the United States.

She was also a trustee. One of the things she did as a trustee was she reduced the cost to the trustee's office and reduced the number of people who had to be served on the welfare rolls. I think that is very honorable that she did that. She worked so hard. As a Republican, I have to take my hat off to JULIA for reducing the cost of that township trustee's office. She did a fantastic job.

She worked here in the Congress for a long, long time. Her health started failing, as you all know, in the last couple of years, but she continued to try to serve her constituents as best she could. JULIA was loved, literally loved by all of the people she served in Indianapolis. She worked so hard and so long, and I know everybody in the Indiana delegation and in Indiana will miss her. And I know her good friend, Andy Jacobs, grieves for her as well as we do tonight.

I would just like to say that JULIA, we miss you and we wish you Godspeed.

Mr. VISCLOSKY. If we could ask for a moment of silence in the House, please.

The SPEAKER pro tempore. I ask everyone to please rise.

☐ 1920

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

EXPRESSING SORROW OF THE HOUSE AT THE DEATH OF THE HONORABLE JULIA CARSON, MEMBER OF CONGRESS FROM THE STATE OF INDIANA

Mr. BURTON of Indiana. Madam Speaker, I offer a privileged resolution (H. Res. 880) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 880

Resolved, That the House has heard with profound sorrow of the death of the Honorable Julia Carson, a Representative from the State of Indiana.

Resolved, That a committee of such Members of the House as the Speaker may designate, together with such Members of the Senate as may be joined, be appointed to attend the funeral.

Resolved, That the Sergeant-at-Arms of the House be authorized and directed to take such steps as may be necessary for carrying out the provisions of these resolutions and that the necessary expenses in connection therewith be paid out of applicable accounts of the House.

Resolved, That the Clerk communicate these resolutions the Senate and transmit a copy thereof to the family of the deceased.

Resolved, That when the House adjourns today, it adjourn as a further mark of respect to the memory of the deceased.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF SENATE AMENDMENT TO H.R. 2764, THE DEPARTMENT OF STATE, FOREIGN OPERATIONS AND RELATED PROGRAMS APPROPRIATIONS ACT, 2008 (CONSOLIDATED APPROPRIATIONS ACT, 2008)

Ms. SLAUGHTER. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 878 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 878

Resolved, That upon adoption of this resolution it shall be in order to take from the

Speaker's table the bill (H.R. 2764) making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes, with the Senate amendment thereto, and to consider in the House, without intervention of any point of order except those arising under clause 10 of rule XXI, a motion offered by the chairman of the Committee on Appropriations or his designee that the House concur in the Senate amendment with each of the two House amendments printed in the report of the Committee on Rules accompanying this resolution. The Senate amendment and the motion shall be considered as read. The motion shall be debatable for one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. The previous question shall be considered as ordered on the motion to its adoption without intervening motion or demand for division of the question except that the question of adoption of the motion shall be divided between the two House amendments.

SEC. 2. During consideration of the motion to concur pursuant to this resolution, notwithstanding the operation of the previous question, the Chair may postpone further consideration of the motion to such time as may be designated by the Speaker.

The SPEAKER pro tempore (Mr. BECERRA). The gentlewoman from New York is recognized for 1 hour.

Ms. SLAUGHTER. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. LINCOLN DIAZ-BALART). And all time yielded during consideration of the rule is for debate only.

I yield myself such time as I may consume, and ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 878.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York?

There was no objection.

Ms. SLAUGHTER. Mr. Speaker, House Resolution 878 provides 1 hour of debate on the motion by the chairman of the Committee on Appropriations to concur in the Senate amendment to H.R. 2764, the Department of State, Foreign Operations and Related Programs Appropriations Act with each of the two House amendments printed in the report accompanying the resolution.

The rule waives all points of order against consideration of the motion except those arising out of clause 10 of rule XXI, and provides that the Senate amendment and the motion shall be considered as read.

The rule directs the Chair to divide the question of adoption of the motion between the two House amendments; and, finally, it provides that the Chair may postpone further consideration of the motion to a time designated by the Speaker.

Mr. Speaker, it is our constitutional obligation to ensure that our government is running efficiently, from our children who need quality education to our veterans who need the benefits promised to them when they put their lives on the line for their country, and to our senior citizens who need access to health care and affordable prescription drugs.

And I am proud to say that we, here in the House of Representatives, have fulfilled our fiscal responsibility to the American people by passing all 12 of our appropriations bills on time. We've also used our time this year to pass all of the 9/11 Commission recommendations, to increase the minimum wage, to promote a 21st century jobs and global economic initiative, add much needed funds to the gulf coast following hurricanes Katrina and Rita, and to undertake the largest expansion of college aid since the GI Bill in 1944.

We also passed the widely acclaimed landmark lobbying and ethics reforms standards, enacted PAYGO, resulting in no new deficit spending, and passed an unprecedented energy bill that will help our Nation to be more energy efficient, while addressing global warming.

We will not soon forget that, of the 12 appropriations bills that we were supposed to have passed in 2006 when Republicans controlled the Chamber, only two were completed. The others were abandoned, requiring the incoming Democrat majority to meet the responsibilities abdicated by an outgoing party that now claims a mantle of fiscal responsibility. Simply put, we were forced to clean up their mess.

And according to the Office of Management and Budget, President Bush and the Republican Congress increased Federal spending by nearly 50 percent, turned record surpluses into record deficits, and increased our national debt by more than $3 trillion. And let's not forget that President Bush and the Republican-controlled Congress doubled our foreign debt to more than $2 trillion, more in 7 years, Mr. Speaker, more in just 7 years than in the previous 224 years of our Nation combined. Listen to that, America. They did more in 7 years to run up the debt than the previous 224 years of our Nation combined.

Now, all this among budget failures that vastly increased our national debt, while leaving the agencies, States and localities in limbo for months concerning their future funding. Let me add to that our children's health program.

It is simply astounding to me that the President would request an 11 percent increase for the Pentagon, a 12 percent increase for foreign aid, and $195 billion emergency funding for this terrible war, while in the same breath claiming that any increase in domestic programs needed for the citizens is fiscally irresponsible.

We all remember the promises of the Bush administration claiming that, at the most, the Iraq war would cost $50 billion. A recent report issued on November 13 states that the total economic cost of the Iraq war through 2008 exceeds $1.3 trillion, with a projected cost of $3.5 trillion; a long way from $50 billion.

I believe the New York Times Editorial Board said it succinctly in their editorial published last week when they wrote, and I quote, "We know what's behind President Bush's sudden enthusiasm for fiscal discipline after years of running up deficits and debt: Political posturing, just in time for the 2008 election."

But one should not forget the damage that his administration inflicted by shortchanging domestic programs in favor of tax cuts for the wealthy and his never-ending Iraq war.

I will submit this editorial for the CONGRESSIONAL RECORD.

[From the New York Times, Dec. 11, 2007]

DISABLED, AND WAITING FOR JUSTICE

We know what is behind President Bush's sudden enthusiasm for fiscal discipline after years of running up deficits and debt: political posturing, just in time for the 2008 election. But one should not forget the damage that his administration has also inflicted by shortchanging important domestic programs in favor of tax cuts for the wealthy and his never-ending Iraq war.

A case in point is the worsening bureaucratic delays at the chronically underfunded Social Security Administration that have kept hundreds of thousands of disabled Americans from timely receipt of their Social Security disability benefits.

As laid out by Erik Eckholm in the Times on Monday, the backlog of applicants who are awaiting a decision after appealing an initial rejection has soared to 755,000 from 311,000 in 2000. The average wait for an appeals hearing now exceeds 500 days, twice as long as applicants had to wait in 2000.

Typically two-thirds of those who appeal eventually win their cases. But during the long wait, their conditions may worsen and their lives often fall apart. More and more people have lost their homes, declared bankruptcy or even died while awaiting an appeals hearing.

In one poignant case described by Mr. Eckholm, a North Carolina woman who is tethered to an oxygen tank 24 hours a day has been waiting three years for a decision. She finally got a hearing last month and is awaiting a final verdict, but, meanwhile, she has lost her apartment and alternates sleeping at her daughter's crowded house and a friend's place.

The cause of the bottlenecks is well known. There are simply too few administrative law judges—1,025 at present—to keep up with the workload. The Social Security Administration is adopting automated tools and more efficient administrative practices, but virtually everyone agrees that no real dent will be made in the backlog until the agency can hire more judges and support staff.

The blame for this debacle lies mostly with the Republicans. For most of this decade, the administration has held the agency's budget requests down and Republican-dominated Congresses have appropriated less than the administration requested. Now the Democratic-led Congress wants to increase funding to the Social Security Administration, and the White House is resisting.

> Last month, Congress passed a $151 billion health, education and labor spending bill that would have given the Social Security Administration $275 million more than the president requested, enough to hire a lot more judges and provide other vital services. But Mr. Bush vetoed that bill as profligate.
>
> Democrats in Congress are working on a compromise to meet Mr. Bush halfway on the whole range of domestic spending bills. The White House is not interested in compromise.
>
> If the president remains intransigent, federal agencies may have to limp along under continuing resolutions that maintain last year's spending levels. That would likely, among many other domestic problems, crimp any new hiring at the Social Security Administration and might require furloughs, leading to even longer waits. Mr. Bush should back down from his veto threat and accept a reasonable compromise. Both sides should ensure that real efforts are made to reduce these intolerable backlogs.

Mr. Speaker, this week's actions by the President is just one thread in the appalling tapestry that this administration has in its misplaced policies.

Democrats believe that running this House right is a matter of pride. We believe it's a matter of having fundamental respect for both the institution in which we serve and for the citizens who have given us the privilege to serve here.

□ 1930

In the spirit of working together, we Democrats in Congress collectively extended our hand to those on the other side of the aisle, including the President, to reconcile our differences and pass this important spending bill.

In return, we received nothing but the same obstructionism that has plagued our body and our counterpart on the other side of the Capitol.

And today, those same Members who once enjoyed the splendors of having a majority in the House, the Senate and a Republican President, now chastise the Democratic Congress for trying to solve their own fiscal blunders. But their cries ring hollow, Mr. Speaker.

Democrats have crafted this omnibus appropriations bill that invests in the American people's priorities, that protects our troops and invests in the homefront, and restores funding to the President's devastating cuts to medical research, to college assistance, to job training, and education and health care.

And when my fellow Members of Congress and I cast our votes on this floor this evening, we seek to reconcile our ideals with what is possible to achieve. We seek to do both what is right in principle and necessary at any particular point in time and pray that the two are one in the same.

In this bill, we fund programs for medical research, and we provide 280,000 more underinsured Americans with access to health care. We added extra funds for title I, special education, teacher quality grants, afterschool programs, and Head Start, while also adding more for Pell Grants and other student aid programs.

We added extra funds above the President's request to help local communities hire and train more local law enforcement, while also adding more in homeland security grants to better secure our Nation. We also have met the guaranteed levels set in the authorization bill while adding funds for our bridges, which sorely need it.

We invest in solar and wind energy, biofuels, and energy efficiency, while also promoting scientific investments and conservation efforts.

And I would like to stress that this bill provides $3.7 billion in additional funding for our veterans health.

Mr. Speaker, we all agree that it is unfortunate we are forced to pass an omnibus to get our work done at the end of the year. This is especially disheartening because we Democrats in the House of Representatives have been absolute in our pledge to fund important programs and help the American people. And this omnibus comes only as a remedy to the obstructionism in the other body.

The President should accept this reasonable compromise and sign it into law. It is a crucial bill that will keep us on our course of fulfilling our promises to the American people, and I believe it is a clear demonstration of the Democrats' devotion to being fiscally responsible with the money given to us by our fellow citizens.

As I shared a quote from an editorial from the New York Times earlier, I would like to close with another quote published on November 26. It states: "It is clear that Mr. Bush's threat to veto Congress' proposed spending bills has nothing to do with fiscal discipline. It's all about appealing to his base and distracting attention from his failings, like Iraq. Mr. Bush will no doubt persist in that mode as long as his Republican allies allow him to." I could not agree more.

Mr. Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I'd like to thank my friend, the distinguished chairwoman of the Rules Committee, for the time; and I yield myself such time as I may consume.

This morning I woke up to the news that the majority had posted on the Rules Committee Web site the omnibus appropriations bill that we are considering tonight. The majority posted this bill, approximately 3,500-page bill, after many Members had retired for the night. So that effectively made it impossible for many of us to even begin to see what was in this legislation obviously until many hours after that.

When the new majority took over, they promised, Mr. Speaker, that they would give at least 24 hours to review legislation before it comes to the floor for a vote. The rules of the House require 3 days. Oftentimes the Rules Committee through the years has waived that requirement, and that's why it's very interesting to note and I think very relevant to note that the majority made a promise that at least 24 hours would be provided for Members to review, to attempt to understand legislation to make sure that the legislation doesn't have provisions that Members would oppose.

During testimony 2 weeks ago at the Rules Committee, Members from the minority expressed our concern with the prospect that the majority would rush through a very large appropriation bill spending, as in this case, approximately a half a trillion dollars without giving Members time to properly read and understand the bill. One particular area of concern was with the possible inclusion of earmarks that Members would not have an opportunity to review before voting on them.

On the opening day of the 110th Congress, the distinguished chairwoman of the Rules Committee, Ms. SLAUGHTER, addressed the House to speak about the majority's changes to the House rules. During her speech, she addressed the issue of earmarks and how the majority claimed to deal with the issue.

Today, as we consider this rule for this omnibus bill, I think it's appropriate to look back and see what the distinguished chairwoman said the majority would do to bring transparency to the earmark process.

"The rules that Thomas Jefferson first wrote down two centuries ago provide for order and discipline in the House. They provide for transparency and accountability. If they are followed, corruption will be exposed before it has a chance to take root. Democrats are going to follow the long-established rules of the House, instead of treating them as impediments to be avoided. We are going to allow Members to read bills before voting on them and prevent them from being altered at the last minute.

"The rules package will finally shed light on an earmarking process that has greased the wheels of corrupt House machinery. It requires the full disclosure of earmarks on all bills and conference reports before Members are asked to vote on them."

Now, Mr. Speaker, let's compare those promises with today's rule. The rule provides for consideration of this legislation, H.R. 2764. But because the majority is moving the appropriations bill as an amendment between Houses and not a conference report, the bill will fall squarely within one of the loopholes to the earmark rule, and the rules of the House will not require any disclosure of earmarks that may be contained in the legislation.

So this bill is not subject to the earmark rule which the majority claimed would bring transparency and accountability to the earmark process. The majority should not be asking Members to vote on a bill that may include numerous earmarks that no one has vetted and no one has seen.

We've already seen this loophole in action when we debated H.R. 6, the energy bill. The legislation came to the floor also as an amendment between the Houses; and as such, it too was exempt from the earmark rule. Yet it included earmarks that were not discovered until after passage.

So, yes, the majority "directs the Chairman of the Committee on Appropriations to insert in the CONGRESSIONAL RECORD at any time during the remainder of the first session of the 110th Congress such material as he may deem explanatory of appropriations measures for the fiscal year," but there may be problems with that provision.

I did see that the distinguished chairman of the Appropriations Committee did list earmarks in the bill, but the requirement does not say exactly what material the chairman is required to insert, just what "he may deem explanatory." It does not require him to list all earmarks. So earmarks in the bill could have been omitted from the statement.

Second, the provision allows the chairman to insert the explanation into the CONGRESSIONAL RECORD at any time during the first session of the 110th Congress. So in theory, the chairman may still have some time to insert an explanation after both Houses of Congress pass the legislation and the President signs the legislation into law.

We were so concerned with this procedural loophole during a recent markup that in the Rules Committee Mr. DREIER offered an amendment to the rule to require that the chairman of the Appropriations Committee provide the list of earmarks required by clause 9 of rule XXI for the omnibus appropriations bill. Unfortunately, that amendment to the rule was rejected along partisan lines.

Because of this loophole in the earmark rule, I, along with Mr. DREIER, Mr. HASTINGS and Mr. SESSIONS, have sent a letter to Chairman OBEY asking him to "adhere not just to the letter of clause 9 of rule XXI, but to its spirit as well and provide the Rules Committee and the House with a list of earmarks contained in the omnibus appropriations bill prior to consideration by the Rules Committee."

Mr. Speaker, I submit that letter into the CONGRESSIONAL RECORD at this point.

COMMITTEE ON RULES,
HOUSE OF REPRESENTATIVES,
Washington, DC, December 6, 2007.

Hon. DAVID R. OBEY,
Chairman, Committee on Appropriations, Washington, DC.

DEAR CHAIRMAN OBEY: Today the Committee on Rules reported a "martial law" rule to provide for the same day consideration of an omnibus appropriations vehicle. That measure also includes a provision giving you the option of inserting extraneous explanatory material in the Congressional Record for appropriations measures for the remainder of this session.

During the markup of that measure, we offered an amendment to the rule to require that you provide the list of earmarks required by clause 9 of rule XXI for the omnibus appropriations measure. Unfortunately, that amendment to the rule was rejected along partisan lines.

Mr. Chairman, we know that you have made an effort during this Congress to provide transparency for earmarks contained in bills coming through your committee. However, because the omnibus appropriations bill will be considered as a Senate amendment to a House bill, it falls squarely within one of the loopholes of the earmark rule and the Rules of the House will not require any disclosure of earmarks that will be contained therein. As you were the presiding officer over the motion to concur in the Senate amendment to H.R. 6, the energy bill, you are well aware that no list of earmarks was provided for that measure because it fell within the same loophole.

We respectfully request that you adhere not just to the letter of clause 9 of rule XXI, but to its spirit as well and provide the Rules Committee and the House with a list of earmarks contained in the omnibus appropriations bill prior to consideration by the Rules Committee. That kind of disclosure will be in the best interest of the House, its Members, and the Nation.

We appreciate your willingness to consider our request.

Respectfully,
DAVID DREIER.
DOC HASTINGS.
LINCOLN DIAZ-BALART.
PETER SESSIONS.

I would simply say that as of today we have not received a response to that letter.

Mr. Speaker, I ask when it is appropriate to do so, where is the transparency and the accountability promised when the majority in effect, in practice continues to systematically circumvent its own rules and violate its own promises?

Mr. Speaker, at this time I reserve.

Ms. SLAUGHTER. Mr. Speaker, I'm pleased to yield 3 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, let me thank the distinguished gentlelady from New York, the chairwoman of the Rules Committee.

I rise in a somewhat curious posture, and that is, to support the job that has to be done on behalf of the American people. So I would call this the responsible serving of the American people's spending bill. That's what Democrats have attempted to do today.

I remind my colleagues that most of the appropriations bills, I would say all of them, have been passed out of this body, and certainly the predicament that we find ourselves in is because of the administration's refusal to prioritize on behalf of the needs of veterans; the needs of major research institutions; a failing job market that needs increased job training dollars; the young people of America who want a future and, therefore, college assistance; and then recognizing the importance and the crucialness of access to health care; a good energy policy; and certainly the needs of repairing the transportation system of America.

I'm grateful that we have reprogrammed dollars to include money for research, job training, college assistance, access to health care, and as well, that we're reminded that we must ensure the safety of this Nation, while fighting, of course, to preserve the transportation centers of excellence, the letter that I wrote to ensure that funding for that would be included.

And though we talk sometimes without understanding about the concept "earmark," it is for the community of Houston, Texas, and the 18th Congressional District more early childhood education, more homeland security dollars for a constable's office. It is more dollars for a mental health facility, and it is recognition of more technology for our local first responders.

So I rise today to express the dilemma, when we have three branches of government, to refute any accusations of the postures that Democrats are in. Democrats are fighters. It is because of a budget mark and a stance by this administration to demand $120 billion for a war that is not working that puts us in a position not to be able to service the needs of the American people.

□ 1945

So we will continue this fight and we will stand strong and tall for those who are in need.

And I look forward to the Military Success Act of 2007 that I have authored being debated on this floor to acknowledge that the military has finished their work, it's time to bring them home and to reward them in honor and medals for what they have done in Iraq and to ensure that the people of America receive a spending bill that serves the needs of the American people.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, it's my privilege to yield 6 minutes to the distinguished former member of the Rules Committee, my friend from Georgia, Dr. GINGREY.

Mr. GINGREY. I thank my colleague for yielding.

Mr. Speaker, I want to remind the previous speaker that this body and the other body passed a spending bill for our veterans increasing by $4 billion over 3 months ago, and the President made very clear, emphatically stating that he was ready to sign that bill to get this money to our veterans, and the Democratic leadership has made a decision, for whatever reason, not to send that bill to the President. So I think it's important to point that out.

Mr. Speaker, I rise tonight in opposition to the rule and to the underlying bill in its present form. In regard to the rule, I can't expound and do any better than the comments that the senior Republican long-term member of the Rules Committee has just outlined, the gentleman from Florida. That stack of 11 bills in this omnibus sitting in front of the gentleman from Florida is almost as large as the Internal Revenue Code, which I understand is as thick as nine Bibles. Mr. Speaker, that's probably as thick as at least six Bibles, and every rule has been waived. And all this business about earmark reform, it makes a total mockery of that. So, Mr. Speaker, from the standpoint of the rule, absolutely I am opposed to it.

We need earmark reform. I have submitted legislation to cut earmarks by 50 percent immediately and then 1 percent of discretionary spending in the subsequent year and to say that no Member of this body, no matter how powerful, should have a larger bite at the apple in regard to Member-directed initiatives, or what the general public, who's so outraged at that process, knows as pork and/or earmarks.

In regard to the bill itself, my colleagues, I'm sure, hopefully on both sides of the aisle, will be opposed to this omnibus because there's not one penny, Mr. Speaker, not one penny of money for our troops in Iraq. That in itself is a reason why absolutely I would be opposed to this omnibus. But, Mr. Speaker, there's more. There is much more when we look into the weeds and finally see some of the things in these bills.

Last year this body voted to strike language from the energy and water bill that would not allow the Corps of Engineers to update manuals in regard to how they control water releases from certain dams in the Southeast where we are suffering from a severe drought, Mr. Speaker. And yet this same language now is stuck in on the Senate side, and it's in this omnibus bill that would prohibit the Corps of Engineers from updating these 25-year-old manuals, making the drought in the Southeast worse than it has ever been. And, Mr. Speaker, I want to point out the fact that in this body last year when we voted to remove that language from those bills, Speaker PELOSI voted to remove the language; Majority Leader HOYER voted to remove the language; Appropriations Chairman OBEY voted to remove the language; Minority Leader BOEHNER voted to remove the language; and every subcommittee chairman on the Appropriations Committee, the so-called cardinals on the Democratic side, voted to remove that language. Now it's in there sort of air-dropped on the Senate side.

There are other things in here, Mr. Speaker, that I am so much opposed to. There's increased funding for title X, almost $17 million for Planned Parenthood and abortion providers, but there's no increased funding for critical abstinence education, which goes a long way to ensure that abortion services wouldn't be needed, Mr. Speaker.

There is $2.9 billion in here, Mr. Speaker, to provide for security on our southern border, to build that fence that this body has called for; yet there are all kinds of restrictions. In fact, the committee says 15 conditions have to be met before this money can be spent on 300 or 400 miles of fencing on our southern border that we so desperately need, and at the same time there's millions of dollars in this omnibus, Mr. Speaker, that provides legal defense funds to defend illegal immigrants who are in this country. I just don't quite understand the logic of that, Mr. Speaker.

I am sure my colleagues are as confused as I am over this gimmick of advanced appropriations. But how does this body say that we are going to spend $2.4 billion additional money on Labor-HHS and say that we are not going to count it against this year's appropriation, that it's going to be counted in 2009, this so-called advanced appropriation? Is it an emergency, Mr. Speaker, to spend $100 million to provide security at the upcoming Republican and Democratic National Conventions? Is that, my colleagues, what we would call money that needs to be spent in an emergency?

And last but not least, Mr. Speaker, I put language in an appropriation bill that would not allow funding for States that mandate that our little girls in the fourth and fifth grade, our 9-, 10-, 11-year-old children, could not attend public school unless they receive a shot against human papillomavirus, a sexually transmitted disease, not a communicable disease like measles, mumps, and whooping cough. Unfortunately, this funding is allowed in this omnibus, but my language is removed.

So for many, many reasons, my colleagues, vote "no" against the rule and vote "no" against this bill when it comes to us in its present form.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 1 minute to the gentleman from Wisconsin, chairman of the Committee on Appropriations, for a response.

Mr. OBEY. Mr. Speaker, even though it's not Halloween, I'm concerned that some Members may be seeing ghosts. So I simply want to say that the gentleman from Florida raised concerns that because this is an amendment between the houses that we might not be fully disclosing earmarks.

Let me simply point out to the House that the gentleman's claims are misplaced. Early this afternoon I submitted for printing in the RECORD a lengthy and complete explanatory statement, the same statement that went on the Rules Committee Web site last night. That statement contains full and complete disclosure of all earmarks. We did that disclosure exactly as if this were a conference report. Nothing has been left out that would have been required if this had been a conference report.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, at this time I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from North Carolina (Mr. ETHERIDGE).

Mr. ETHERIDGE. I thank the gentlewoman for yielding.

Mr. Speaker, I rise in support of this rule and the omnibus appropriations bill.

This is good news from Washington. We can always find problems with things if we look for them. For education, for veterans, for health care for children, many other programs, these are things people have been waiting for.

And I'm very pleased that the House is scheduled to vote on a disaster assistance package to provide relief to our farmers suffering from record droughts in the Southeast. My farmers are hurting, and this omnibus appropriations bill will provide some $600 million for disaster assistance.

My congressional district in North Carolina has been afflicted by what's called "Exceptional Drought." This is the most serious category in America. Every county in the State is experiencing drought conditions. The whole Southeast is experiencing record drought. This aid will bring real relief to rural communities.

I have been proud to lead this effort. In September I wrote a bipartisan letter to the President signed by 54 of my colleagues from both political parties to make the case for disaster relief. I've been very pleased to work with Speaker PELOSI, Majority Leader HOYER, Majority Whip CLYBURN, Agriculture Committee Chairman PETERSON, and Appropriations Committee Chairman OBEY to get this done, and I want to thank them for their leadership, and our farmers thank them.

I grew up on a Johnston County farm, and I have lived in a farm community all my life. And as a senior member of the House Ag Committee, I am pleased that we have finally gotten this football into the end zone. Now we will do the clincher. This disaster assistance is a major achievement and an important step forward for America's farmers.

I urge my colleagues to join me in voting for this rule and then voting for the underlying omnibus bill that will make a difference not only for rural America but for all Americans.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 5 minutes to the gentleman from Washington, the chairman of the Appropriations Subcommittee on Interior, Environment, and Related Agencies (Mr. DICKS).

Mr. DICKS. Mr. Speaker, I rise in support of this rule and the omnibus appropriations bill.

For better or worse, it is the Appropriations Committee that is charged with the job of making the difficult choices that provide the best mix possible of funding levels for competing programs. The interior and environment portion of this bill is the product of the difficult choices that had to be made as a result of the President's insistence that we cut $22 billion from the levels approved by the House 6 months ago.

The final allocation for the Interior Subcommittee was $26.6 billion, essentially flat funding at the 2007 enacted level, because we were unable to achieve a compromise with the President that would have allowed for modest growth in the Interior and related agencies as well as the Environmental Protection Agency. I would remind my colleagues that since 2001, these same accounts have been reduced drastically. Interior has been cut by 16 percent, EPA by 29 percent, and the nonfirefighting accounts in the Forest Service by more than 35 percent.

In allocating these funds in this omnibus bill, our subcommittee, on a bipartisan basis, could have frozen funding for all programs at the Department of Interior, EPA, the Indian Health Service, and the Forest Service at the 2007 enacted levels. Alternatively, we could have approved deep reductions proposed by the President for the Forest Service, Indian health clinics, fire preparedness programs, clean air State grants, PILT payments or Land and Water Conservation Fund and Conservation Grants.

We did not choose either of these approaches. Instead, we chose to produce a conference version that was consistent with the priorities established in the House-passed Interior appropriations bill, reflecting the input from Members on both sides of the aisle and from 41 hearings held by our subcommittee this spring. The final version reflects the input of hundreds of individuals and organizations during these hearings.

The bill includes an increase of $123 million for the National Park Service operational accounts to fund an additional 1,500 FTE positions. This staff will help reinvigorate the Park Service for its centennial in 2016. An additional $24 million is included as interim funding for the new centennial matching grants program for 2008. This will get the program going while the authorizing committees complete negotiations to find a funding source for this new mandatory program. An increase of $39 million is provided for our national refuge system to begin refurbishing our refuges and replacing the 600 positions which have been lost since 2004.

☐ 2000

$145 million is provided for the National Endowment for the Arts, an increase of $20 million, to partially restore this program to the levels 12 years ago. The gentlewoman from New York has been my partner as we fought to restore this program to the levels of 12 years ago.

The bill includes an increase of $165 million for the Indian Health Service to cover medical inflation and ensure adequate medical care for Native Americans, one of this country's most disadvantaged populations.

An increase of $169 million over the 2007 level is provided for various firefighting programs, $81 million more than requested by the President. And $188 million is provided for climate change programs, including $43 million for the EPA and $32 million at the U.S. Geological Survey. Included for the USGS is $7.5 million to expand its climate research, of which $2.5 million is for a new global warming and wildlife center.

$20 million is provided for the EPA geographic program to ramp up the cleanup of Puget Sound, which is the Nation's second largest estuary and which has been in serious decline.

In this bill, we have also addressed the very serious environmental challenges that exist in the Chesapeake Bay, the Great Lakes, and other major bodies of water in the United States. These increases represent a significant redirection of funds to priorities which we believe serve the country's present and future needs and have not been adequately addressed by President Bush. But the President's requirement that our bill be reduced by $1 billion below the original House level has forced us to make very painful reductions. As I said at the beginning, these were tough choices.

Mr. Chairman, in concluding these remarks, I want to thank Mr. TIAHRT. And I would like to say to my colleagues on the Republican side, I have never seen a year in which Democrats and Republicans at the committee level, at the subcommittee level have worked better and have had better information on both sides of the aisle and have worked to adequately address earmarks to reduce the number of these earmarks very dramatically. So I would say that there has not been a lack of cooperation. There has been outstanding cooperation on the entire subcommittee.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from Indiana (Mr. PENCE).

Mr. PENCE. Mr. Speaker, I rise today in opposition to the rule and in particular opposition to this ominous omnibus bill that comes to the floor of the Congress today.

I am tempted to say to the American people, Here comes the bus, but I'm not going to get on, because this legislation represents a fundamental failure of the legislative process.

Eleven separate appropriations bills balled into one, the sheer tonnage and weight that has been visible on the screens of America tonight give evidence that this government is broken, and this budget process is broken; 3,500 pages, 34 pounds, and Members of the minority have had, at this very hour, roughly one day to review its contents.

This legislation, which we'll consider under this rule, will cost approximately $515 billion, including $44 billion designated as so-called "emergency spending," and over $10 billion in other budget gimmicks being used to artificially lower the cost.

Now, I want to commend President Bush and the men and women of good will in this Congress who have worked to lower the cost of this legislation from its House- and Senate-passed versions. There have been improvements on the margin. There has been lipstick placed on this pig, but it's still a pig; and the American people are soon to find that out.

Let's take, for example, this legislation includes $31 billion for military operations in Afghanistan for protective equipment for troops overseas, but it does not include one dime to fund our troops in harm's way at this hour serving in Operation Iraqi Freedom. I say to my patriotic colleagues in the other party, that is unconscionable that we would bring before this Congress a spending bill which, for some purpose, serves some audience far to the left of this Chamber, I suspect, who are not including a single cent for our soldiers in harm's way.

And this omnibus contains over $11 billion in so-called "emergency" and "contingency" spending. Let me favor my colleagues with some of the emergency provisions in this bill: $20 million for salaries at the Farm Service Agency, apparently salaries of employees at the Farm Service Agency unanticipated; $8 million for salaries at the Department of Justice, legal activities and salaries also at DOJ; salaries and expenses for everything from the U.S. Marshal Service to U.S. Attorneys. I mean, Mr. Speaker, where is the surprise in the emergency of finding out we have employees at the Department of Justice? And my own personal favorite here, we have a legislative emergency in the form of $100 million for Presidential security at political conventions. This is the so-called "emergency spending" which those who will point to this legislation as having come in at or near the President's numbers will not include these provisions. And there are so many more that will be explored in the months ahead.

This bill is also chock-full of the very worst kind of pork barrel spending. Let me say, Mr. Speaker, I requested earmark projects for my district, and there are some necessary infrastructure projects in this legislation for eastern Indiana. I brought every single one of them through the ordinary committee process in the light of day. But there are, we must assume, thousands of so-called "air-dropped" earmarks in this legislation which will not come to light until after this legislation is signed into law.

So it's what we don't know in this legislation that frustrates me the most; 24 hours, I say again, Mr. Speaker, 24 hours to review 3,500 pages and 34 pounds.

Twenty years ago, President Reagan came to this podium and said these words: "The budget process has broken down. It needs a drastic overhaul. With each ensuing year, the spectacle before the American people is the same as it was this Christmas," he said, "budget deadlines delayed or missed completely, hundreds of billions of dollars worth of spending packed into one bill, and the Federal Government on the brink of default." So said Ronald Reagan before this Congress two decades ago. The more things change, the more they seem to stay the same.

I was a harsh critic of reckless and wasteful spending when my party was in control; and I rise, respectfully, to register the same dissent. We can do better, Mr. Speaker. The American people expect from this Congress, whatever its management, whichever party, to do better than to pile into a heap our unfinished business the week before Christmas and send it all to the President without the light of day.

Ms. SLAUGHTER. Mr. Speaker, I am going to yield 30 seconds to the gentleman from Wisconsin, the chairman on the Committee on Appropriations, Mr. OBEY.

Mr. OBEY. Mr. Speaker, let me simply point out that the last year the Republicans were in control we had $16 billion in earmarks. This bill tonight cuts that by 42 percent. The gentleman squawks about the emergency spending; 86 percent of the emergency funds in this bill were requested by the administration.

With respect to his charge that we have 34 pounds in this budget in order to pass the domestic appropriation bills this year, that's absolutely correct. It's very heavy. You can double the weight by only printing on one side, as the gentleman has done, but the fact is, do you know how high the stack was a year ago? Here. Do you see anything? It's because you didn't pass any domestic appropriation bills whatsoever. I'll take this over nothing any time.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair reminds all Members to address their remarks to the Chair.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, it is my pleasure to yield 5 minutes to the distinguished gentleman from Texas (Mr. HENSARLING).

Mr. HENSARLING. I thank the gentleman for yielding.

It's a fascinating evening that we find ourselves in, to be asked to somehow, in less than a day, in fact, as I understand it, Mr. Speaker, this bill was filed after midnight. So on the very same day we're being asked to consider a bill, which all of America can see here, which is over 3,000 pages long.

Now, when the Democrat majority came in, they said, well, this was going to be the most fair and democratic Congress that we've ever had, that somehow a new day was dawning, that they would do business in a different way. I have not been a fan of omnibus spending legislation when my party was in control. I voted against the omnibus. It's no way to run the railroad, Mr. Speaker. In fact, when my party was in control, if an omnibus was passed, I note, for example, if I look at the CONGRESSIONAL RECORD of January 4, 2005, that to bring an omnibus piece of legislation to the floor by waiving the 3-day rule was described as "martial law" by then-Minority Leader PELOSI, now Speaker PELOSI. It's in the RECORD, Mr. Speaker. Look it up.

So somehow when she's the minority leader, Mr. Speaker, it's not okay to bring this monstrosity; in fact, it's tantamount to martial law. And yet we've heard that this is going to be such an open and democratic and fair Congress. So what is it, Mr. Speaker? Is it martial law, is it not martial law, to expect Members who haven't even seen the bill, much less read the bill, to vote on it tonight?

I heard the distinguished chairman of the Appropriations Committee come and speak to us about earmarks. Well, again, this was the leadership team that claimed that they would do better. And as I look at it, when you add in the earmarks in the one appropriations bill that was passed by regular order, you're still looking at the third highest amount of earmarks, I believe, in the history of the Republic.

Now, the Speaker herself said, and I don't have the quote in front of me, but something along the lines that she would just as soon do without earmarks. But as I've read the legislation, she doesn't appear to be leading by example in that regard.

Mr. Speaker, there are very few people who know what is in this bill. But what I do know is it spends the people's money with very little accountability. I was at a town hall meeting in my district, and I have the honor and privilege of representing the Fifth Congressional District of Texas. I was in Athens, Texas, and a constituent, a very wise man, came up to me and said, You know what? I don't think that any Member of Congress should be allowed to vote on a piece of legislation unless they've read the bill, which I guess might lend this evening's vote to one, maybe two, Members, maybe no Members. There's something to be said for that. A bad process can lead to bad outcomes, and this is a bad outcome. It spends too much of the people's money. It continues to grow the government budget faster than the family budget, the family budget that has to pay for it.

Mr. Speaker, I'm a member of the House Budget Committee. I see several of my colleagues on the Democrat side who are also serving on that Budget Committee. And we just heard testimony from the head of the Congressional Budget Office, which I might add was an appointment under this majority, this Democrat majority, who said that if we don't change the spending patterns of the Federal Government that within a generation we're looking at doubling taxes on our children and grandchildren.

Now, you can go check the RECORD. And it's not just the head of the Congressional Budget Office; it's the head of OMB, it's the Comptroller General. And yet we are asked to vote on an omnibus piece of legislation that, once again, sets us on this path to double taxes on the next generation. It's just unconscionable. Again, it robs the family budget to pay for the Federal budget.

And here's something else that's unconscionable about this: in this omnibus, we're going to pay to fund some bureaucrat in the bowels of the Commerce Department, but we won't pay for the men and women in our Nation's uniform fighting for liberty in Iraq. Well, last I looked, they're part of this Federal Government as well. They're wearing our Nation's uniform. They get paychecks drawn on the U.S. Treasury. But somehow we can find the ability, in this 3,000-page bill, to pay for every bureaucrat in Washington; but we won't fund the men and women in harm's way in Iraq. Also unconscionable.

There are so many reasons, Mr. Speaker, that this rule should be voted down, as should the entire bill.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 3½ minutes to the gentleman from California, the chairman of the Committee on Education and Labor, Mr. GEORGE MILLER.

□ 2015

Mr. GEORGE MILLER of California. Mr. Speaker, Members of the House, I want to thank the gentlewoman for yielding, and I want to recognize the difficult choices that the Appropriations Committee had in dealing with the education portion of this legislation. At a time when this administration is almost $55 billion behind its promises to the American people, to the parents of this country, to the children of this country, to the educators of this country, of the resources that would be available in title I, we find that, in fact, we are only going to be able to add about $1 billion, a little over $1 billion this year, which is completely insufficient, at a time when schools and school districts are struggling to make the reforms required under No Child Left Behind.

But I want to thank the Appropriations Committee, because as difficult as that choice is to only provide that small amount of money, they were able to make of that portion of the money almost $500 million available to schools in need of improvement. These are schools that we were supposed to have started helping out 3 and 4 years ago. This is the first time this money has ever been put in this budget to help these schools that have been recognized as needing very substantial improvement to improve the opportunities of the children in those schools for a decent education, but this bill is the first time that we have done that. The administration has ignored that over the last 6 years.

I also see that the committee was able to restore some of the money for educational technology, a subject that is becoming more and more important in terms of improving our schools, improving the opportunity of students to learn, and improving opportunities for students to understand the technologies that they are going to have to grasp in the workplace and in higher education. The President's budget zeroed that money out. The Appropriations Committee, under the leadership of Mr. OBEY, was able to restore almost all of it, the money that was available in the last year.

Now I see that we have been able to add $259 million to IDEA, which is able to take it above the President's request, which was a cut in education for students with disabilities. Once again, the Republicans, when they were in the minority, promised that they would fully fund IDEA because districts are struggling with the education of students with disabilities, and they signed letters, they passed resolutions, they did all of it. The day they came in power, they stopped funding IDEA. So it has been flat-funded while school districts struggle with both trying to deal with school reform and the education of students with disabilities.

So this committee, I think, made some good choices, difficult choices, insufficient choices. But if you look at what the President had recommended for educational technology, if you look at what the President had recommended to help schools with English learners in those schools, this is a dramatically better budget, but an insufficient budget for the education, but it is completely insufficient for the education of America's children. Don't go home and tell your constituents how well you understand the tools that they need to compete in a globalized world, in a globalized economy, because you have absolutely failed to provide them, and this administration has failed to provide them.

Fortunately, the Appropriations Committee has been able to recalibrate some of the numbers and to move some of the money around for these high-priority areas. I am only so sorry that we weren't able to do better by America's children and their families.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, a prior colleague who spoke said that this 34-pound bill was that size and weight because of our photocopying. I just want to make clear for the RECORD that it was handed to us by the majority like that.

I yield 3½ minutes to the distinguished gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. I thank the gentleman for yielding.

Mr. Speaker, those of us who have teenage kids at home know very well the saying "nothing good happens after midnight." That is why you have a curfew. Nothing good happens after midnight.

I would say the same holds true when you are putting together an omnibus. Here is what you get when you pass an omnibus and you present it after midnight; 34 pounds, some 3,400 pages of documents here that we have no idea what is in there. Any Member who says that he has read it isn't telling you the truth. Nobody has read through this thing. We will be discovering for months items that are in this bill that we simply don't know. Preliminary analysis, and you will hear me say this several times, because that is all you can do is a preliminary analysis, a cursory reading will tell you that there are 9,241 earmarks in this omnibus bill.

Now, we earlier in the year passed a couple of bills without any earmarks in saying we would probably be nearly earmark free when it comes to the omnibus, or when it comes to the end of the year, MILCON and I think Homeland Security, because typically, particularly Homeland Security, that bill is not traditionally earmarked. Well, guess what? It is now. There are well over 100 earmarks in the Homeland Security one, and I think over 150 in the MILCON, earmarks that I have never seen, I don't think anyone in this body has seen until midnight last night. So those are air-dropped earmarks, more than 300 of them, I think, in this bill that we have had no opportunity to see, let alone challenge on the House floor, we are just seeing for the first time now.

Let me just give you an idea of what happens when you do things after midnight. Here are a few of the earmarks that were slipped in. These, by the way, we are always told that you have to leave it open to air-dropped earmarks because there are vital things that need to be done. Maybe there is a natural disaster somewhere, something that you have to account for. Well, here is what was added last night. One was a $1.8 million earmark for the East Capitol Center for Change, Capitol Area Asset Building Corporation, and the National Center for Fatherhood to administer Marriage Development Accounts in the District of Columbia. That is something that couldn't wait for a regular bill to go through? Did we have to do that in the middle of the night? How about $400,000 for the Burchfield-Penny Art Center in Buffalo? The Burchfield-Penny Art Center was so important that we had to airdrop it into this bill and not have any challenge, any way to challenge it on the House floor.

Let me remind my colleagues that we agreed in the transparency rules earlier this year that if there were air-dropped earmarks into a bill, we would have an opportunity to offer a point of order to strike them out, to at least eliminate them. We can't do that here because this is not a conference report. This is an amendment between the Houses.

We have had that before. Rules are only as good as your willingness to enforce them, and we have seen a pattern of unwillingness to enforce the rules or to seek ways around them. Now, some will stand up and brag and say, Hey, we have 40 percent fewer earmarks here than we had 2 years ago. They will say we have 40 percent fewer, the dollar value is down. Well, if you look at last year, we have, I think the figure is, about 400 percent more earmarks than last year. It is hardly, hardly a mark of fiscal discipline to have 9,200 earmarks in this bill when you have already had 2,000 pass in the defense bill. For one, that is not a 40 percent reduction, and two, it is about a 400 percent addition to last year.

Let's reject this rule and reject this bill.

Ms. SUTTON. Mr. Speaker, I yield 2 minutes to the gentlewoman from New York, the chairwoman of the Appropriations Subcommittee on State, Foreign Operations and Related Programs, Mrs. LOWEY.

Mrs. LOWEY. Mr. Speaker, I rise in strong support of the rule and of the Consolidated Appropriations Act, specifically division J on State and Foreign Operations. Division J reflects a bipartisan, bicameral effort by Ranking Member WOLF, myself, Senator LEAHY and Senator GREGG to address our strategic priorities, national security interests and invest in development, poverty reduction and global health. I also wanted to thank Speaker PELOSI and Chairman OBEY for their knowledge and their commitment to the priorities in this bill.

Just a few highlights. For those of us who did read the bill, what do we have, 20 hours, 3,500 pages. I am sure if you all divided it up, you would have a good understanding of what is in that bill.

Some highlights: $6.5 billion, $796 million above the President's request, for HIV/AIDS and other global health programs; $1.5 billion to address humanitarian emergencies, including Iraqi refugees; $550 million for the U.N. peacekeeping mission in Darfur, funding for Liberian security sector assistance and increased assistance for Africa; an expansion of basic education, safe water, environmental programs; $1.544 billion, 344 million above the Senate-passed level, for the Millennium Challenge Account. This funding will allow them to undertake all planned compacts and threshold programs this year. It maintains Israel's qualitative military edge. It maintains our development and security assistance to the people of Pakistan, assistance central to helping them fight al Qaeda, the Taliban and associated terrorist groups.

And I want to especially thank our staff for their tireless work in crafting the bipartisan bill, the division J of this Consolidated Appropriations Act. This bill will help make America be more secure and improve the lives of millions around the world, and I encourage my colleagues to vote for this bill.

Mr. LINCOLN DIAZ-BALART of Florida. I would ask my friend how many speakers she has remaining.

Ms. SUTTON. We have two speakers remaining.

Mr. LINCOLN DIAZ-BALART of Florida. I would reserve at this time.

Ms. SUTTON. Mr. Speaker, I yield 1½ minutes to the gentleman from Texas, the chairman of the Appropriations Subcommittee of Military Construction, Veterans Administration and Related Agencies, Mr. EDWARDS.

Mr. EDWARDS. Mr. Speaker, this bill sends a clear message to America's service men and women, their families and their veterans that a grateful Nation deeply respects their service and sacrifice, provides the largest increase in VA health care funding in the 77-year history of the VA. The bill also provides funds to hire 1,800 new VA claims processors to reduce the serious backlog of benefits claims and reduce the time to process them.

On the military construction side, we increased $4.37 billion for BRAC, military construction and family housing, a 29 percent increase over last year.

I want to salute Speaker PELOSI and Chairman OBEY for making veterans and support of our military families the highest of priorities in the new Congress. Millions of America's veterans and military families will receive better health care and have a better quality of life because of their dedication to them.

I want to thank the majority subcommittee staff, an outstanding staff, the best anybody would have a right to work with, Carol Murphy, Tim Peterson, Walter Hearne, Donna Shahbaz and Mary Arnold, the outstanding minority subcommittee staff, Liz Dawson, Dena Baron, and my staffer, John Conger. I hope to offer a special note to the son of a distinguished Army soldier, Rob Nabors, Chief Clerk of the Appropriations Committee. Because of Mr. Nabors' good judgment, professionalism, calm demeanor and dedication, America's veterans and our military will benefit not just this year but for decades to come. Tonight, Mr. Nabors' father has a right to be especially proud of his son. And let me, along with that, thank Mr. WICKER for his partnership from day one in this effort.

The SPEAKER pro tempore. The gentleman from Florida continues to withhold his time.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. I thank my friend for yielding.

Mr. Speaker, with governing comes responsibility. The responsible vote on this rule and this bill is "yes." The minority has talked about responsibility for the military. They are right. That is why this body and the other body passed a Defense Appropriations bill, $459 billion to support the military. The other side talks about responsibility for reducing the deficit. They didn't reduce the deficit when they were in the majority. We are reducing it by passing a budget that puts us back on the path to a balanced budget.

We also have a responsibility to listen to the concerns that are being raised by the men and women that we represent. They are worried about gangs and drugs. So this bill puts 34 percent more money into drug courts, nearly doubles the amount of money being spent on police support programs around the country. They are worried about porous borders and people coming into the country illegally. So this bill puts 15 percent more into customs and border enforcement. They are worried about high heating costs, being unable to pay their utility bills. So this bill puts 21 percent more into the program that helps people pay their utility bills.

Finally, there is all this talk about supporting and saluting our veterans. This bill stops talking and starts acting with a request that matches that which the veterans service organizations of this country asked us for, the largest increase in veterans health care in the history of the country. The responsible vote is "yes." The irresponsible political course is to complain. Let's do the country's business, pass this rule, and pass this bill.

☐ 2030

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I will be asking for a "no" vote on the previous question so that we can amend this rule and allow the House to consider a change to the rules of the House to restore accountability and enforceability to the earmark rule while closing the loopholes we have found over the last few months.

Under the current rule, so long as the chairman of a committee of jurisdiction includes either a list of earmarks contained in the bill or report, or a statement that there are no earmarks, no point of order lies against the bill. This is the same as the rule in the last Congress. However, under the rule as it functioned under the Republican majority in the 109th Congress, even if the point of order was not available on the bill, it was always available on the rule as a "question of consideration." But because the Democratic Rules Committee specifically exempts earmarks from the waiver of all points of order, they deprive Members of the ability to raise the question of earmarks on the rule or on the bill.

The earmark rule is also not applicable when the majority uses a procedure to accept "amendments between the Houses," such as with this legislation, the omnibus appropriations bill. Because the omnibus is not a conference report, the bill falls squarely within one of the loopholes to the earmark rule and the rules of the House will not require any disclosure of earmarks contained in the legislation. Any action as announced previously by the chairman of the Appropriations Committee is at his discretion.

I would like to direct all Members to a letter that House Parliamentarian, John Sullivan, recently sent to Rules Chairwoman SLAUGHTER, which confirms what we have been saying since January, that the Democratic earmark rule contains loopholes. In his letter to Chairwoman SLAUGHTER, the Parliamentarian states that the Democratic earmark rule "does not comprehensively apply to all legislative propositions at all stages of the legislative process."

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, October 2, 2007.

Hon. LOUISE MCINTOSH SLAUGHTER,
Committee on Rules, House of Representatives, Washington, DC.

DEAR CHAIRWOMAN SLAUGHTER: Thank you for your letter of October 2, 2007, asking for an elucidation of our advice on how best to word a special rule. As you also know, we have advised the committee that language waiving all points of order "except those arising under clause 9 of rule XXI" should not be adopted as boilerplate for all special rules, notwithstanding that the committee may be resolved not to recommend that the House waive the earmark-disclosure requirements of clause 9.

In rule XXI, clause 9(a) establishes a point of order against undisclosed earmarks in certain measures and clause 9(b) establishes a point of order against a special rule that waives the application of clause 9(a). As illuminated in the rulings of September 25 and

27, 2007, clause 9(a) of rule XXI does not comprehensively apply to all legislative propositions at all stages of the legislative process.

Clause 9(a) addresses the disclosure of earmarks in a bill or joint resolution, in a conference report on a bill or joint resolution, or in a so-called "manager's amendment" to a bill or joint resolution. Other forms of amendment—whether they be floor amendments during initial House consideration or later amendments between the Houses—are not covered. (One might surmise that those who developed the rule felt that proposals to amend are naturally subject to immediate peer review, though they harbored reservations about the so-called "manager's amendment," i.e., one offered at the outset of consideration for amendment by a member of a committee of initial referral under the terms of a special rule.)

The question of order on September 25 involved a special rule providing for a motion to dispose of an amendment between the Houses. As such, clause 9(a) was inapposite. It had no application to the motion in the first instance. Accordingly, Speaker pro tempore Holden held that the special rule had no tendency to waive any application of clause 9(a). The question of order on September 27 involved a special rule providing (in pertinent part) that an amendment be considered as adopted. Speaker pro tempore Blumenauer employed the same rationale to hold that, because clause 9(a) had no application to the amendment in the first instance, the special rule had no tendency to waive any application of clause 9(a).

The same would be true in the more common case of a committee amendment in the nature of a substitute made in order as original text for the purpose of further amendment. Clause 9(a) of rule XXI is inapposite to such an amendment.

In none of these scenarios would a ruling by a presiding officer hold that earmarks are or are not included in a particular measure or proposition. Under clause 9(b) of rule XXI, the threshold question for the Chair—the cognizability of a point of order—turns on whether the earmark-disclosure requirements of clause 9(a) of rule XXI apply to the object of the special rule in the first place. Embedded in the question whether a special rule waives the application of clause 9(a) is the question whether clause 9(a) has any application.

In these cases to which clause 9 of rule XXI has no application in the first instance, stating a waiver of all points of order except those arising under that rule—when none can so arise—would be, at best, gratuitous. Its negative implication would be that such a point of order might lie. That would be as confusing as a waiver of all points of order against provisions of an authorization bill except those that can only arise in the case of a general appropriation bill (e.g., clause 2 of rule XXI). Both in this area and as a general principle, we try hard not to use language that yields a misleading implication.

I appreciate your consideration and trust that this response is to be shared among all members of the committee. Our office will share it with all inquiring parties.

Sincerely,

JOHN V. SULLIVAN,
Parliamentarian.

Mr. Speaker, my amendment will restore the accountability and enforceability of the earmark rule. I urge my colleagues to close this loophole in the earmark rule by opposing the previous question.

Mr. Speaker, I ask unanimous consent to insert the text of the amendment and extraneous materials immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield back the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I urge a "yes" vote on the previous question and on the rule.

The material previously referred to by Mr. LINCOLN DIAZ-BALART of Florida is as follows:

AMENDMENT TO H. RES. 878

OFFERED BY MR. LINCOLN DIAZ-BALART OF FLORIDA

At the end of the resolution, add the following:

SEC. 3. That immediately upon the adoption of this resolution the House shall, without intervention of any point of order, consider the resolution (H. Res. 479) to amend the Rules of the House of Representatives to provide for enforcement of clause 9 of rule XXI of the Rules of the House of Representatives. The resolution shall be considered as read. The previous question shall be considered as ordered on the resolution and any amendment thereto to final adoption without intervening motion or demand for division of the question except: (1) one hour of debate equally divided and controlled by the chairman and ranking minority member of the Committee on Rules; (2) the amendment printed in section 4, if offered by Representative Boehner of Ohio or his designee, which shall be in order without intervention of any point of order or demand for division of the question, shall be considered as read and shall be separately debatable for forty minutes equally divided and controlled by the proponent and an opponent; and (3) one motion to recommit with or without instructions.

SEC. 4. The amendment referred to in section 2 is as follows:

Strike all after "That" and insert the following:

(1) Clause 9(a) of rule XXI is amended by striking "or" at the end of subparagraph (3), striking the period at the end of subparagraph (4) and inserting "; or", and adding the following at the end:

"(5) a Senate bill held at the desk, an amendment between the Houses, or an amendment considered as adopted pursuant to an order of the House unless the Majority Leader or his designee has caused a list of congressional earmarks, limited tax benefits, and limited tariff benefits in the bill and amendments (and the name of any Member, Delegate, or Resident Commissioner who submitted the request for each respective item in such list) or a statement that the proposition contains no congressional earmarks, limited tax benefits, or limited tariff benefits to be printed in the Congressional Record prior to its consideration.".

(2) Clause 9(c) of rule XXI is amended to read as follows:

"(c) As disposition of a point of order under paragraph (a), the Chair shall put the question of consideration with respect to the proposition. The question of consideration shall be debatable for 10 minutes by the Member initiation the point of order and for 10 minutes by an opponent, but shall otherwise be decided without intervening motion except one that the House adjourn.".

(The information contained herein was provided by Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives, (VI, 308–311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Democratic majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the definition of the previous question used in the Floor Procedures Manual published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information form Congressional Quarterly's "American Congressional Dictionary": "If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business."

Deschler's Procedure in the U.S. House of Representatives, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Ms. SLAUGHTER. Mr. Speaker, I yield back the balance of my time and move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

PROVIDING FOR THE SINE DIE ADJOURNMENT OF THE FIRST SESSION OF THE 110TH CONGRESS

Ms. SLAUGHTER. Mr. Speaker, I offer a privileged concurrent resolution (H. Con. Res. 271) and ask for its immediate consideration.

SEC. 3. The Speaker of the House and the Majority Leader of the Senate, or their respective designees, acting jointly after consultation with the Minority Leader of the House and the Minority Leader of the Senate, shall notify the Members of the House and the Senate, respectively, to reassemble at such place and time as they may designate if, in their opinion, the public interest shall warrant it.

The SPEAKER pro tempore. The question is on the concurrent resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, on that I demand the yeas and nays.

RULE OF LAW AND BORDER SECURITY IN EGYPT

SEC. 699Q. (a) The Senate makes the following findings:

(1) Fighting in Gaza during the summer of 2007 demonstrated that the terrorist organization Hamas, which unlawfully seized control over Gaza in June 2007, has been able to achieve a dramatic increase in the quantity and sophistication of arms at its disposal.

(2) Without these arms, the terrorist organization would not have been able to seize control over the Gaza territory.

(3) There is substantial evidence that a significant proportion of these arms were smuggled across the border between Gaza and Egypt.

(4) The Egyptian military is a capable force, made possible in substantial part by a close relationship with the United States.

(5) Concurrent with the escalation of dangerous arms smuggling across the border between Egypt and Gaza has been a retrogression in the rule of law in Egypt.

(6) This loss of hard-earned ground has been characterized by reports of harsh reaction by the Government of Egypt to dissent, including the jailing of political opponents.

(7) The United States has provided aid to Egypt in excess of $28,000,000,000 over the past three decades.

(b) The Senate—

(1) reaffirms its long-standing friendship with the people of Egypt;

(2) believes that our friendship with Egypt requires the Senate to address such vital policy concerns;

(3) urges the Government of Egypt to make concrete and measurable progress on restoring the rule of law, including improving the independence of the judiciary and improving criminal procedures and due process rights and halting the cross-border flow of arms to Gaza;

(4) believes it is the best interest of Egypt, the region, and the United States that Egypt takes

prompt action to demonstrate progress on these matters; and

(5) urges the Department of State to work vigorously and expeditiously with the Government of Egypt and the Government of Israel to bring the border between Egypt and Gaza border under effective control.

This Act may be cited as the "Department of State, Foreign Operations, and Related Programs Appropriations Act, 2008".
